West York Area School District Controls Costs

FOR IMMEDIATE RELEASE

Each year the West York Area School District's financial records are audited by an independent local firm. The audit applies to federal, state, and local money, and is performed to make sure there are safe controls on investments and that federal grant funds are disbursed and revenues calculated according to established parameters. The latest audit, covering the period ending June 30, 2014, has been completed. The auditing firm of Kochenour, Earnest, Smyser and Burg did not identify any deficiencies with internal control over financial reporting that they consider to be a material weakness. The District was able to decrease estimated expenses through the use of grants, federal programs, and prudent management of resources. These efforts allowed the District to decrease expenditures and insure the financial stability of its future.

For more information, please contact Dr. Emilie Lonardi, Superintendent.
