

TUHSD TECH QUICK GUIDE: Blackboard – Importing and Exporting Tests

This is a workaround for copying tests from one class to another using the export/import tools within Blackboard Learn.

1. To copy an already-created test within Blackboard, locate the **Class Management** panel within the course that contains the test to be exported.

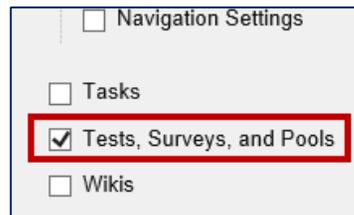

2. Select the **Packages and Utilities** category and click **Export/Archive Class**.

3. Click **Export Package**.

4. Scroll down the page and select **Tests, Surveys, and Pools**.

5. Click **Submit**.

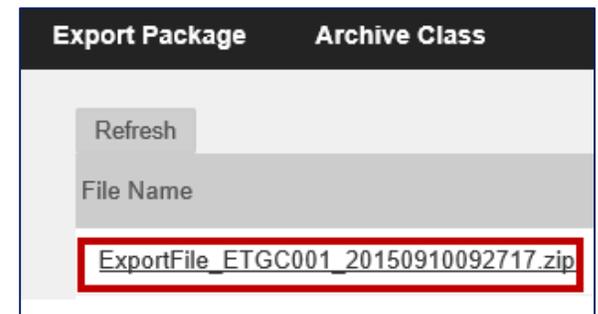

6. Note the status on the top of the page.

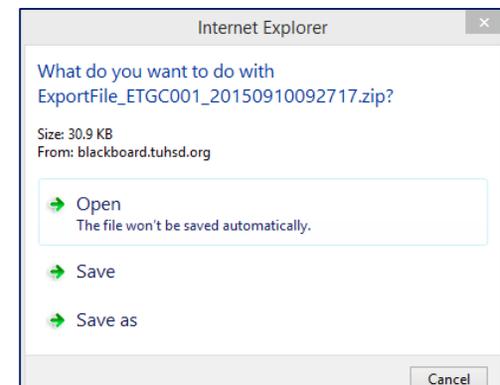

7. Refresh the page to view the export file.

8. Click on the file link.

9. Save the file in an easy-to-find location on your computer.

TUHSD TECH QUICK GUIDE: Blackboard – Importing and Exporting Tests

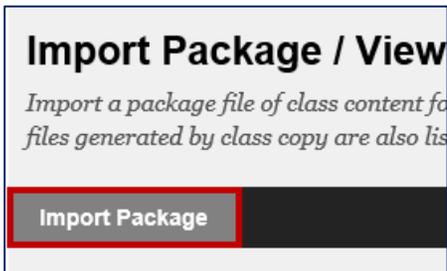

10. Select a class to which you wish to import the test(s).

11. Locate the **Class Management** section in the class.

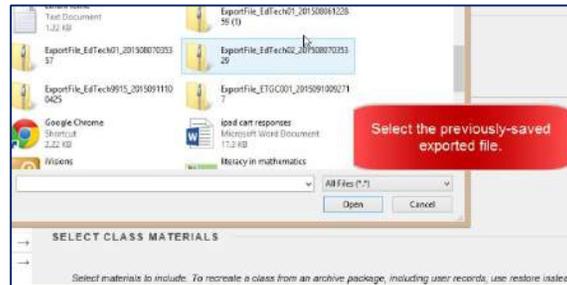

12. Select **Packages and Utilities** and click on **Import Package / View Logs**.

13. Click **Import Package**.

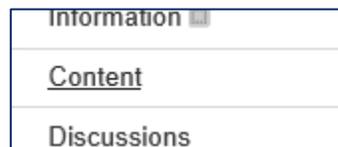

14. Locate and select the previously exported file from your computer.

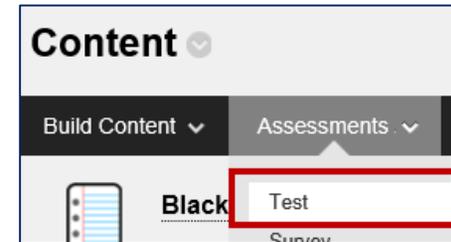

Note the import status on top of the page.

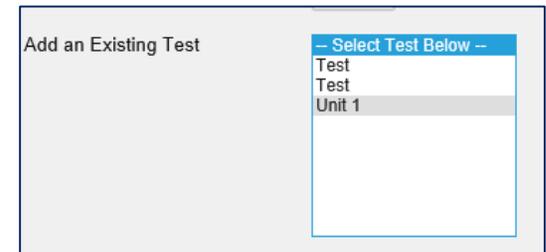

15. When the import is complete, click on a content page within your class.

16. Select **Assessments** from the action bar and click **Test**.

17. Locate and select the imported test from the list. Click **Submit**.

18. Complete the form to assign the test to the class.

Repeat the import process to add the test to other classes.
