Free discussion of controversial issues political, economic, social shall be encouraged in the classroom wherever appropriate for the level of the group.

Issues may be considered controversial which arouse strong reaction, based either on personal conviction or allegiance to a group. It is essential that students be taught to distinguish fact from opinion, proof from allegation and logical substance from assertion.

The Building Principal shall have authority to decide whether a particular topic that arises in a single classroom shall be given continued attention.

The decision on whether a particular controversial issue shall become a matter for school study shall be based on the timeliness of the question, the maturity and needs of the students and the goal and objectives of the district. The handling of discussions on controversial questions which arise unexpectedly shall be the responsibility of the teacher, and shall be free from the assumption that there is one correct answer which should emerge from a discussion and which should be taught authoritatively to the students.

In determining speakers to be invited for a class or school-wide program, the Principal's prior approval must be obtained. The Principal shall consider whether:

1. The speaker is controversial for any reason;
2. The topic is controversial, or sensitive, or known to arouse strong community feelings; and/or
3. The proposed speaker would gain an advantage by having a "captive" audience.

If teachers wish to supplement the curriculum guide with material that may be of a controversial nature, i.e., subject to interpretation as obscene, profane, doctrinaire, or inappropriate, each in relation to the maturity level of the class, they should review the material with the Principal first. In doubtful cases, the Superintendent may present the matter for Board consideration.

2270 **RELIGION IN THE SCHOOLS**

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the students of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the schools. School officials will be neutral in their treatment of religion in the school district, showing neither favoritism toward nor hostility against religious expression. Accordingly, devotional exercises will be permitted in this district. The following activities will be permitted in the school district provided the activity is consistent with current United States Supreme Court decisions regarding the relationship between government and religion: prayer during instructional time; organized prayer groups and activities; religious expression and prayer in classroom assignments; student assemblies and extra-curricular events; prayer at graduation; baccalaureate ceremonies; devotional exercises; and other prayer and/or religion related activities. The school district will not permit an activity if the activity advances or inhibits any particular religious expression that is protected by the First Amendment of the United States Constitution.

The Board believes that an understanding of religions and the contributions that religion has made to the advancement of civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, the curriculum may be developed to include, as appropriate to the various ages and attainments of the students, instruction about the religions of the world.

The Board also acknowledges the degree to which a religious consciousness has enriched the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the schools of this district frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may, therefore, be religious in nature shall not, by itself, bar their use by the district. The Board directs that teaching staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The Board recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the thorough and efficient education of the children of this district, not for its conformity to religious principles. Students should receive unbiased instruction in the schools so that they may privately accept or reject the knowledge so gained in accordance with their own religious tenets.

2330 HOMEWORK

The Board of Education believes that homework relevant to material presented in class provides an opportunity to broaden, deepen, or reinforce the student's knowledge. Teachers must use discretion in deciding the number and length of assignments. The Board encourages the use of interrelated major homework assignments such as term papers, themes, and creative art projects.

Assignments are given to students by teachers to be completed outside of regular class time. Homework is given:

- To extend and explore concepts introduced during class time
- To review class work
- To stimulate new interests
- To develop initiative
- To increase independent thinking
- To develop good work and study habits
- To stimulate critical thinking

Each student should:

1. Carefully plan to provide sufficient time for the homework assignment to be completed without undue haste.
2. Willingly assume responsibility for properly completing all homework and should make certain that he/she understands the purpose, requirements, and method of preparation.

Parent(s) or legal guardian(s) can be of great assistance in helping with homework by:

1. Making available proper conditions, time, and facilities for effective home study.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2330/page 2 of 2
Homework

2. Encouraging the student to complete assignments neatly, accurately, promptly, and independently.
3. Indicating interest in the student's total school responsibility and the place of homework as part of his/her obligation.
4. Feeling free to confer frequently with the teachers so that the school and home can work cooperatively toward the highest achievement of which the child is capable.

Homework shall not be used for punitive reasons.

Students absent for any reason must make up assignments, class work and tests within a reasonable length of time. In most cases, a reasonable length of time shall be the same number of school days as the days missed.

Students being excused for any reason must make arrangements with the teacher of the missed classes in order to make up the work missed. This must be done before the absence from class.

Incompletes

When a student does not complete work missed for absence or other reasons, he/she will receive an "incomplete" for the marking period. Students will be given ten school days following the end of the marking period to make up the missed work. If work is not made up, the incomplete will be changed to the grade earned.

