

Our Philosophy

Everyone who has the desire has access to the freedom and grace that sliding on the snow offers.

Safety first, then fun, and then skills. This is your day on the mountain, and we want you to enjoy it in a safe environment.

Our one-on-one instruction with trained coaches provides the support you will need to learn to ski or snowboard. We often work in teams for added safety, support, and coach training.

We keep the goals of the student in the forefront when planning the lesson. We adapt as needed and keep it simple.

We are your host here at Ski Apache. If you forget something, we have sunscreen, bibs, gloves, sunglasses, and goggles for you to use. Our room is your room too. You are welcome to use the fridge and the bathroom, to store your gear, or to rest and rehydrate.
