Superintendent Dr. Kit Wood

July 2015 Dear Parents, Students, and Staff,

Student conduct is an important factor in schools. The Mobile ESD governing board and district philosophy promotes student success and encourages an individualized approach to assisting students and meeting their academic and social needs. In order to assist every one in the pursuit of a quality education, Mobile ESD has established guidelines designed to ensure a safe environment for all students and staff in our schools.

We are proud of our students and strive to see that all students learn through school experiences to recognize the essential worth of each individual. Students are expected to respect the rights and property of others, along with demonstrating high standards of personal integrity.

For the above reasons, in addition to federal, state, and local legal guidelines, it is necessary to have a student conduct handbook that is approved by the governing board; distributed to students, staff and parents; and, implemented by the school and administration. When expectations are known and consequences clearly delineated then enforcement of student conduct guidelines is more readily accepted and effectively undertaken.

Attached to this letter is a copy of the <u>Mobile ESD Student Conduct Handbook</u> which was approved by the Mobile governing board on July 14, 2008, and reaffirmed every year after. The Student Conduct Handbook follows federal and state statute and is aligned to the AZSafe Program. Please read and return the acknowledgement of receipt to the school office. We are distributing one copy per family, so some return receipts will have more than one student signature. Thank you.

Student Conduct Handbook

Success in our school occurs when there is close cooperation between its students, staff and parents.

The purpose of this Student Conduct Handbook is to communicate the expectations of the Mobile ESD ("District") for student conduct, which promotes a safe, orderly, and positive learning environment.

The District Governing Board, administration, and staff regard student and staff safety as paramount. The rights of each student to receive a quality academic education, provided by caring and supportive faculty, will be fostered in an environment that generates respect and appreciation of others.

Philosophy of Student Conduct

A positive learning environment in our schools and a good state of student conduct starts with students, parents, and staff having knowledge and understanding of the basic standards of acceptable conduct. In order to assist everyone in the pursuit of a quality education, the District has established guidelines designed to ensure a safe environment for all students and staff in our school. For these guidelines to be most effective, it is vital for the family, the school, and the community to work together. Students are responsible for their own actions. Students whose actions are in violation of school/District guidelines will be expected to accept the appropriate consequences. We are proud of our students and strive to see that all students learn through school experiences to recognize the essential worth of each individual. Students are expected to respect the rights and property others along with demonstrating high standards of personal integrity. To meet these goals, we enlist the support of our community.

Unacceptable Behavior

When a District employee observes a student engaged in behavior that violates District policy, the employee is instructed to intervene either by requesting the unacceptable behavior cease or by immediately reporting the incident to the administration. Whenever the school administrator becomes aware of a report from a staff member, prompt and effective action to resolve the problem will be taken. When disciplinary action is appropriate, it shall be according to an established discipline plan. The assistance of the home, other educational supportive services, and other professional community agencies may be utilized. Each teacher will have a discipline plan for his/her classroom. When a student's actions go beyond that which the teacher can effectively control using his/her plan, the student will be referred to the administration. Students who break rules outside of the classroom may be referred directly to the administration or its designee.

Law Enforcement

The District may notify appropriate law enforcement agencies of violation of the law.

Mobile Elementary School District Discipline Procedures

Preamble

There are a variety of consequences (discipline) for misconduct. Depending on the seriousness of the situation, there may be more than one consequence for a single event. Nothing in this chart is intended to restrict the District from imposing more severe consequences if, in the discretion of the District, the severity of harm, danger, damage or potential harm, danger or damage warrants it, or if one incident involves more than one infraction.

In addition, although not listed as a potential consequence on the grid for a particular behavior, long-term suspension or expulsion may be imposed based upon the facts. Administration may recommend intervention programs such as substance abuse or smoking cessation clinics.

All discipline referrals submitted to the school administration / designee will begin with a conference with the student (s). In the case of suspension / expulsions, parents will be notified through the written referral form or by a personal phone call.

The extent of the due process required will depend upon the severity of the infraction and the related consequence. The administration may use on campus suspension as a disciplinary action in lieu of off campus suspension on designated infractions.

The District is required to cooperate fully with the governmental agencies when a student commits an act in violation of the law.

