# Menus for April 2017

This institution is an equal opportunity provider. Menus are subject to change.

Since April 1 falls on a weekend this year, Congress passed a law declaring that "all pranks, practical jokes, tricks, and

other April Fool's mischief shall, by law, be perpetrated on Monday, April 3 instead." Please plan accordingly. (And, oh yeah, April Fool's.)

# STAIRWAY TO HEALTH.

Wellness is determined by dozens of small choices we all make every day. For example, take the stairs - no, really, TAKE THE STAIRS! It's estimated that stair-climbing for just 2 minutes a day (6-8 flights) will burn enough calories to prevent annual weight gain for the average American.

**EAT BETTER. PLAY HARDER. LIVE HEALTHIER. LEARN EASIER.**  
**WELLNESS IS A WAY OF LIFE!**

## What's on YOUR plate?

**Q: What was the least popular vegetable on the Titanic?**

**Answer:** Iceberg lettuce! Actually, iceberg lettuce is also the least nutritious of a very nutritious family of vegetables. Try other kinds of greens in salads and on sandwiches for more flavor and greater nutritional value!

**Green bell peppers were once about the only kind of bell peppers sold fresh in America. Now, red, yellow, orange, and even purple bell peppers are common in grocery stores. They all start out the same way – all bell peppers are green when they are immature, and get their color (and sweetness) if allowed to ripen on the vine.**

# HAWAII VOLCANOES NATIONAL PARK

Mauna Loa and Kilauea volcanoes in Hawaii are known for heat – especially for Kilauea’s spectacular lava flows into the Blue Pacific. But Mauna Loa also rises nearly 14,000 feet above its ocean shore, high enough to get some snow every year, and sometimes a lot of snow. Last December, several feet fell on the highest mountains in Hawaii, and just last month in March there was a blizzard warning! This snowboarder is getting some air within sight of the world’s largest astronomical observatory atop Mauna Kea, a dormant volcano and the tallest of the Hawaiian mountains.

## ★ OUR NATION'S HISTORY ★

**T**his is the Dome of the United States Capitol building in Washington, D.C. The part of the building just under the Statue of Freedom near the top is what architects call the “tholos,” and if the light in the Capitol’s tholos is lit at night, that means that one or both of the U.S. Senate and the U.S. House of Representatives are in session. This tradition is believed to have begun in the 1800’s when many members of Congress lived in area houses and they needed to convene when to board and they know!
