

Big Buddy/Little Buddy

The Big Buddy and Little Buddy program pairs up kindergarten children with seventh graders, first grade children with eighth graders, and second grade children with fifth graders. This program helps to foster the interconnectedness between the different grades and ages of the children. Older children share the responsibility of mentoring and spiritually guiding younger children. The younger children see the older students as wise people and role models that they hope to be like as they continue their life at St. Francis of Assisi.