- 1. **Discipline** Discipline is administered by the principal/designee, the faculty and the staff.
- 2. **Referral** Students will be referred to the principal/designee for violations outlined in the foregoing sections "Discipline Guidelines" and when their disruptive behavior interrupts the educational process.
- 3. **Due Process** Students in the District have certain rights. They also have the responsibility to respect the rights and property of others. If a student fails to do this, disciplinary action will follow. In disciplinary cases, each student is entitled to due process. This means students:
 - Must be informed of accusations against them.
 - Must have the opportunity to accept or deny the accusations.
 - Must have explained to them the factual basis for the accusations.
 - Must have a chance to present an alternative factual position if the accusation is denied.
- 4. **Short-Term Suspension** If the principal or designee decides that the alleged misconduct warrants a consequence of a suspension for ten (10) days or less, the principal/designee shall give the student an informal hearing and shall examine all the pertinent facts to determine whether or not a violation did occur. The student shall be afforded due process rights including the opportunity to present to the principal/designee, his or her defense or position concerning the alleged violation. After the termination of the hearing, the principal/designee, upon the basis of all facts and information learned, shall determine the guilt or innocence of the student. If the student is found to be guilty, a consequence or suspension may be imposed for a period of time not to exceed ten (10) days. If a suspension is imposed, the principal/designee imposing the suspension shall keep a record of the aforesaid proceedings.
- 5. **Long-Term Suspension** If the principal/designee decides that the alleged misconduct is sufficiently serious so that the consequence should be suspension in excess of ten (10) days or expulsion, the accused student shall be afforded his or her due process rights. There shall be an investigation to determine if there is sufficient probable cause to charge the student with an act of misconduct, which may result in a suspension in excess of ten (10) days or expulsion, the parent(s) or guardian of the student shall be informed within a reasonable time period by telephone or letter of the charges against the student. The suspension shall be in accord with pertinent Arizona Revised Statues.

If the school administrator believes that a long-term suspension may be warranted as a result of alleged misconduct of a student, the administrator/designee will notify the parents(s) in writing. The school administrator/designee shall also notify the superintendent that a hearing officer is needed.

If a long-term suspension hearing is scheduled, the district will send by certified mail, or deliver, or cause to be mailed or delivered, notice of the hearing to the student's parent(s) at least five (5) working days prior to the hearing. The notice shall contain:

- The time, date and place of the hearing.
- The name of the hearing officer.
- A description of the alleged misconduct, the standard of student conduct allegedly violated and the proposed discipline.
- A copy of this policy and A.R.S. 15-840 15-844
- A statement that the student and his or her parent(s) are entitled to various procedural rights as described in this policy.
- A statement that notice must be given to the superintendent/designee at least 24 hours before the hearing if the student or his parent(s) will have an attorney present.

The hearing shall be held at the time and place stated in the notice unless all interested parties agree otherwise. In the event the district is unable to contact the parents or guardians after taking reasonable

steps to do so, the district may proceed to hold a hearing or take other steps regarding the discipline of the student.

At the conclusion of the hearing, the hearing officer shall determine whether discipline will be imposed, and, if deemed appropriate by the hearing officer, a long-term suspension may be imposed immediately, Written confirmation of the hearing officer's decision shall be mailed or delivered to the student's parent(s) within five (5) days after the hearing. A copy of the written decision shall be delivered or mailed to the superintendent. If the decision is to impose a long-term suspension, the written decision shall:

- Name the student.
- Describe the behavior that resulted in the long-term suspension.
- State the beginning and ending dates of the suspension and the restrictions of the student's presence on campus and at school activities.
- Inform the parent(s)/guardian about suspension appeal procedures. Absent extenuating circumstances, once a due process hearing has concluded, no new testimony or documents may be presented.
- 6. **Suspension Due to Clear and Present Danger** If in the best judgment of the principal/designee after reasonable investigation, the facts indicate that the presence of the alleged offender constitutes a clear and disruptive influence to the educational processes on campus; the principal or designee may suspend the student from the school pending a hearing and disposition of the case.
- 7. **Long-Term Suspension Appeal** If the hearing officer recommends a long-term suspension, the Governing Board will be informed, in writing, of that decision. Parent(s)/legal guardian(s) may appeal the decision for long-term suspension based on one of the following reasons:
 - There was substantial non-compliance with policy JKD/JKE/JIA (1).
 - The pupil's legal rights, including the right to receive due process, were violated by the hearing or the hearing officer's decision.
 - The discipline imposed by the hearing office was unreasonable considering the circumstances present.

To appeal the decision of the hearing officer, parents must deliver a letter to the superintendent within five (5) working days after receiving notice of the decision of a long-term suspension. The letter must describe in detail all objections to the hearing or the decisions rendered at the hearing. The Governing Board will review written material forwarded to them by the hearing officer and the parent(s)/legal guardian(s) letter of appeal. They will render a decision of appeal based upon the written material. If the board feels more information is necessary, they will conduct another hearing. The Governing Board will review the material in executive session. Unless requested in writing by the parents, the executive session will be closed. Upon review of the written material in executive session, the Governing Board may uphold, notify, or rescind the hearing officer's decision.

- 8. **Expulsion** The hearing office may recommend that a student be expelled from the shool district. That recommendation will be forwarded to the Governing Board, who will act on it. Parent(s)/legal guardian(s) may appeal the recommendation for expulsion based on one of the following reasons:
 - There was substantial non-compliance with policy JKD/JKE/JIA (1)
 - The pupil's legal rights, including the right to receive due process, were violated by the hearing or the hearing officer's decision.
 - The discipline imposed by the hearing office was unreasonable considering the circumstances present.

The Governing Board will consider a hearing if there is an appeal of the hearing officer's recommendation for expulsion from the parent. The Governing Board will review the written material from the hearing officer and the parents and will hear testimony from the hearing officer, the school officials, and the student's family. No new evidence can be admitted at the appeal hearing.

The Governing Board will conduct the hearing in executive session. Unless requested in writing by the parent(s)/guardian(s) the executive session will be closed. If the parent(s)/legal guardian(s) disagree that the hearing, held by the board, should be held in executive session, it shall be held in an open meeting unless:

- If only one student is subject to the proposed action and disagreement exists between that student's parent(s)/legal guardian(s), then the board, after consultation with the student's parent(s)/legal guardian(s), shall decide in executive session whether the hearing will be in executive session.
- If more than one student is subject to the proposed action and disagreement exists between the parents of different student, then separate hearings shall be held subject to the provisions of A.R.S. 15-843

Nothing in these procedures shall be construed to prevent the students who are subject to the section and their parent(s)/legal guardian(s) and legal counsel for attending any executive session pertaining to the proposed disciplinary action or from having access to the minutes and testimony of such executive sessions or from recoding such a session at the parent(s)/legal guardian(s) expense.

- 9. **Readmission** Once a student is expelled, the student's parent(s)/legal guardian(s) may request that the student be readmitted no sooner than, one year after the date of expulsion.
- 10. **Student Disciplinary Record-Keeping** Each principal or designee shall keep and retain complete records of pupil disciplinary actions and procedures. Records regarding pupil disciplinary sections shall be retained for at least two (2) years after graduation or withdrawal. The kinds of disciplinary action for which an accounting shall be kept shall include, but not be limited to, suspension, placement in special classes and referrals of cases to police and juvenile authorities. The accounting for pupils subject to disciplinary action shall contain an entry of:
 - Pupil's full name.
 - Time, place and date of the offense or offenses, behavior observed.
 - Specific measures taken by person(s) reporting the offense to effect an adjustment, including the specialized help secured before referral, i.e, conferences with parent(s) / legal guardian(s), conference with principal, conferences with other school personnel, referrals to deportment of pupil, personnel servies, etc.
 - Final disposition of the case.
 - Name of person(s) imposing the action or actions.
 - Statement of clarification by student or parent(s)/legal guardian(s) if either wishes.

Student Discipline – Special Education

When a student who is protected by a 504-ADA plan and/or is being considered for testing, is being tested, is receiving special education services, or has received special education services in the past, violates the discipline code of the school and/or school district which results in a suspension of ten (10) or more consecutive days, or ten (10) cumulative days, or expulsion, a multidisciplinary conference is required. A Manifestation Determination meeting is held for students protected by a 504/ADA Plan, is being tested, is receiving special education, or has received special education services. The conference will determine whether (1) the offense is due to the student's handicapping condition and (2) whether or not the student's educational placement and program are appropriate. At the conference, all related services including evaluations and transportation will be reviewed.

The following must occur in the Manifestation Determination meeting:

- 1. Prior written notice is given to the parent(s)/legal guardian(s) that a possible suspension and/or expulsion are being considered.
- 2. The multidisciplinary evaluation team is reconvened to do a Manifestation Determination. The team must be knowledgeable about the nature of the student's disability and, if possible, about the student. The student and the student's parent(s)/legal guardian(s) are invited. Proper notice is given to the student and parent(s)/legal guardian(s) per Arizona Special Education procedures.
- 3. At the conference, the following will occur:
 - Student's explanation of the incident.

 Professionals' (who were involved in the incident) explanation of the incident.
 - Student's current I.E.P. or 504/ADA Plan is reviewed.
 - Current placement, progress, and program are reviewed.
 - Consideration of the necessity for further assessment and/or evaluation is discussed. If further evaluation is necessary, then decisions' concerning the relationship of the behavior to the disability are on hold until the completion of the evaluations.
 - Need for interim placement is discussed.
 - Review the behavior plan; if there is no behavior plan, a functional behavior analysis must be done.
 - Determination of the relationship of the behavior to the disability.

The team must develop, review, and/or revise the Behavior Plan within ten (10) days of the action. If the behavior is related to the disability, then suspension and/or expulsion **cannot** occur. The student's educational program must be reviewed and revised so that the behavior can be corrected. The behavior plan is reviewed and revised.