If work is missed during the final marking period of the school year, the teacher is responsible for reporting to the student the work he/she has missed, and indicating that if work is not made up by the last day of the term, then the grade standing will be the grade earned.

Homework

R 2330 HOMEWORK

A. Content of Homework

1. Any homework assigned to students must be closely integrated with the curriculum. There should be a direct relationship between classroom studies and assigned homework. Homework should reinforce and extend the lessons learned in school.
2. Homework should help students learn by providing practice in the mastery of skills, experience in gathering information and integrating knowledge, and an opportunity to remediate learning problems.
3. Homework should help develop the student's responsibility and provide an opportunity for the student to exercise independent work and judgment.
4. The concepts on which a homework assignment is based should have been thoroughly taught and reviewed in class. Homework assignments should include only those exercises and activities that a student can accomplish independently.
5. Homework assignments should not require the use of research or resource tools that are not readily available in the students' homes or in sufficient quantity in the public or school library, or available for borrowing from the classroom.
6. Homework assignments should not require extensive copy work unless the writing of numbers or script is the skill being taught.
7. Homework must never serve a punitive or disciplinary function; learning, in school or at home, must always be a positive experience, rewarding for its own sake.

B. Assignment of Homework

1. The number, frequency, and degree of difficulty of homework assignments should be based on the ability and needs of the individual student.
2. Homework should be assigned with clarity so that students know precisely what is expected of them. It may be helpful for teachers to post the homework assignment at the beginning of the class period and to encourage students to ask questions about any aspect of the assignment they do not fully understand. Homework should never be assigned hurriedly or in a confused manner.

Homework

3. Teachers should observe the following guidelines for the introduction and assignment of homework. Time allotments include all aspects of the homework assignment--outside reading, research, drill work, and the like.

- a. Kindergarten

Home experiences related to classroom lessons should be assigned to students when appropriate.

- b. Grades 1, 2, and 3

Formal homework assignments should be introduced in grade one. Lessons should be geared to the needs and abilities of individual students. The amount of time allocated should increase through the grades from thirty to sixty minutes several times a week.

- c. Grades 4 and 5

Homework should be regularly scheduled, should require no more than seventy-five minutes of preparation daily, and should be based on the needs and abilities of individual students.

- d. Grades 6, 7, and 8

Homework should be regularly scheduled, should require no more than thirty minutes on each academic subject and should be based on the needs and abilities of individual students.

In departmentalized junior high or elementary grades, students' total daily homework load and out-of-school responsibilities should be considered in determining the amount of homework to be assigned. Teachers on each grade level or team will meet once a week or as required to review time estimates of homework to be assigned. Major tests that require substantial periods of study will be taken into consideration in determining the total estimated homework load.

Homework

e. Grades 9 through 12

High school students should be assigned homework in each major academic subject on a regular basis. Periodic assignments should be given in art and music courses. Both long and short-term assignments should be given in all courses. A high school student should typically devote at least thirty to forty-five minutes on each academic subject daily. Students may choose to spend time during weekends and vacation periods on long-term assignments.

4. To the degree reasonably possible, teachers should plan and announce homework assignments, especially long-term assignments, well in advance so that students can adjust their schedules appropriately.
5. Students should be encouraged or required to maintain a homework assignment book, in which the student records his/her daily assignment. Students and parent(s) or legal guardian(s) may be asked to record the time necessary to complete each assignment; this information will assist teachers in verifying their estimates of the length of time a given assignment will require.
6. A teacher may accede to a parent(s) or legal guardian(s) request for additional homework assignments for a student, provided the teacher, in his/her discretion, believes that the student will benefit from the assignment.
7. A student who has been absent from school will be given an opportunity to make up homework assignments, provided the assignments are completed during a period equal to the length of his/her absence. That period may be extended for the completion of long-term assignments.
8. The parent(s) or legal guardian(s) of an absent student may request homework assignments to be completed during the student's absence. Teachers are expected to comply with any such request.

C. Evaluation of Homework

1. All homework must be evaluated by the teacher and the teacher's evaluation must be communicated to the student. Homework is not a learning activity if the student receives no acknowledgment of his/her work and no appraisal or criticism of it.

Homework

2. Teachers should insist on high standards of quality in homework. The homework lesson should teach the values of thorough preparation, careful research, neat execution, thoughtful work, and prompt submission.

D. Checklist for Teachers

Teachers should be able to answer affirmatively the following questions about a homework assignment.

1. Does the homework serve a valid purpose?
2. Is it well within the capacities of the student?
3. Has the class been thoughtfully motivated for the work?
4. Does the assignment grow out of school experience?
5. Is the work related to students' interests? Is it interesting?
6. Does the assignment extend students' fund of information?
7. Is the work adapted to individual needs, interests, and capacities?
8. Are students entirely clear about what they are to do?
9. Can the students do the work without the assistance of parent(s) or legal guardian(s) or others?
10. Is the assignment a reasonable one and evenly scheduled in view of the student's home conditions?
11. Does the assignment minimize the temptation merely to copy information?
12. Can the homework be evaluated fairly and/or be used in the daily program?

2340 **FIELD TRIPS**

The East Orange Board of Education encourages field trips that are related to the New Jersey Core Content Curriculum Standards and are aligned with the district's curriculum, goals, and objectives.

The Board of Education recognizes that field trips, used as a device for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the school.

For purposes of this policy, a field trip shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

The Board of Education shall consider field trips which are included in curriculum guides to have been approved in advance. All trips not listed in the curriculum guide must be individually approved by the Board.

All field trips must be approved by the Principal prior to approval by the Superintendent. Requests must be submitted forty-five days prior to the date of the trip. Overnight trips or trips toward which parent(s) or legal guardian(s) or any outside groups are to contribute part of the cost must be submitted to the Board for approval sixty days in advance. No student is to be denied the right to participate due to inability to contribute.

When field trips and excursions are to be arranged, the following guidelines apply:

1. All trips, and the arrangements for them, must have advance approval.
2. Costs must be ascertained.
3. Each child who goes on a field trip or excursion must have written parental permission.
4. Student safety must be of prime concern, and adequate supervision must be provided by staff aided by other adult chaperones if necessary.

2360 Use of Technology

The Board of Education recognizes the use of technology in the educational process is an essential part of the schooling experience. Technology is to be viewed as a resource to enhance the learning process among other resources available to teachers and students. In addition, technology can be used to enhance the administration of the schools and the district. In order to provide direction and meaning to the use of technology as an instructional resource, the Board encourages and supports staff use of technology as a component of the learning process.

For purposes of this policy "technology" includes, but is not limited to, the use of computers and computer peripherals, communications networks, access to databases and libraries of information and the integration of audio, video, multimedia devices and media for purposes of teaching and learning.

The Superintendent, in consultation with school and district level teaching and support staff, shall recommend to the Board the acquisition of the appropriate technology to best implement the curricular, instructional, and administrative program of the school district. 2414 Programs and Services for Students in High Poverty and in High Need School Districts

High poverty school districts are required to provide programs and services that address class size and Kindergarten programs. High need school districts are required to provide programs and services that focus on improving instruction in literacy and mathematics.

A high poverty school district for the purpose of this policy means a school district in which forty percent or more of the students are "at risk" as defined in N.J.S.A. 18A:7F-45. Class size in high poverty school districts shall not exceed twenty-one students in grades Kindergarten through three, twenty-three students in grades four and five, and twenty-four students in grades six through twelve. However, if the district chooses to maintain lower class sizes in grades Kindergarten through three, class sizes in grades four and five may be equal but not exceed twenty-five students. Exceptions to these class size requirements are permitted for some physical education and performing arts classes, where appropriate. High poverty school districts shall maintain all existing full-day Kindergarten programs with a teacher's aide for each classroom. Class size for these Kindergarten classrooms shall not exceed twenty-one students.

High need school districts for the purpose of this policy are high poverty school districts that are below proficiency levels on State assessments as outlined in N.J.A.C. 6A:13-3.3(a). The New Jersey Department of Education shall identify the list of high need school districts based on State assessment results and shall promptly notify the districts that are classified as high need. In the first school year immediately following such identification as a high need school district, the district shall begin planning for implementation of, and shall implement where possible, the designated program(s). In the subsequent year following identification as a high need school district, the district shall fully implement the designated program(s). High need school districts, once identified, shall remain in that status and shall continue to implement the designated program(s) for a minimum of three years.

High need school districts where less than eighty-five percent of total students have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJASK) 3 shall provide an intensive early literacy program for preschool to grade three to ensure that all students achieve proficiency on State standards in accordance with the requirements of N.J.A.C. 6A:13-3.4(a).

