

Sand Devils After-School Learning Center

Powered by the
21st Century Community Learning Grant

Thanks to the 21st Century Community Learning Center Grant, which was established by Congress, helps rural and inner-city public schools extend their school day to allow students to advance their learning success, Page High School has been able to establish the Sand Devil After-School Learning Center.

The Sand Devils After-School Learning Center was created to provide academic support in core subjects such as reading, math and science. Along with academic support in the core subjects, the Learning Center offers students Athletic Tutoring for student athletes that need additional help to be eligible to play sports and Credit Recapture for those students who are trying to make up credits that will go toward graduation. The Learning Center also provides a broad array of enrichment activities. Some of our enrichment activities include:

- ❖ Auto Tech
- ❖ Game Design
- ❖ Drama
- ❖ Photography & Pinhole Camera building,
- ❖ SADD – Students Against Destructive Decisions
- ❖ Welding
- ❖ Anime/Manga

The Sand Devils After-School Learning Center is an excellent opportunity for students to receive some extra one-on-one time and help from certified teachers in academic areas where they may be having difficulties. We are very excited to have the Learning Center available to **all** students at Page High School.

Please encourage your student to come and take advantage of the Sand Devils After-School Learning Center as well as join in our enrichment programs.

If you have any questions, please contact Kristy Rivers, 21st Century Community Learning Grant Coordinator at Page High School, at 928-608-4100 ext 5142.
