#### Queen Creek School District No.95

20217 East Chandler Heights Road Queen Creek, Arizona 85142 Phone (480) 987-5935 Fax (480) 987-9714

December 17, 2012

Citizens and Governing Board Queen Creek Unified School District No. 95 20217 East Chandler Heights Road Queen Creek, Arizona 85142

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the Queen Creek Unified School District No. 95 (District) for the fiscal year ended June 30, 2012.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2012, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the District's financial statements for the fiscal year ended June 30, 2012, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations* designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

#### PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona. It provides a program of public education from kindergarten through grade twelve.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/ expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, and athletic functions.

The District covers 44 square miles in the southeastern portion of Maricopa County, Arizona. The District overlaps the Town of Queen Creek and the City of Mesa, the principal communities of the District. The District consists of seven school sites, four elementary schools, one middle school, one junior high, and one high school. The 2011-12 average daily membership was 5,010, a decrease of 3 percent over the previous school year. The District employs (including contracted positions) 19 administrators, 261 certified classroom teachers, and 324 support personnel.

The District's tax base continues to have above-average income and housing values. Commercial and industrial building and residential building permits indicate continuing future growth and tax base stabilization.

The District and community have set an expectation of high standards for academic achievement and work ethic for the District's students and employees. Excellence is continuously reinforced as we prepare our students to develop their fullest potential academically, emotionally, and physically. Students, teachers, administrators, and parents all work together to maintain the high performance standards for which the District is recognized. On average, the District's students score above the state and national means on AIMS and Stanford 10 Tests in reading, language, and math. The District has received the grade of "A" from the Arizona Department of Education. The District has four "A" and three "B" schools. QCUSD is also one of only eleven public schools in Arizona to receive an "A" grade two years in a row.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code details for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have overexpenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

#### FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

<u>Local Economy</u>. The Phoenix metropolitan area and the rest of Maricopa County was one of the fastest growing regional markets in the United States. However, the economy was hit hard by the recent recession.

A few of the major firms represented in the Phoenix metropolitan area include Honeywell International, Inc., Banner Health Systems, Wal-Mart Stores, Inc., Wells Fargo Company, and Bashas'. The principal economic activity of the Town of Queen Creek and the outlying portions of the Town is agriculture. Major employers within the District boundaries are DMB Mesa Proving Grounds, TRW Vehicle Safety System, and a large industrial park just north of the District is in Williams Gateway Airport. In addition, the metropolitan area provides excellent educational and training opportunities through seven community colleges, four private colleges and graduate schools, and one state university.

Maricopa County is located in the south-central portion of Arizona and encompasses an area of approximately 9,226 square miles. Its boundaries encompass the cities of Phoenix, Scottsdale, Mesa, Tempe, Glendale, Chandler, and such towns as Gilbert, Paradise Valley and Fountain Hills. Maricopa County is currently the nation's fourth largest county in terms of population size and the 14<sup>th</sup> in land area. The County's 2012 population was estimated at 3,843,370 a modest increase from the prior year.

The District's financial condition reflects the local economy. The District's tax base is similar to the Phoenix Metro area where valuations have decreased. However, developers recognize the southeastern portion of Maricopa County as the next potential growth area. Wealth levels in the area are average, as indicated by household income per capita at about \$35,319. Debt is moderate at about \$2,315 per capita and 1.3 percent of market value. The Town of Queen Creek includes a large percentage of young professionals and families with a median household income of \$63,700.

<u>Long-term Financial Planning</u>. The District is utilizing a combination of voter approved bonds and overrides to prepare for additional population growth and movement by building, remodeling and equipping the elementary schools, middle school, junior high, and high school with the new technology.

#### AWARDS AND ACKNOWLEDGMENTS

Awards. The Association of School Business Officials (ASBO) awarded a Certificate of Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2011. This was the seventh consecutive year that the District has received this award. In addition, the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for its comprehensive annual financial report for the fiscal year ended June 30, 2011. In order to be awarded their certificates, the District published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year 2011-12 certificates.

<u>Acknowledgment</u>. The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board of the District, preparation of this report would not have been possible.