2415 **NO CHILD LEFT BEHIND PROGRAMS**

The No Child Left Behind Act (NCLB) of 2001 is a reauthorization of the Elementary and Secondary Education Act (ESEA)/Improving America's Schools Act (IASA) 1994, providing funds to help all New Jersey's school children achieve, at a minimum, proficiency in the State standards. NCLB embodies four key principles or pillars of education reform: accountability, flexibility, choice, and methodology. The Board of Education elects to augment the instructional program of students by projects supported by federal funds allocated under NCLB and the district will comply with the requirements of all the programs authorized by NCLB.

The district may be eligible for several grant programs funded through NCLB, including, but not limited to, Title I through Title VI. Many of the Titles of NCLB have several parts and subparts that provide a funding source for specific purposes.

Application Procedure

The district will submit an annual No Child Left Behind Consolidated Formula Subgrant Application to the New Jersey Department of Education (NJDOE). The school district's application shall include all information required by the NJDOE and NCLB for the district to be considered for funding under NCLB.

Covered Programs

The intent of NCLB is that all children will meet State academic achievement standards to reach their potential through improved programs. The NCLB Consolidated Formula Subgrant includes the following programs:

1. Title I, Part A provides the programs and resources for disadvantaged students to meet this intent. It requires the State and the district to close the achievement gap by placing a highly qualified teacher in every classroom, improving the qualifications of paraprofessionals who work with disadvantaged students, and using instructional practices that have proven to be effective.
2. Title I, Part D serves neglected and delinquent youth in institutions, community day programs, and correctional facilities to assure they also attain high academic levels of performance.
4. Title II, Part A provides the resources for improving teacher and Principal quality and increasing the number of highly qualified teachers and Principals in classrooms and schools, thereby raising student achievement in the academic subjects. It focuses on preparing, training, and recruiting high-quality teachers and Principals and requires the State to develop plans with annual measurable

objectives that will ensure all teachers teaching in core academic subjects are highly qualified by the end of the 2005-2006 school year.

4. Title II, Part D facilitates comprehensive and integrated educational technology strategies that target the specific needs of individual schools. It improves student academic achievement through the use of technology in elementary and secondary schools, while addressing the digital divide such that every student is technologically literate by the end of eighth grade. Effective integration of technology resources and systems with teacher training and curriculum development are encouraged in order to identify and showcase best practices in educational technology.
5. Title III, Part A focuses on the teaching of English to limited English proficient (LEP) children, including immigrant children and youth.
6. Title IV, Part A provides resources for fostering a safe and drug-free learning environment that supports academic achievement.
7. Title V, Part A provides a flexible source of funding to help districts in the development and implementation of various innovative reform initiatives.
8. Title VI, Part B addresses the unique needs of rural school districts.
9. Title IX covers the general provisions applicable to some/all of the programs.

Throughout NCLB, the use of solid research to improve teaching and learning as well as student behavior is required and promoted, and parent(s)/legal guardian(s) are provided with information and options to improve the educational opportunities provided for their children. The emphasis on scientifically based methodology encourages the use of teaching techniques and practices that are founded on research and proven to produce positive results.

Title I

The largest federal program supporting elementary and secondary education is Title I. NCLB strengthens Title I requirements for the State's assessments, accountability system, and support for school improvement. The law also establishes minimum qualifications for teachers and paraprofessionals in Title I programs.

The school district must use the best available measure for identifying children from low-income families to identify eligible school attendance areas, determine the ranking of each area and to determine allocations as identified in the Title I guidelines and regulations.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY

No Child Left Behind Programs

The school district will offer Title I services to eligible children enrolled in private elementary and secondary schools. The services and benefits will be equitable in comparison to services and benefits for participating public school children.

The school district will provide the New Jersey Department of Education assurances it will provide the maximum coordination between the Title I program, the regular school program, and services provided by other programs for specialized populations. The Title I program will consider the special needs of homeless children, migrant children, children with disabilities and limited English proficient (LEP) children. Title I funds will be reserved so that migrant children who are otherwise eligible to receive Title I services, even if they arrive during the school year, are served.

Type of Title I Program

The school district will offer a School-wide Title I program.

