

Queen Creek High School

Queen Creek Distance Learning Program

The purpose of QCHS online learning programs is to provide the students of Queen Creek High School a flexible learning opportunity through on-line classes. Students enrolled in **QCHS Distance Learning** classes will be working on this coursework independently from their regular scheduled classes at Queen Creek High School. These self-paced courses are excellent for students who need credit recovery and for those who would like to earn additional credits. Per District Policy, students may only earn a total of **3 Full Credits** through correspondence sources to be used toward graduation, including the QCHS Distance Learning Program. District Policy also dictates that students cannot take any online Math or English course until they have met AIMS graduation requirements.

Courses Offered

(Course offering list is subject to change.)
