Littleton Elementary School

Monday, March 2nd kicked off our “*Read Across America Week*” with a door decorating contest. All of the teachers competed and the competition was tough. The teachers picked a book to read with their students. Then, they selected a theme to decorate their doors. The doors were judged and the winner was **Ms. Kelsey’s** 7th grade class with an innovative 3D Red Box rental theme. Second place went to **Ms. Vasquez’s** 6/7 ELL Combo class with a Blogger theme and third place winner went to **Mr. Martinez’s** class with their Cat in the Hat theme. Everyone put in a lot of creative work into the door decorating – it was quite impressive.

Each classroom read, *Oh, The Places You Will Go* and the students highlighted the Kids at Hope four destinations (Home and Family, Education and Career, Community and Service, and Hobbies and Recreation). Students reflected and wrote about the places they are planning to go in their lives. In addition, Littleton Firebirds held a uniform drive – we collected loads of polo shirts and kaki’s for any of our own needy students. Also, we had classroom pair ups where teachers paired up their classrooms and planned activities where the students worked together. Some of the activities included: cleaning up the campus and helping our custodial manager, **Ms. Gloria Lira**, planting plants, writing to retirement homes and soldiers in Iraq. Most importantly, it was about fun and reminding our students how much we care and believe in them!

And..... let's not forget our first grade team – *Ms. Gazmen*, *Ms. Puebla*, and *Ms. Deppe* showing their team spirit as well.

Students brought their favorite story book for the parade, or they designed a book cover, or a poster that encouraged reading. The class chose which one of these they wanted to showcase while they strutted their stuff around our campus for all to see. Believe me – it was quite the sight. Too much cuteness for any one day.

Estrella Vista Elementary School

Happy New Year and welcome to 2015! EVES hope everyone had a wonderful winter Break. We are looking forward to a *S.W.A.G-tastic* start to the second half of the school year.

Estrella Vista welcomed three new teachers this January. Starting with our *Reading Intervention Specialist, Mrs. Laurie McCracken*, who will be working with small groups from kindergarten through third grades. In kindergarten, we are excited *Ms. Marissa Lehnig* has joined our team. Finally, we are thrilled to announce the opening of a sixth grade classroom under *Ms. Michelle Gerrick's* leadership.

In an effort to ensure our students were refocused on taking responsibility for their learning and behavior, all students, faculty, and staff members discussed each of the components of the *Make Your Day* program. Students in *Mr. Bryant's Classroom* took the activity one step further. The students created and recorded commercials for each component of the *Make Your Day* Program. Kudos to *Mr. Bryant's* students for using technology as an innovative teaching tool.

Research says when we have high expectations for our students – they reach for them! We are proud to report during the middle of the month, students in grades 3-8 demonstrated their academic knowledge by completing the ELA and math comprehensive assessments. The results of these assessments will provide teachers, students, and parents alike with feedback on those areas which have been learned as well as those academic areas needing to be addressed further. Thank you to all of *EVES Treasure Hunters* for believing: All Children are capable of success, NO EXCEPTIONS!!!

Students achieving *perfect attendance*, earning *principal's list* (those earning all As), or earning *honor roll* (those earning all As and Bs) were provided the opportunity to stand proudly in front of their parents and peers to highlight their achievements for 2nd quarter on January 16th. The following teachers are the exemplars for the parent teacher conferences as they had 100% participation: *Ms. Reiger, Ms. Valenzuela, Ms. Ciadella, Ms. Irwin, Ms. Smith, Ms. Tilly, Ms. Meskauskas, Ms. Lozoya, Ms. Boon, Ms. Williams, Ms. Mager, Ms. Singh, and Ms. Presz.* "No one can whistle a symphony. Friday, October 10th *Ms. Singh* and her students held Pumpkin Day in their room. The students started off by guessing what would be inside the pumpkin and charted their responses. Some of the students guessed: Cookie Monster, toys, and pumpkin pie. The students sat and watched excitedly as *Ms. Singh* cut the pumpkin open and showed them what was inside. The pumpkin was passed around so that everyone could touch, feel, and smell the insides. The reactions of the students when they grabbed the insides of the seeds was priceless. *Ms. Singh* had a lot of "Ohh, that's gross," comments as they felt the slimy seeds with their hands.

Once the students were done exploring the innards of the pumpkin the seeds were extracted. They had a contest as to who could guess the amount of seeds found in the pumpkin. The grand prize winner would receive a giant cupcake from *Ms. Estrada*. The total amount of seeds were 217. The winner of the seed guessing contest was Santiago, he won by one seed. All in all, it was a great day of learning and fun for *Ms. Singh* and her students.