School-wide Program

High-poverty schools (those with 35% or more students from low-income families) are eligible to adopt school-wide programs to raise the achievement of low-achieving students by improving instruction throughout the entire school, thus using Title I funds to serve all children. A school-wide program must be established in accordance with the Title I guidelines and regulations and the New Jersey Department of Education.

Academic Standards, Academic Assessments and Accountability

The district will comply with the requirements as outlined in Policy 2415.01 - Academic Standards, Academic Assessments and Accountability in accordance with the NJDOE and NCLB.

- B. Ranking Order - The school district may rank its attendance areas by grade-span grouping or for the entire school district. If funds are insufficient to serve all eligible school attendance areas, the school district will:
1. Annually rank, without regard to grade-span, eligible school attendance areas in which the concentration of children from low income families exceeds 75% from highest to lowest according to the percentage of children from low income families; and

 2. Serve such eligible school attendance areas in rank order either within each grade-span grouping or within the school district as a whole.
- D. Measures of Identification - The school district will use the best available measure for identifying children from low-income families to identify eligible school attendance areas, determine the ranking of each area and to determine allocations. This measure shall be the number of children ages five through seventeen in poverty counted in the most recent census date, the number of children eligible for free and reduced-price lunches under the National School Lunch Act, the number of children in families receiving assistance under the Aid to Families with Dependent Children program, the number of children eligible to receive medical assistance under the Medicaid program, or a composite of such indicators. This requirement is not applicable if the school district has a total enrollment of less than 1,000 children.

 4. SPECIAL RULE: If a Local Educational Agency (LEA) chooses not to serve an eligible school attendance area, the number of children attending private elementary and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside receives Title I funds.
- G. Allocations: In general:
1. The school district will allocate Title I funds to eligible school attendance areas or eligible schools, in rank order, on the basis of the total number of children from low-income families in each area or school.
 2. The per-student amount of funds allocated to each school attendance area or school shall be at least 125% of the per student amount of funds the school district received for that year under the poverty criteria described by the school district's plan. This will not apply if the school district only serves schools in which the percentage of such children is 35% or greater.

Title I Program Guidelines, New Jersey Department of Education

Issued: 3 June 2009

2415.01 **ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY**

The No Child Left Behind Act of 2001 (NCLB), a reauthorization of the Elementary and Secondary Education Act (ESEA), requires New Jersey to implement a single accountability system to include challenging academic content and academic achievement standards. The accountability requirements under NCLB were built on the foundation of the former Improving America's Schools Act (IASA).

To meet the Federal requirements, New Jersey has adopted the New Jersey Single Accountability System. State assessments in language arts literacy and mathematics are based on the New Jersey Core Curriculum Content Standards. All students enrolled in New Jersey public schools, plus all students subgroups, must meet the proficiency benchmarks to ensure the goal of 100% proficiency. Students must score either "proficient" or "advanced proficient" on the assessment to be counted toward the benchmarks.

Schools are evaluated using adequate yearly progress (AYP) indicators. Students achievement is determined by grade span (Elementary School – grades three through five, Middle School – grades six through eight, and High School – grades nine through twelve) and in each content area. There are indicators that must be met (including participation and proficiency rates) plus a secondary indicator. A safe harbor calculation is applied to measure significant progress if the benchmark is missed. When a school does not meet AYP for two consecutive years in the same content area, it is designated as a "school in need of improvement."

AYP shall be calculated for all New Jersey schools under the provisions of NCLB. Schools that do not meet AYP as defined under NCLB are placed into one of the following categories. Title I schools in need of improvement must implement the sanctions for each category.

Year 1 - Early Warning: A school that does not make AYP for one year is placed into "early warning" status.

Year 2 – In Need of Improvement/School Choice: A school that does not make AYP for two consecutive years in the same content area is designated as a "school in need of improvement." Parents/legal guardians shall be promptly notified if their child's school has been designated as in need of improvement. For Title I schools certain interventions apply, including intradistrict school choice (or supplemental educational services if choice is not available and development of a school improvement plan (Title I Unified Plan). The district must offer the school technical assistance to address the areas that caused the school to be in need of improvement. Parents/legal guardians shall be notified of their right to request intradistrict public school choice and parents/legal guardians of eligible students shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

Year 3 – In Need of Improvement/Supplemental Educational Services (SES): A school that does not make AYP for three consecutive years in the same content area shall continue to be identified as a “school in need of improvement.” The Title I school must continue to offer intradistrict school choice and must also offer SES to eligible students. Technical assistance must continue to be offered by the District, parents must receive notification of the school’s status, and the school improvement plan (Title I Unified Plan) is updated annually. Parents/legal guardians of eligible students shall be notified of the available, including the provider list Web address.

The New Jersey Department of Education (NJDOE) offers school support by engaging a team of experienced professionals to conduct an extensive school review called Collaborative Assessment and Planning for Achievement (CAPA). The CAPA team interviews stakeholders and staff, reviews school and district documents, and conducts on-site observations to develop a report that contains recommendations for school improvement, which then becomes part of the Title I Unified Plan.

Year 4 – Corrective Action: A school that does not make AYP for four consecutive years in the same content area is identified as a school in corrective action. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school’s status, revise its school improvement plan (Title I Unified Plan), and receive technical assistance from the district and the NJDOE.

The district must take at least one of the following corrective actions;

1. Provide for all relevant staff, appropriate, scientifically research-based professional development that is likely to improve academic achievement of low-performing students.
2. Institute a new curriculum grounded in scientifically-based research and provides appropriate professional development to support its implementation.
3. Extend the length of the school year or school day.
4. Replace the school staff that is deemed relevant to the school not making adequate progress.
5. Significantly decrease management authority at the school.
6. Restructure the internal organization of the school.

Academic Standards, Academic Assessments
and Accountability

7. Appoint one or more outside experts to advise the school how to revise and strengthen the improvement plan it created while in school improvement status and how to address the specific issues underlying the school's continued inability to make AYP.

Year 5 – Planning for Restructuring: A Title I school that does not make AYP for five consecutive years in the same content area must plan to restructure. The restructuring plan is implemented at the beginning of the following school year if the school continues to miss AYP benchmarks and moves to Year 6. During the planning year, the Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input during the restructuring process, and receive technical assistance from the district and the NJDOE. The technical assistance design for a school being restructured emphasizes the following:

1. The importance of improving instruction by using strategies grounded in scientifically – based research so that all children in the school achieve proficiency in the core academic subjects of language arts and mathematics.
2. The importance of analyzing and applying data in decision making.

The restructuring plan must include one of the following alternative governance systems for the school as outlined by NCLB regulations and consistent with New Jersey practice and statutes:

1. Implement any major restructuring of the school's governance that is consistent with the principles of restructuring as set forth in the No Child Left Behind Act.
2. Re-open the school as a public charter school as defined by State statute and regulation (N.J.S.A. 18A:36A-1 et seq. and N.J.A.C. 6A).
3. Replace all or most of the school staff, which may include the Principal, who are relevant to the school's inability to make adequate progress (consistent with existing contractual provisions and applicable statutory protections in Title 18A).

Year 6 – Restructuring – 1: A Title I school that does not make AYP for six consecutive years in the same content area must implement the approved restructuring plan. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input and support during the implementation process, and receive assistance technical assistance from the district and the NJDOE. Technical assistance is critical to help school staff remain focused on increasing student achievement while the school is adjusting to potentially radical changes in its administration and governance structures. A CAPA visit will occur at the school to

determine the fidelity of implementation of the restructuring plans and to review the governance structure of the school.

Year 7 (and over) – Restructuring 2 (and over): If the school has not made AYP for seven or more consecutive years, the NJDOE will meet with school and district administrators to continually review implementation of the restructuring plan/Title I Unified Plan. Benchmark meetings with NJDOE staff, the school, and the district will occur twice a year to assess and support and support implementation of the school improvement plan.

Removal from Early Warning/Improvement Status: To be removed from early warning or improvement status, the school must make AYP for two consecutive years in the content area that caused the school to go into status, providing the school makes AYP in the other content areas. The first year of making AYP is a “hold year” and the school does not progress to the next sanction level, but must continue to implement current interventions. If the school does not make AYP the year following “hold,” the school goes back into improvement status at the level prior to the hold year.

Highly Qualified Teachers

2415.03 **HIGHLY QUALIFIED TEACHERS**

Introduction

The No Child Left Behind Act (NCLB) of 2001 requires all teachers be or become highly qualified in the core academic content area(s) they teach in accordance with the United States Department of Education and the New Jersey Department of Education highly qualified teacher requirements.

Teachers who have achieved highly qualified status retain highly qualified status permanently for the teaching assignment designated on the approved highly qualified teacher forms. No teacher providing direct instruction in core content areas is grandfathered or exempt from this process.