Respectfully submitted,

Som Jindsey

#### INDEPENDENT AUDITORS' REPORT

Governing Board
Oueen Creek Unified School District No. 95

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Queen Creek Unified School District No. 95 (District), as of and for the year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Queen Creek Unified School District No. 95, as of June 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 17, 2012 on our consideration of the Queen Creek Unified School District No. 95's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 14 and budgetary comparison information on pages 52 and 53 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's financial statements as a whole. The accompanying supplementary information such as the introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information)

(This page intentionally left blank)

As management of the Queen Creek Unified School District No. 95 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

#### FINANCIAL HIGHLIGHTS

- The District's total net assets of governmental activities increased \$2.1 million which represents a 3 percent increase from the prior fiscal year as a result of an increase in both primary and secondary tax rates which resulted in an increase in property tax revenues.
- General revenues accounted for \$37.2 million in revenue, or 82 percent of all current fiscal year revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for \$8.2 million or 18 percent of total current fiscal year revenues.
- The District had approximately \$43.3 million in expenses related to governmental activities, a decrease of 4 percent from the prior fiscal year.
- Among major funds, the General Fund had \$29.7 million in current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$29.3 million in expenditures. The General Fund's fund balance decrease from \$3.0 million at the end of the prior fiscal year end to \$2.8 million at the end of the current fiscal year was a result of a decrease in reserve for prepaid items.
- Net assets for the Internal Service Funds decreased \$113,507 from the prior fiscal year. Operating expenses of \$291,634 exceeded operating revenues of \$174,404 at the end of the current fiscal year.

#### **OVERVIEW OF FINANCIAL STATEMENTS**

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **OVERVIEW OF FINANCIAL STATEMENTS (Cont'd)**

**Government-wide financial statements.** The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

#### **OVERVIEW OF FINANCIAL STATEMENTS (Concl'd)**

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decision. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Debt Service Fund, Unrestricted Capital Outlay Fund and Bond Building Fund, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

**Proprietary fund.** The District maintains one type of proprietary fund. The internal service fund is an accounting device used to accumulate and allocate costs internally among the District's various functions. The District uses its internal service fund to account for its transportation services. Because this service predominantly benefits governmental functions, it has been included within governmental activities in the government-wide financial statements.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the District. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. Due to their custodial nature, fiduciary funds do not have a measurement focus.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

**Other information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances - budget and actual has been provided for the General Fund as required supplementary information.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

Net assets may serve over time as a useful indicator of a government's financial position. In the case of the District, assets exceeded liabilities by \$84.4 million at the current year end.

The largest portion of the District's net assets reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net assets are restricted by statute for special purposes, debt service repayment and capital outlay investment.

The following table presents a summary of the District's net assets for the fiscal years ended June 30, 2012 and June 30, 2011.

| As of         | As of   |  |
|---------------|---|--|
| June 30, 2012 | June 30, 2011   |  |
| \$ 24,195,689 | \$ 27,037,656   |  |
| 108,486,297   | 106,572,426   |  |
| 132,681,986   | 133,610,082   |  |
|               |   |  |

At the end of the current fiscal year the District reported positive balances in all three categories of net assets. The same situation held true for the prior fiscal year.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)**

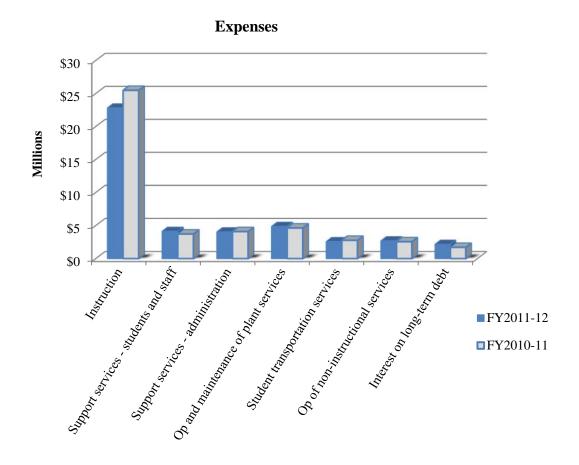

The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Assets.

- The principal retirement of \$3.7 million of bonds.
- The net addition of \$4.7 million in capital assets through new school construction and other school improvements and purchases of vehicles, furniture and equipment.
- The issuance of \$2.3 million in general obligation bonds.

Changes in net assets. The District's total revenues for the current fiscal year were \$45.4 million. The total cost of all programs and services was \$43.3 million. The following table presents a summary of the changes in net assets for the fiscal years ended June 30, 2012 and June 30, 2011.

|   | Fiscal Year Ended<br>June 30, 2012 |            | Fiscal Year Ended<br>June 30, 2011 |             |
|---|------------------------------------|------------|------------------------------------|-------------|
| Revenues:                                   |                                    |            | · ·                                | _           |
| Program revenues:                           |                                    |            |                                    |             |
| Charges for services                        | \$                                 | 3,825,245  | \$                                 | 2,971,255   |

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS (Cont'd)

The following are significant current year transactions that have had an impact on the change in net assets.

- Increase in property tax revenues of \$3.2 million as a result of an increase in both primary and secondary tax rates.
- An increase of \$853,990 in charges for services primarily due to an increase in auxiliary operations revenue.

#### GOVERNMENT-WIDE FINANCIAL ANALYSIS (Concl'd)

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

- The cost of all governmental activities this year was \$43.3 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$8.2 million.
- Net cost of governmental activities of \$35.0 million was financed by general revenues, which are made up of primarily property taxes of \$17.3 million and state aid of \$17.9 million.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds**. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS (Concl'd)

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$14.8 million, a decrease of \$808,304.

The General fund comprises 19 percent of the total fund balance. All of the General Fund's fund balance constitutes unassigned fund balance.

The General Fund is the principal operating fund of the District. The fund balance decreased \$117,900 to \$2.8 million as of fiscal year end primarily due to decrease in reserve for prepaid items. General Fund revenues increased \$3.4 million as a result of an increase in property taxes due to an increase in the tax rates.

The fund balance in the Debt Service Fund increased \$859,072, for changes in bonded debt requirements.

The fund balance in the Unrestricted Capital Outlay Fund decreased \$1.2 million as capital expenditures increased.

The fund balance in the Bond Building Fund was \$3.2 million as of fiscal year end. The decrease in fund balance of \$647,890 was primarily due to ongoing construction projects.

#### **BUDGETARY HIGHLIGHTS**

Over the course of the year, the District revised the General Fund annual expenditure budget for changes in student membership. The difference between the original budget and the final amended budget was a \$874,810 increase, or 3 percent.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The significant variance is summarized as follows.

• The favorable variance of \$1.1 million in instruction was a result of planning for budget balance carry forward.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

**Capital Assets**. At year end, the District had invested \$131.0 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$4.6 million from the prior fiscal year, primarily due to various construction projects. Total depreciation expense for the current fiscal year was \$2.8 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2012 and June 30, 2011.

|                                   | As of          | As of          |  |
|-----------------------------------|----------------|----------------|--|
|                                   | June 30, 2012  | June 30, 2011  |  |
| Capital assets – non-depreciable  | \$ 10,429,560  | \$ 13,429,038  |  |
| Capital assets – depreciable, net | 98,056,737     | 93,143,388     |  |
| Total                             | \$ 108,486,297 | \$ 106,572,426 |  |

The estimated cost to complete current construction projects is \$404,462.

Additional information on the District's capital assets can be found in Note 6.

**Debt Administration.** At year-end, the District had \$44.3 million in long-term debt outstanding, \$3.7 million due within one year. This represents a net decrease of \$1.5 million.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 30 percent of the total secondary assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the secondary assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$71.8 million and the Class B debt limit is \$23.9 million. Due to a decline in the District's secondary assessed valuation, the District does not have any current bonding capacity.

Additional information on the District's long-term debt can be found in Notes 8 and 9.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2012-13 budget. Among them:

- District student population (estimated 4,900).
- Decrease in state retirement contribution of .40%.

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund increased 1 percent to \$28.9 million in fiscal year 2012-13. State aid and property taxes are expected to be the primary funding sources. No new programs were added to the 2012-13 budget.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department, Queen Creek Unified School District No. 95, 20217 East Chandler Heights Road, Queen Creek, Arizona 85142.

## QUEEN CREEK UNIFIED SCHOOL DISTRICT NO. 95 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2012

(000 204)

| Net changes in fund balances - total governmental funds   |                                | \$<br>(808,304) |
|---|--------------------------------|-----------------|
| Amounts reported for <i>governmental activities</i> in the Statement of Activities are different because:   |                                |                 |
| Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense. |                                |                 |
| Expenditures for capitalized assets Less current year depreciation  | \$<br>4,697,168<br>(2,768,884) | 1,928,284       |
| Issuance of school improvement bonds provides current financial resources to governmental funds but the issuance increases long term liabilities in the Statement of Net Assets.  |                                | (2,265,000)     |
| Property tax revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.   |                                | (200,769)       |
| Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets   |                                | 3,700,000       |
| Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.   |                                |                 |
| Loss on disposal of capital assets<br>Compensated absences  | <br>(14,413)<br>(90,927)       | (105,340)       |
| The Internal Service Fund is used by management to charge the cost of transportation to individual funds. The changes in net assets of the Internal Service Fund is reported with governmental activities in the Statement of Activities.   |                                | <br>(113,507)   |
| Change in net assets in governmental activities   |                                | \$<br>2,135,364 |

| Total liabilities           | \$<br>399,272 |

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Queen Creek Unified School District No. 95 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

## A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services, bookstore, and athletic functions.

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **B.** Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes, unrestricted Federal, State and County aid, and other items not included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

## C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amounts approximating their external exchange value.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service resources are provided during the current year for payment of long-term debt principal and interest due early in the following year (not to exceed one month) and, therefore, the expenditures and related liabilities have been recognized. Compensated absences are recorded only when payment is due.

Property taxes, State and County aid, tuition and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Deferred revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as deferred revenue on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

The District reports the following major governmental funds:

General Fund – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund as well as the Medicaid Reimbursement, School Plant, Auxiliary Operations, Gifts and Donations, Insurance Proceeds, Litigation Recovery, Indirect Costs, Advertisement, and Soft Capital Allocation Funds. These funds are maintained as separate funds for accounting and budgetary purposes but do not meet the criteria for separate reporting in the financial statements

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

<u>Debt Service Fund</u> – The Debt Service Fund accounts for the accumulation of resources for, and the payment of long-term debt principal, interest and related costs.

<u>Unrestricted Capital Outlay Fund</u> – The Unrestricted Capital Outlay Fund accounts for transactions relating to the acquisition of capital items.

<u>Bond Building Fund</u> – The Bond Building Fund accounts for proceeds from District bond issues that are expended on the acquisition or lease of sites, construction or renovation of school buildings, improving school grounds, or purchasing pupil transportation vehicles.

Additionally, the District reports the following fund types:

<u>Proprietary Fund</u> – The Proprietary Fund is an Internal Service Fund that accounts for activities related to transportation.

<u>Fiduciary Funds</u> – The Fiduciary Funds are Agency Funds which account for resources held by the District on behalf of others. This fund type includes the Student Activities Fund, which accounts for monies raised by students to finance student clubs and organizations held by the District as an agent. In addition, funds that account for employee withholdings before the monies are remitted to the appropriate entities are included in the Agency Funds.

The Proprietary Fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting and are presented in a single column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund is charges to District departments for transportation. Operating expenses for the internal service fund includes the cost of goods and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Agency Funds are custodial in nature and do not have a measurement focus and are reported using the accrual basis of accounting. The Agency Funds are reported by fund type.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### D. Cash and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash and investments held by the County Treasurer.

A.R.S. require the District to deposit certain cash with the County Treasurer. That cash is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

#### **E.** Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the fund financial statements and in nonoperating revenue in the proprietary fund financial statements.

#### F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds."

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

#### G. Property Tax Calendar

Property tax levies are obtained by applying tax rates against either the primary assessed valuation or the secondary assessed valuation. Primary and secondary valuation categories are composed of the exact same properties. However, the primary category limits the increase in property values to 10 percent from the previous year, while there is no limit to the increase in property values for secondary valuation. Override and debt service tax rates are applied to the secondary assessed valuation and all other tax rates are applied to the primary assessed valuation.

## NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

The County levies real property taxes on or before the third Monday in August, which become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May. The billings are considered past due after these dates, at which time the applicable property is subject to penalties and interest.

The County also levies various personal property taxes during the year, which are due the second Monday of the month following receipt of the tax notice, and become delinquent 30 days thereafter.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

## H. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements.

#### I. Capital Assets

Capital assets, which include land and improvements, buildings and improvements, vehicles, furniture, equipment and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost, or estimated historical cost if actual historical cost is not available. Donated capital assets are recorded at the estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

#### **NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)**

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Land improvements15-50 yearsBuildings and improvements20-50 yearsVehicles, furniture and equipment5-15 years

## J. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay. Sick leave for support staff personnel is a designated amount of compensated leave that is granted to a staff member. Twelve-month employees who work 30 or more hours per week earn 13 days per year on a pro rata basis. Eleven month employees who work 30 or more hours per week earn 10 days per year on a pro rata basis, ten month employees who work 30 or more hours per week earn 8 days per year on a pro rata basis and nine month employees who work 30 or more hours per week earn 6 days per year on a pro rata basis.

Any support staff member who works 30 or more hours per week and who has been employed by the District for more than five years will receive, upon leaving the District, \$50 a day reimbursement for up to the accumulated maximum of 150 general leave days. Vacation time may be accumulated to a maximum of 50 days. Once an employee has reached the 50-day limit, any days accrued over that limit by June 30 of the current year will be forfeited. Upon retirement, resignation, termination, or death, the employee or the employee's estate shall be paid for accumulated vacation days, which are limited to the number of vacation days earned.

The current and long-term liabilities, including related benefits, for accumulated vacation and sick leave are reported on the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

#### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Concl'd)

#### **K.** Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net assets. Bond premiums and discounts, as well as issuance costs and the difference between the reacquisition price and the net carrying amount of the old debt, are deferred and amortized over the life of the bonds using the straight-line method over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### L. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds.

#### M. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

#### NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

#### NOTE 2 – FUND BALANCE CLASSIFICATIONS (Cont'd)

*Nonspendable*. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or legally or contractually required to be maintained intact.

*Restricted*. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Committed. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action.

*Unassigned.* Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

#### NOTE 2 – FUND BALANCE CLASSIFICATIONS (Concl'd)

The table below provides detail of the major components of the District's fund balance classifications at year end.

|                            | Camanal      | Debt         | Unrestricted | Bond         | Non-Major    |
|----------------------------|--------------|--------------|--------------|--------------|--------------|
|                            | General      | Service      | Capital      | Building     | Governmental |
|                            | Fund         | Fund         | Outlay Fund  | <u>Fund</u>  | Funds        |
| Fund Balances:             |              |              |              |              |              |
| Restricted:                |              |              |              |              |              |
| Debt service               | \$           | \$ 1,524,431 | \$           | \$           | \$           |
| Capital projects           |              |              | 2,407,749    |              | 1,312,370    |
| Bond building projects     |              |              |              | 3,170,190    |              |
| Voter approved initiatives |              |              |              |              | 792,980      |
| Federal and State projects |              |              |              |              | 295,651      |
| Food service               |              |              |              |              | 517,143      |
| JTED                       |              |              |              |              | 866,056      |
| Other purposes             |              |              |              |              | 1,103,149    |
| Unassigned                 | 2,846,817    |              |              |              |              |
| Total fund balances        | \$ 2,846,817 | \$ 1,524,431 | \$ 2,407,749 | \$ 3,170,190 | \$ 4,887,349 |

## NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

**Excess Expenditures Over Budget** – At year end, the District had expenditures in funds that exceeded the budgets, however this does not constitute a violation of any legal provisions.

#### **NOTE 4 – CASH AND INVESTMENTS**

A.R.S. authorize the District to invest public monies in the State Treasurer's local government investment pools, the County Treasurer's investment pool, obligations of the U.S. Government and its agencies, obligations of the State and certain local government subdivisions, interest-bearing savings accounts and certificates of deposit, collateralized repurchase agreements, certain obligations of U.S. corporations, and certain other securities. The statutes do not include any requirements for credit risk, custodial credit risk, concentration of credit risk, interest rate risk, or foreign currency risk for the District's investments.

#### NOTE 4 – CASH AND INVESTMENTS (Concl'd)

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$600,956 and the bank balance was \$640,633.

The State Treasurer's pools are external investment pools, the Local Government Investment Pool (Pool 5) and Local Government Investment Pool-Government (Pool 7), with no regulatory oversight. The pools are not required to register (and are not registered) with the Securities and Exchange Commission. The activity and performance of the pools are reviewed monthly by the State Board of Investment. The fair value of each participant's position in the State Treasurer and County Treasurer investment pools approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. No regulatory oversight is provided for the County Treasurer's investment pool and that pool's structure does not provide for shares.

At year end, the District's investments consisted of the following.

|                                    | Average Maturities | <br>Fair Value   |  |
|------------------------------------|--------------------|------------------|--|
| County Treasurer's investment pool | 375 days           | \$<br>15,034,607 |  |
| Total                              |                    | \$<br>15,034,607 |  |

*Interest Rate Risk.* The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

*Credit Risk.* The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk – Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

#### **NOTE 5 – RECEIVABLES**

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's individual major funds and non-major governmental funds in the aggregate, were as follows.

|                                       |              |     |            | Unrestricted   | 1  | Non-Major   |
|---------------------------------------|--------------|-----|------------|----------------|----|-------------|
|                                       | General      | Del | bt Service | Capital Outlay | G  | overnmental |
|                                       | Fund         |     | Fund       | Fund           |    | Funds       |
| Due from other governmental entities: |              |     |            |                |    |             |
| Due from Federal government           | \$           | \$  | 60,931     | \$             | \$ | 502,712     |
| Due from State government             | 5,482,919    |     |            | 185,054        |    | 319,948     |
| Due from other Districts              |              |     |            |                |    | 111,218     |
| Net due from governmental entities    | \$ 5,482,919 | \$  | 60,931     | \$ 185,054     | \$ | 933,878     |

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows.

|  | Unavailable |           | U  | nearned |
|--|-------------|-----------|----|---------|
| Delinquent property taxes receivable (General Fund)        | \$          | 1,941,919 | \$ |         |
| Delinquent property taxes receivable (Debt Service Fund)   |             | 159,123   |    |         |
| Delinquent property taxes receivable (Unrestricted Capital |             |           |    |         |
| Outlay Fund)   |             | 13,232    |    |         |
| Grant drawdowns prior to meeting all eligibility           |             |           |    |         |
| requirements (Non-Major Governmental Funds)                |             |           |    | 26,701  |
| Total deferred revenue for governmental funds              | \$          | 2,114,274 | \$ | 26,701  |

#### **NOTE 6 – CAPITAL ASSETS**

A summary of capital asset activity for the current fiscal year follows.

|  | Beginning      |              |              | Ending         |
|--|----------------|--------------|--------------|----------------|
| Governmental Activities                      | Balance        | Increase     | Decrease     | Balance        |
| Capital assets, not being depreciated:       |                |              |              |                |
| Land   | \$ 9,488,316   | \$           | \$           | \$ 9,488,316   |
| Construction in progress                     | 3,940,722      | 2,342,868    | 5,342,346    | 941,244        |
| Total capital assets, not being depreciated  | 13,429,038     | 2,342,868    | 5,342,346    | 10,429,560     |
| Capital assets, being depreciated:           |                |              |              |                |
| Land improvements                            | 3,713,245      | 69,885       |              | 3,783,130      |

Depreciation expense was charged to governmental functions as follows.

| Instruction  | \$<br>1,985,115 |
|--|-----------------|
| Support services – students and staff                | 1,872           |
| Support services – administration                    | 206,878         |
| Operation and maintenance of plant services          | 75,371          |
| Student transportation services                      | 441,067         |
| Operation of non-instructional services              | 58,581          |
| Total depreciation expense – governmental activities | \$<br>2,768,884 |

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to various capital projects for the construction of a lighting upgrade, and warehouse renovations. At year end the District had spent \$941,244 on the projects and had estimated remaining contractual commitments of \$404,462. These projects are being funded with bond proceeds.

#### NOTE 7 – REVOLVING LINE OF CREDIT

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of state aid and property tax revenues. General Fund revenues will be used to repay the line of credit as cash becomes available. Short-term debt activity for the current fiscal year, was as follows.

|                          | Beginning |              |              | Ending  |
|--------------------------|-----------|--------------|--------------|---------|
|                          | Balance   | Issued       | Redeemed     | Balance |
| Revolving line of credit | \$ -0-    | \$ 2,798,000 | \$ 2,798,000 | \$ -0-  |

#### NOTE 8 – GENERAL OBLIGATION BONDS PAYABLE

Bonds payable at year end, consisted of the following outstanding general bonds. Of the total amount originally authorized, \$6,735,000 remains unissued. The bonds are both callable and noncallable with interest payable semiannually. Property taxes from the Debt Service Fund are used to pay bonded debt. In addition, a portion of the District's school improvement bonds are Qualified Build America Bonds, as such the District will receive direct subsidy payments from the United States of America for a portion of the interest due on the bonds.

|                                    | Original                                |             |            | Outstanding                             |              |

## NOTE 8 – GENERAL OBLIGATION BONDS PAYABLE (Concl'd)

Annual debt service requirements to maturity on general obligation bonds at year end are summarized as follows.

|                      | Governmental Activities |               |  |  |  |
|----------------------|-------------------------|---------------|--|--|--|
| Year ending June 30: | Principal               | Interest      |  |  |  |
| 2013                 | \$ 3,700,000            | \$ 1,898,953  |  |  |  |
| 2014                 | 4,010,000               | 1,740,733     |  |  |  |
| 2015                 | 4,260,000               | 1,565,003     |  |  |  |
| 2016                 | 4,505,000               | 1,393,977     |  |  |  |
| 2017                 | 4,605,000               | 1,226,590     |  |  |  |
| 2018-22              | 12,300,000              | 4,172,164     |  |  |  |
| 2023-27              | 7,850,000               | 2,090,365     |  |  |  |
| 2028-30              | 3,045,000               | 238,644       |  |  |  |
| Total                | \$ 44,275,000           | \$ 14,326,429 |  |  |  |

## NOTE 9 – CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the current fiscal year was as follows.

|                                 | Beginning        |                 |    |           | Ending           | ]  | Due Within |
|---------------------------------|------------------|-----------------|----|-----------|------------------|----|------------|
|                                 | <br>Balance      | Additions       | R  | eductions | Balance          |    | One Year   |
| Governmental activities:        |                  |                 |    |           |                  |    |            |
| Bonds payable                   | \$<br>45,735,000 | \$<br>2,265,000 | \$ | 3,725,000 | \$<br>44,275,000 | \$ | 3,700,000  |
| Compensated absences payable    | 844,379          | 534,798         |    | 443,871   | 935,306          |    | 92,221     |
| Governmental activity long-term |                  | _               |    | _         |                  |    |            |
| liabilities                     | \$<br>46,579,379 | \$<br>2,799,798 | \$ | 4,168,871 | \$<br>45,210,306 | \$ | 3,792,221  |

#### NOTE 10 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

At year end, interfund balances were as follows.

#### Due to/from other funds:

|                              | I   | Due from     |  |  |
|------------------------------|-----|--------------|--|--|
|                              | Uı  | nrestricted  |  |  |
|                              | Cap | oital Outlay |  |  |
| Due to                       |     | Fund         |  |  |
| General Fund                 | \$  | 1,538,899    |  |  |
| Non-Major Governmental Funds |     | 211,547      |  |  |
| Total                        | \$  | 1,750,446    |  |  |

At year end, several funds had negative cash balances in the Treasurer's pooled cash accounts. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with other funds. All interfund balances are expected to be paid within one year.

#### **Interfund transfers:**

|                              | Transfers in |    |              |    |        |  |  |
|------------------------------|--------------|----|--------------|----|--------|--|--|
|                              | General      |    | Debt         |    |        |  |  |
| Transfers out                | <br>Fund     |    | Service Fund |    | Total  |  |  |
| Bond Building Fund           | \$           | \$ | 29,901       | \$ | 29,901 |  |  |
| Non-Major Governmental Funds | 42,255       |    |              |    | 42,255 |  |  |
| Total                        | \$<br>42,255 | \$ | 29,901       | \$ | 72,156 |  |  |

Transfers between funds were used to (1) move investment income earned in the Bond Building Fund that is required by statute to be expended in the Debt Service Fund and (2) to move Federal grant funds restricted for indirect costs.

