

Library Information

Our library is here to help all students and staff in developing a love of literacy and learning. We support the educational and instructional goals of CTMS and are always here to lend a hand on projects and class work. We have a computer lab with 30 computers available for student and staff use. A wide selection of great literature and informational text is available for checkout and in-library use. We maintain a library home page with links to appropriate academic websites and other internet tools.

Our library is open from 7:30 a.m. to 3:30 p.m. on school days. If students need access to our online catalog or homepage, use the link below to connect from off campus. If you need further assistance or information, please call us at (520) 375-8809, or contact us at the links below.

Off campus access to our Destiny online catalog and homepage:
