

In accordance with the School Code, the Board must conduct a formal performance assessment of the Superintendent on an annual basis. As part of this performance assessment, the Superintendent/Board must establish measurable objectives (goals) to be achieved during the year. Listed below are the Superintendent's Goals for the 2015-2016 school year:

Goal 1: Facilitate the continued development of a K-12 curriculum that will identify the areas in need of improvement, correlate to the Pennsylvania Core Standards and meet the 21st Century needs of our student population.

Goal 2: Coordinate and facilitate the ongoing MS/HS building renovations.

Goal 3: Facilitate and Mentor the transition of the High School Principal and the High School Assistant Principal/Athletic Director as they assume their new roles during the 2015-16 school year.

The Superintendent and Board President and Vice-President met on July 18, 2016 and it was determined that the Superintendent had met the above goals established for the 2015-2016 school year.
