

## **Leadership**

The Country Place Leadership Academy provides a program that provides a logical, sequential and balanced process to help the school proactively design the culture that reflects the vision of the ideal school. Content from *The Seven Habits of Highly Effective People* is a key component and a place where leaders emerge.

## **STEM**

Quentin Elementary School – STEM-Health Science Focus

This shark nation focuses on health sciences to teach students about the importance of making healthy choices through nutrition, incorporation of structured play, and the examination of careers that use the life sciences content. Students work with community partners including local hospitals, healthcare facilities, amateur and professional sports teams to learn how their own interest in living a healthy lifestyle can transform into a future career.

Estrella Vista STEM Academy-STEM-Engineering Focus

The Hawks soar to new heights focusing on engineering by incorporating a design thinking model. This STEM method increases student engagement and unlocks creative thinking through problem solving and an interdisciplinary approach.

## **Fine Arts**

Home to the Falcons, this academy is focused on the whole child by incorporating multiple intelligences and learning pathways. Drama, dance, music and visual arts are incorporated into reading, writing, math, science and social studies tapping into the amazing creativity of children in students' grades K-8.

## **Service Learning**

Tres Rios uses a method of teaching that combines classroom learning with opportunities to get out into the community. The Pumas strive to master content as they link learning to life to create positive change that impacts our schools, neighborhoods, community and ultimately our world.

## **Comprehensive Programs**

Collier Elementary and Littleton Elementary will continue to offer a comprehensive program to students in grades K-8. Preschool will continue to operate on the Littleton campus and both will continue to offer exceptional learning programs.
