Score Range Scores in this range are similar to yours.

Percentile The percentage of test takers who scored below your score.

National Merit Scholarship Corporation

The National Merit Scholarship Corporation (NMSC) uses a Selection Index based on PSAT/NMSQT scores as an initial screen of over 1.5 million students who enter its scholarship programs. (See reverse for more information.)

Your Selection Index

Sum of scores in critical reading, mathematics and writing skills.

146

Percentile Compares your performance with college bound juniors.

47

Entry Requirements

(Information you provided on your answer sheet.)

High school student.

YES

Year to complete high school and send full-time to college.

2015

Years to be spent in grades 9-12.

4

Eligibility Information

If your Selection Index places you among the 25,000 high scorers who qualify for program recognition, you will be notified next September.

Your Skills

These skill categories can help you understand your score and focus your study of topics before you take the SAT.

National Merit Scholarship Corporation

National Merit Scholarship Corporation (NMSC) uses a Selection Index based on PSAT/NMSQT[®] scores as an initial screen of over 1.5 million students who enter its scholarship programs. (See reverse for more information.)

Your Selection Index

Sum of scores in critical reading, mathematics and writing skills.

146

Percentile

Compares your performance with college-bound juniors.

47

Entry Requirements

(Information you provided on your answer sheet.)

High school student:

YES

U.S. citizenship:

YES

Year to complete high school and enroll full-time in college:

2014

Years to be spent in grades 9–12:

4

Eligibility Information

If your Selection Index places you among the 55,000 high scorers who qualify for program recognition, you will be notified next September.

The Entry Requirements section displays information you provided on your answer sheet.

your code below:

Organization & Ideas: 2 of 8 questions correct (2 omitted)

Data, Statistics & Probability: 6 of 8 questions correct (1 omitted)

Correctly Formed Sentences: 1 of 6 questions correct (4 omitted)

Relationships of Sentences & Paragraphs: 1 of 6 questions correct (3 omitted)

Online Access Code: **A02670146P**

See test questions and review explanations of the answers at www.collegeboard.org/quickstart

You can also ask your counselor for a copy of your test book back so you can review the questions.

Key:
✓ Correct
○ Omitted
u Unscorable

Scoring:
• Correct answer = PLUS 1 POINT
• Omitted answers = 0 POINTS
• Wrong answers to multiple-choice questions = MINUS 1/4 POINT
• Wrong answers to math questions 28–38 = NO LOG POINTS
• Points are totaled, then converted to scores on the 28–38 scale

Key
 ✓ Correct o Omit
 ✗ Incorrect m. Medium h. Hard

Scoring
 • Correct answer = PLUS 1 POINT
 • Omitted answers = 0 POINTS
 • Wrong answers to multiple-choice questions = MINUS 1/4 POINT
 • Wrong answers to math questions 28-36 = NO LOG POINTS
 • Points are totaled, then converted to scores on the 28-36 scale.

My Skills Feedback

This feedback was created especially for you, based on your PSAT/NMSQT results.

1. Select a skill with a lower performance bar and review the test questions you answered incorrectly. Then try the question again and read the answer explanations.
2. If you find the practice questions too easy, you're probably ready for the next harder level. If you find them too hard, try the next easier level.

Review and Practice

The SAT® gives you a chance to show how well you understand what you read. Like the PSAT/NMSQT®, the SAT has two types of multiple-choice questions in the critical reading section:

- **Sentence completion** questions test your vocabulary and your understanding of sentence structure.
- **Passage-based reading** questions test your comprehension of what is stated in or implied by the passage, not your prior knowledge of the topic.

▶ **ISFZ The Provider**

introverting feeling
sensing organizing

ISFZs are responsible, caring, reserved, and cooperative. As an ISFZ you have a modest style of helping others in orderly and practical ways. You believe it is important to follow rules and laws; similarly, you adhere to routine and prefer to see traditions preserved with little change. You are prone to worry about things beyond your control and may appear to be less confident because of your tendency to become stressed or agitated and not ask for help.

About 6%
of MyRoad
participants

You like to be with a few close friends and family members and to offer personal support wherever and whenever needed. You are good at coordinating tasks and activities for everyone but may become overburdened by taking on other people's problems. Likewise, you don't ask for the recognition you would like to have. You are quietly loyal to family, friends, and groups and institutions that are important to you, and you hope others will be as loyal in return. You avoid interpersonal conflict at all costs.

As an ISFZ you are an organized and focused learner who is good at memorizing facts and details related to people. You reliably meet deadlines and obligations. You excel at coordinating and scheduling your own activities and keep yourself and your belongings neat and in good order. You prefer to work on projects and tasks that are useful in a practical way.

▶ **Your Strengths Include...**

- A practical and dependable nature.

CIVIL ENGINEERING

[Overview](#) | [High School Courses](#) | [College Courses](#) | [Career Connection](#) | [Perspectives](#) |[Majors A-Z](#)[My Interest](#)[High](#) [Medium](#) [None](#)

Updated: 8-31-2009

[Topics](#)[Construction Engineering & Management](#)[Environmental Engineering](#)[Geological Engineering](#)[Geotechnical Engineering](#)[Mining Engineering](#)[Overview](#)

The ancient Egyptians built pyramids and levees. The Romans built aqueducts and the Colosseum. The Persians and ancient Greeks undertook massive building projects. Civil engineering has been practiced for thousands of years.

Civil engineers plan, design, build, and repair just about anything you can think of. That includes buildings, bridges, dams, tunnels, highways, stadiums, sewage treatment plants, power plants, airports, and even satellites. These days they're also in demand to repair the damage caused by natural disasters such as earthquakes, hurricanes, and floods. And our crumbling public structures, from bridges to tunnels, all need civil engineers to repair them.

Civil engineers plan, design, build, and repair just about anything you can think of.

Civil engineers specialize in different areas. Transportation engineers, for example, tackle problems like traffic jams and air travel safety. Water resources engineers work to control the flow of rivers and ensure clean drinking water.

As a civil engineering major, you'll take classes in several fields before focusing on one. But you'll find there's overlap in some course work. For instance, you'll learn how to build structures that can stand up to earthquakes in both geotechnical and structural engineering. In a geotechnical engineering course, you'll focus on soil structure and foundation design. But when you study structural engineering, you'll be more concerned with designing
