

# **Homework Policy**

In accordance with Tulare City School District's homework policy, fifth grade students will receive no more than 50 minutes of homework each night. Students must read for at least 20 minutes Monday through Thursday and complete any unfinished classwork. Students must also do a reading log every night, which is a 5 sentence summary of what they read. If your child spends more than 50 minutes on homework each night and you would like to reduce this, please let me know so that I may find a way to help. I greatly appreciate any support you give your children with their homework each night!