#### **NOTE 11 – CONTINGENT LIABILITIES**

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

#### NOTE 11 – CONTINGENT LIABILITIES (Concl'd)

<u>Arbitrage</u> – Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense or expenditure prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year end.

#### **NOTE 12 – RISK MANAGEMENT**

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT), together with other school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District's employees have health and accident insurance coverage with the Valley Schools Employee Benefit Trust (VSEBT). VSEBT is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays a monthly premium to VSEBT for employees' health and accident insurance coverage. The agreement provides that VSEBT will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District continues to carry commercial insurance for all other risks of loss, including workers' compensation. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

#### NOTE 13 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS

The District contributes to the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing, multiple-employer defined benefit pension plan; a cost-sharing, multiple-employer defined health insurance premium plan; and a cost-sharing, multiple-employer defined benefit long-term disability plan that covers employees of the State of Arizona and employees of participating political subdivisions and school districts. The ASRS is governed by the Arizona State Retirement System Board according to the provisions of A.R.S. Title 38, Chapter 5, Article 2.

## NOTE 13 – PENSIONS AND OTHER POSTEMPLOYMENT BENEFITS (Concl'd)

<u>Plan Description</u> – Benefits are established by state statute and the plan generally provides retirement, long-term disability, and health insurance premium benefits, including death and survivor benefits. The retirement benefits are generally paid at a percentage, based on years of service, of the retirees' average compensation. Long-term disability benefits vary by circumstance, but generally pay a percentage of the employee's monthly compensation. Health insurance premium benefits are paid as a fixed dollar amount per month towards the retiree's healthcare insurance premiums, in amounts based on whether the benefit is for the retiree or for the retiree and his or her dependents.

The ASRS issues a comprehensive annual financial report that includes financial statements and required supplementary information. The most recent report may be obtained by writing the ASRS, 3300 North Central Avenue, P.O. Box 33910, Phoenix, Arizona 85067-3910 or by calling (602) 240-2000 or (800) 621-3778. The report is also available on the ASRS' website at www.azasrs.gov.

<u>Funding Policy</u> – The Arizona State Legislature establishes and may amend active plan members' and the District's contribution rates. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 10.74 percent (10.5 percent for retirement and 0.24 percent for long-term disability) of the members' annual covered payroll and the District was required by statute to contribute at the actuarially determined rate of 10.74 percent (9.87 percent for retirement, 0.63 percent for health insurance premium, and 0.24 percent for long-term disability) of the members' annual covered payroll.

The District's contributions for the current and two preceding years, all of which were equal to the required contributions, were as follows:

|                      | ]  | Retirement<br>Fund |    | Health Benefit<br>Supplement Fund |    | Long-Term<br>Disability Fund |  |
|----------------------|----|--------------------|----|-----------------------------------|----|------------------------------|--|

# QUEEN CREEK UNIFIED SCHOOL DISTRICT NO. 95 NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2012

#### NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The adopted budget of the District is prepared on a basis consistent with accounting principles generally accepted in the United States of America with the following exceptions: 1) a portion of the General Fund activity is budgeted for separately as special revenue funds and capital projects funds, and 2) a portion of the fiscal year 2011-12 insurance payments were budgeted for in fiscal year 2010-11. Consequently, the following adjustments were necessary to present actual expenditures, fund balance at July 1, 2011, and fund balance at June 30, 2012 on a budgetary basis in order to provide a meaningful comparison.

|  | Total    |              | F  | Fund Balance  |    | ınd Balance, |

#### STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

#### **Financial Trends**

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

### **Revenue Capacity**

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

### **Debt Capacity**

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

### **Demographic and Economic Information**

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

### **Operating Information**

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

**Source:** The source of this information is the District's financial records.

**Notes:** 1) The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds and the statutory debt limit on Class B bonds. The calculations of the debt margins are presented in detail for the current fiscal year only.

- 2) Bond premium is not subject to the statutory debt limit.
- 3) Due to a decline in the District's secondary assessed valuation, the District does not have any current bonding capacity.