Friday, October 31st, Littleton's Dean, *Ms. Estrada* went around to the K-2 and the self-contained classrooms sharing her spooky eyes. The Tupperware container appeared to be filled with just water and a few plastic spiders and snakes at the bottom, but when the students reached in to touch they were surprised to find slimy, clear balls floating around in the water. The balls were actually Oribi balls that you place in water and overnight they swell to grape size or bigger. Many students had a great time trying to figure out how they just seemed to disappear in the water. The faces of the students when they first realized something else was in the container was just precious.

Estrella Vista Elementary School

September has been a most excellent adventure at Estrella Vista. From escaping the clutches of pirates, to meeting slithering friends, Releasing the Fear; Bridging Possibilities, and finally coming home and celebrating Home and Family.

Thanks to fourth grade teacher, **Ms. Emily Wottreng**, the fourth graders had an amazing opportunity to classify some creatures that came to visit in the library! **Ms. Dakota Langaker** volunteered her time and reptiles, everything from scorpions to gopher snakes. Our students discussed and determined which animals were invertebrates and which were vertebrates. They got a chance to look at different outer coverings (scales, exoskeleton, etc.) to try and decide what animal each creature was. All in all, it was a sssssspectacular day!

Mr. Robert Miley, CEO and Founder of *Release the Fear*, facilitated and presented a three day workshop entitled, "*Bridging Possibility.*" Our 6th – 8th students who participated in the workshop focused on learning the similarities and differences between all types of people. There was an emphasis on team, ensuring each student is not alone in his or her fears. The students participated in a variety of team building exercises in order to promote the need for leadership in the school and community at large. The students had the opportunity to sharpen up their public speaking skills as they presented the work of each activity. There was a culminating art painting that was displayed during the presentation.

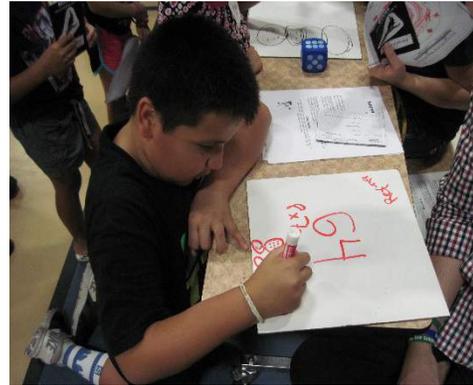

Arrggg - Ahoy, ye Matties... September 19th was *International Talk like a Pirate Day* and Estrella Vista unleashed their inner buccaneer and had pirattitude. *Capitan Montano*, the *Scorpion Queen* and her band of pirates, *Giuliana*, the *Lady Shadow*; *Zion*, the *Fierce*; *Kaylie*, the *Good Pirate*; and *Benicio*, the *King of the Pirates*, just to name a few, participated in plundering and pillaging the hallways of Estrella Vista hunting for treasure. The students used directional skills when reading a map. The map would allow them to travel to different classroom where they sang a song and received the "treasure" which was a puzzle piece, the student then predicted what the puzzle would reveal. We cobbled t'gether arrrselves, and Aye, I guarantee arg, we had a good day!!

It was a SWAG-tastic time for Kids at Hope Home and Family night at Estrella Vista. A HUGE thank you to **Ms. Allison Gannsl**; **Ms. Andrea Cole**; **Ms. Jennifer Brees**; **Ms. Annalisa Martinez**; **Ms. Emme Sauer**; **Ms. Danielle Stone**; **Ms. Laura Montano**; **Ms. Kristine McLean**; **Ms. Laura Villicana**; **Ms. Erica Cuccinello**; **Mr. Jason Roach**; **Ms. Stacy Batiste**; **Mr. Sean Cappello**; **Ms. Lesley Gammon**; **Ms. Andi Lee**; **Ms. Daisy Sandoval**; **Ms. Rebekah Lunsford**; **Mr. Anthony Haduch**; **Ms. Emily Wottreng**; **Ms. Christine Byrne**; **Ms. Logan Schmidtke**; **Ms. Lori Bowden**; **Ms. Corrie Hornsby**; **Ms. Itzel Rodriguez**; **Ms. Donna Reed**; **Mr. Dennis Burns**; **Ms. Jodi Rudd**; **Ms. Kaitlin Johnson**; **Mr. Biji Padmanabhan**; **Ms. Rachel Vliek**; **Mr. Alan Kunz**; **Ms. Susan Cox**; **Dr. Katrin Awad**, PTSA, **Ms. Pam Duty**, **Ms. Lorie Eastep** and **Mr. Richard Ramos**. Friday, September 19, 2014, Littleton celebrated our third annual Kids @ Hope Home and Family Day. We started the morning with a Kids at Hope Assembly where all the Treasure Hunters got to show their spirit alongside with the students. Then our Firebird community celebrated with an outdoor barbeque that included music and a chance for all our families to break bread with one another. Each classroom structured their activities so that everyone had a chance to celebrate their culture and ethnicity. *Ms. Kelsey's* 7th grade all drew caricatures of their favorite family members. The students presented their drawings and shared the unique traits of those family members and what makes them special. We continued our day as families returned to the classroom and continued the celebrations by: displaying pictures of their families, creating family trees, playing board games, creating crafts and most important having fun!!

