***SCVUSD No. 35 introduces a new honors program
for middle school students***

Cambridge International Examinations

***Learn more about the
Calabasas and Coatimundi programs***

This advanced program in English, mathematics and science will emphasize project-based learning, higher-order thinking strategies, and hands-on learning.

Program goals are to develop learners who are:

- Confident in working with information and ideas – their own and those of others.
- Responsible for themselves, responsive to and respectful of others.
- Innovative and equipped for new and future challenges.
- Engaged intellectually and socially, ready to make a difference.
