

## **RELEASE OF DIRECTORY INFORMATION AND/OR PHOTOGRAPHING/VIDEOTAPING**

Parent/guardian or eligible student should let the District know, within the first ten (10) days of school, if they object to the release of directory information and/or photographing/videotaping of their child while participating in a school-sponsored event.

**At the end of the ten (10) days, if the parent/guardian or eligible student have not indicated in writing to the Registrar refusal to allow the use of directory information or photographing/videotaping of their child, the District will assume it has their permission to use the above mentioned information.** The student's record will be appropriately marked by the records custodian to ensure compliance with the parent/guardian or eligible student's request.