The special education teachers meet on Thursdays to give new and old teachers professional development on how concepts can be modified and adapted for our classrooms and to help teacher's problem solve and collaborate. **Ms. Erin Price** and **Ms. Stefani Jenkins** lead these meetings twice a month in order to assist teachers with what they most struggle with in their classrooms. The main topics this year will focus on: Classroom/Behavior Management, Resources for Classroom and Instruction, Curriculum, breaking down Common Core Standards to our students' ability level and Inquiry Based Methods. We also have professional developments on school wide interventions in order to show what that looks like for our special education teachers. Each month they will also try to focus our meetings on current needs, but align our meetings to support our cluster cycles in order to help teachers brainstorm on what our cluster objectives look like in our specific classrooms. For example, IGP goals and how those are adapted with our students. It takes a village to teach our students and here at Littleton we all believe in working together as a team to support everyone so we all have success in raising student achievement. "All kids can learn – no exceptions!"

If you happened to come around the corner to room 81, **Ms. Lozoya's** science room, on Friday, September 5th, you would have definitely encountered the students learning about the water cycle through projects and presentation based learning.

Good things are happening in 5th grade! *Ms. Valerie Smith, Ms. Megan Melna* and *Ms. Jazmin Pattison* have been busy kicking off the new school year with innovative teaching and learning. The students were asked to cite evidence to support inferences made from a text through the use of Readers Theatre. Students were split into two groups and each group was given the task to act out a play. Hard copies of the two plays, “How the Coyote Brought fire to the People – A Native American Legend” and “The Farmer, his Son and their Donkey” were given to the class so the students could cite evidence, but the group that was watching the play did not have the resolution to the play. When the play neared the resolution the actors stopped and the audience group was asked to make an inference as to how the play would end based on evidence from the text. Then the audience group came up with a theme and or moral of the story. Next, the acting group resumed the ending of the play. Afterwards, the audience compared and contrasted their inferences and predictions as to what they thought would happened with what actually happened. Then the groups switched acting and audience roles and the other play was acted out in the same manner. The students were able to use their creative juices to make their own costumes and props. The lesson was a complete success that highlighted the imagination of the students while they learned about making inferences and predicting while citing evidence from the text. Great Job 5th Grade!

Littleton’s IT Department will be rolling out the 1:1 laptops for the Littleton Campus for all of the third grade teachers and their students: *Ms. Carolina Valenzuela, Ms. Elizabeth Davis, Mr. Andrew Davenport, Ms. Rhea Ciadella and Ms. Leticia Villa*. As well as 5th grade teacher, *Ms. Valerie Smith*, STARS teacher 2-4th, *Ms. Joselyn Williams* and ELD teacher 6-7th grade *Ms. Aracely Vazquez* on September 9, 11, & 12. Throughout the year the district will be offering several required professional development sessions for the 1:1 teachers as well as a required showcase project. We are so fortunate to have the 1:1 technology and we look forward to increasing those numbers each year throughout the grade levels.

Our teachers began the week strong with lots of community building tied into content. *Ms. Corkins* 7th Grade Science Class was learning all about how to build a strong structure, while *Ms. Danahay's* Life Skills class started the year off learning how to make a recipe and cook.

The fun continued in first grade as *Ms. Martinez's* class was busily working on a class book and they were all very excited about what they were learning and doing as a class.

Great month for the Quentin Sharks as they ride the wave to success!!!