If the behavior is not related to the disability, suspension and/or expulsion can occur; however, an educational program must be delivered to the student who is on an I.E.P. This program is developed by the I.E.P. team. The delivery of the I.E.P. can occur through home tutoring, resource, self-contained public, self-contained private and/or residential. This is determined by the team.

The findings and all conference notes are forwarded to the district's hearing officer. If necessary, special education staff may be invited to the hearing.

If the parent(s)/legal guardian(s) do not agree with the findings of the I.E.P. conference, they can file due process. The district, if it is deemed that the student is a threat to the educational environment, would need to

seek an injunction for the Court to remove the student from the educational environment. If the parent(s)/legal guardian(s) agree, an interim placement can be activated while the due process is taking place.

District Policy JGD/JGE/JFA (1) will be followed.

Search/Seizures/Warrants

Introduction

School and district officials are authorized to conduct a search when on school grounds, in a vehicle owned, leased or otherwise used by the district or school, or at a school activity, when there is reasonable suspicion that the search will result in the discovery of:

- "Contraband" which term includes all substances or materials prohibited by district/school policy or state law including, not limited to, drugs, drug paraphernalia, alcoholic beverages, and/or.
- any material or item which presents an imminent danger of physical harm or illness; and/or,
- materials otherwise not properly in the possession of the student involved.

Search

School lockers, desks, and student storage areas are school property, which the district has made available for use by students for educational purposes and school officials have the right to inspect lockers, desks, and student storage areas in discharge of their duties.

Reasonable efforts shall be made to notify the student's parent(s)/legal custodian(s)/guardian(s) and secure his/her presence before a search is made. When prior notification will result in a delay, which will impede the purposes of the search, or when efforts to notify are unsuccessful, the district/school officials conducting the search shall notify the student's parent(s)/legal custodian(s)/guardian(s) of the search as soon after as practicable.

Personal searches may be conducted by a district/school official when there is reasonable suspicion that a particular student is in possession of contraband, materials or items, which present an immediate danger of physical harm or illness. The search shall occur only in the presence of a third person of the same sex as the person being searched. The searches will be conducted out of the presence of other students and in a private room. Searches of the student shall be limited to:

- Searches of the pockets, shoes and socks of the student.
- Any object in the student's possession such as a purse, backpack, or briefcase.

When extreme emergency conditions require a more intrusive search of the student's person, the district/school official shall contact the police.

Seizures

Contraband materials as identified in the Introduction above may be seized when found in the course of a search. Any such items seized may be:

- returned to the parent or guardian of the student from whom the items were seized
- offered as evidence in any suspension or expulsion proceeding if they are tagged for identification at the time seized.
- Turned over to law enforcement officers or
- Destroyed

Warrants

Warrants for arrest: if a student is arrested and removed from campus, reasonable effort should be made to contact the parent(s)/legal guardian(s) by school authorities and an Interrogations and Searches form (Policies and Procedures 7-360, JFG-E(2) should be completed by the arresting officer and signed by the school administrator.

Search Warrants

If a search warrant is served, district/school officials shall not interfere with searches by law enforcement officers who have duly processed search warrants. Every reasonable effort should be made to cooperate with law enforcement officers.

Student and Staff Self Defense

Student Use of Physical Force in Self Defense

Reasonable use of physical force in self-defense of others, and defense of property will be considered as a mitigating factor in determining penalties for misconduct as defined in Governing Board Policy JK-R.

Use of Physical Force by Supervisory Personnel

Any administrator, teacher, or other school employee entrusted with the care and supervision of a minor may use reasonable and appropriate physical force upon the minor to the extent reasonably necessary and appropriate to maintain order. Use of physical force shall not be construed to constitute corporal punishment. Similar physical force will be appropriate in self-defense, in the defense of other students and school personnel, and to prevent or terminate the commission of theft or criminal damage to the property of the district or the property of persons lawfully on the premises of the district.

Safe Schools Threatening Behavior Process

Zero tolerance for threatening behavior is a necessity. Every case of threat must be taken seriously and every instance of threat behavior will be examined individually. However it is recognized that, in some instances, a thorough screening of such cases will reveal that a full, comprehensive forensic psychological evaluation is neither indicated nor warranted.

In determining whether or not a threat situation exists under this procedure the administration and other personnel will be guided substantially by the provisions of A.R.S. 13-1202 & 13-2911 (see below). In general, a threat situation will be deemed to exist when, following investigation by school administration, a student has been determined by admission or reliable informant(s) to have:

- communicated a death threat against self or others,
- a threat of mass violence,
- a threat involving weapons or explosive devices, or
- a threat against school property.