Tres Rios Elementary School

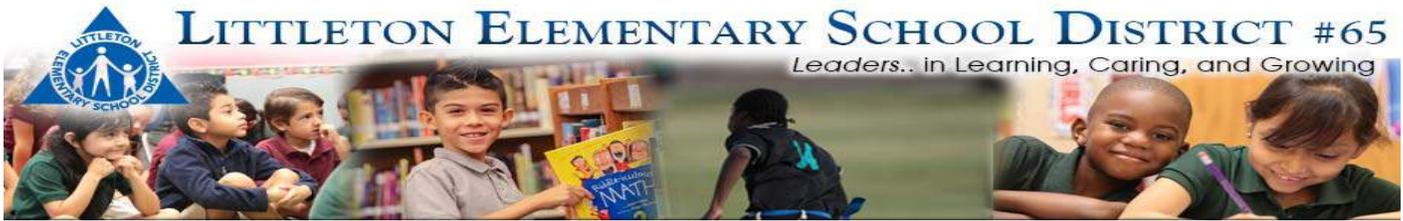

We would like to recognize our school team leads this school year for taking on a multitude of leadership responsibilities. Our wonderful leaders in learning, caring and growing include: *Ms. Danielle Stowers – Kindergarten teacher, Mrs. Yolanda Jordan – 1st grade teacher, Ms. Markeita Momon – 2nd grade teacher, Mrs. Heather Lawrence – 3rd grade teacher, Ms. Kari Burd – 4th grade teacher, Ms. Kimberly Clyde – 5th grade teacher, Mr. Jon Ollila – 6th grade teacher, Ms. Shannon Gray – 7th grade teacher and Mr. Chad Schafer – 8th grade teacher.* These important members of the Tres Rios team are acting as the go-to member of their team, FAC members, TAT leaders and CST committee members. All of the roles these individuals play are important to the achievement of the school by making collaborative decisions for the success of our students, staff and community members.

This year *Ms. Katherine Hoornstra - Assistant Principal*, has made a concerted effort to involve support staff in collaboration as well as training with the certified staff. This venture is to promote the success of our students with Make Your Day. We established a great start in creating consistency with the program by including the support staff in a thorough training at the beginning of the school year lead by *Mrs. Luciana Vargas – Junior Support Specialist and Make Your Day Liaison.* In addition, the support staff was involved in working in teams with the certified staff to review Make Your Day by creating skits to act out during pre-service week as well as involved everyone in the creation of the school-wide behavior matrix development. Involving all staff in these collaborative activities created a deeper understanding of the Make Your Day Citizenship program as well as the Behavior Matrix for all staff. We would like to thank *all of our staff* for uniting as a whole team to support each other and our students with the implementation of Make Your Day.

We are off to a great start with Fall Sports with basketball tryouts and teams already formed for boys and girls. Coaches *Mr. Sean Fair*, 2nd grade teacher, and *Mr. Travis Kent*, P.E. teacher, are heading up the girls team while *Mr. Brett Kennedy*, P.E. teacher, is coaching the boys team. The Tres Rios Pumas are looking forward to a season of victory for our students.

Thank you to our Social Committee, *Mrs. Vianey Fong – Administrative Secretary, Mrs. Sideqa Padawer – Master Teacher, Ms. Kelly Diekemper – Resource Teacher, Mrs. Grace Gutierrez – Office Support, Mrs. Luciana Vargas – Office Support Specialist Junior, Ms. Kimberly Clyde – 5th Grade Teacher, Ms. Monica Miller – 6th grade teacher, Ms. Markeita Momon – 2nd grade teacher* for getting together to form a committee to build on the culture and climate of Tres Rios and provide some fun for our staff as well as recognize them.

Congratulations to *Ms. Shannon Gray – 7th grade ELA teacher*, who had the opportunity to spend a week this summer in Colonial Williamsburg Virginia learning hands on about the Early British Settlers and the beginning of the American Revolution. She researched this opportunity as a way to further her knowledge with history and the program was provided to her through an anonymous donor. Her experience with this program will assist her in collaborative efforts with her 7th grade social studies teammate in integrating cross-curricular activities. Thank you *Ms. Shannon Gray* for taking the initiative to increase your pedagogical and content area knowledge through seeking the professional development opportunity.

They say... "*Not All Who Wander Are Lost...*" having so many families join us in the evening sets up our students for a great school year where all of the adults in our students' lives are heading in the same direction for academic success.

This exemplar provides the teacher greater quantifiable experience through their student teaching experiences.

Writer, Charles de Lint once said, "I don't want to live in the kind of a world where we don't look out for each other. Not just the people that are close to us, but anybody who needs a helping hand. I can't change the way anybody else thinks, or what they chose to do, but I can do my bit." Here at Littleton Elementary we all strive to do our bit by following Littleton District Values which are the heart of everything we do here at our school. Our values are: *Trust, Respect, Integrity, Collaboration and Dedication*.