The district shall maintain the appropriate highly qualified documentation for all teachers who provide direct instruction in core content areas. When a teacher changes teaching assignments, which requires different content expertise, additional highly qualified teacher forms must be completed and kept on file within the district. Highly qualified teacher documentation should be completed for all new teachers and for those with new teaching assignments at the beginning of each school year.

When a teacher obtains employment in a new school district, the new district must contact the previous place of employment to have the teacher's official highly qualified teacher forms sent to the new district. A teacher hired from another State must hold New Jersey certification and must meet New Jersey's highly qualified teacher requirements. Out-of-State teachers may provide documentation to support their highly qualified teacher status from the previous State in which they taught.

All Title I schools must send out a Right-to-Know letter in the beginning of every school year informing parent(s) or legal guardian(s) that they have the right to know the qualifications of their child's teacher. The letter should be sent by all Title I and non-Title I districts. In addition, in all Title I schools, the parent(s) or legal guardian(s) of students whose teacher is not yet highly qualified must be notified. Copies of these letters must be kept on file in the school.

2415.06 **UNSAFE SCHOOL CHOICE OPTION**

The New Jersey Department of Education (NJDOE) is required to establish an Unsafe School Choice Option (USCO) Policy per the Elementary and Secondary Act (ESEA) of 1965, as reauthorized under the Federal Every Student Succeeds Act of 2015 (ESSA). The USCO Policy requires that students who attend a persistently dangerous public elementary or secondary school as determined by the NJDOE, or become victims of a violent criminal offense while in or on school grounds of a public school that they attend, be allowed to attend a safe public school within the district. The USCO provision under the ESSA contains two provisions that apply to school districts that receive funds under ESSA: Provision I - Persistently Dangerous Schools and Provision II - Victims of Violent Criminal Offenses.

Effective the beginning of each school year, school districts receiving ESSA funds must be prepared to complete the transfer of students who choose to exercise Provision I and Provision II of this USCO Policy. Compliance with the Policy is a condition of receiving funds under any and all titles under ESSA. The Superintendent is required to certify compliance with this USCO Policy to the New Jersey Department of Education (NJDOE) in the application for ESSA funds.

USCO Policy Provision I - Persistently Dangerous Schools (PDS)

1. **Criteria for Determining Persistently Dangerous Schools.**

A persistently dangerous school is a public elementary or secondary school building (except for Regional Day Schools, Educational Services Commissions and Special Services School Districts) that meets the objective criteria determined by the New Jersey Department of Education (NJDOE) for three consecutive years and is part of a school district that receives funds under ESSA. The NJDOE will use the most current available data from the Electronic Violence and Vandalism Reporting System (EVVRS) to identify persistently dangerous schools on or before July 31 of each year.

2. **Procedures and Guidelines for Schools Determined to be Persistently Dangerous.**

A school district will be notified by the NJDOE on or before July 31 of each year if a school(s) in the school district has been identified as a PDS. Once the district receives notification a school is identified as persistently dangerous, the district must inform all parents of enrolled students in the school of the designation within fifteen calendar days of the date of the notice and offer them the option for their children to transfer to a safe public school within the district

by the beginning of the respective school year. The district must complete all transfers by the beginning of the school year following the July notification.

Students are not required to accept the transfer option, but they must be afforded the opportunity to do so. Parental notice regarding the status of the school and the offer to transfer students should be made simultaneously. Parents of enrolled students must be notified of the persistently dangerous designation whether or not there is another school within the district for the transferring students.

To the extent possible, the district will allow transferring students to transfer to schools that have not been identified as low performing, under the State's ESSA accountability system. When a transfer school is not available within the school district, the district may seek arrangements for students to transfer to the nearest charter school or neighboring district; however, this is not required. The district may take into account the needs and preferences of the affected students and parents.

3. Corrective Action Plan for a School Identified as Persistently Dangerous.

If a school in the district is identified by the NJDOE as persistently dangerous, the district will submit to the NJDOE documentation of compliance with the parent notification requirement and actions taken to complete the transfer arrangements for all students exercising the option by the first day of the school year. Additionally, the district is required to develop and submit for approval a corrective action plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the schools with guidance for its corrective action plan, as well as monitor the school district's timely completion of the approved plans.

In the spring of each following year, the NJDOE will re-evaluate the status of a school identified as persistently dangerous. The NJDOE will review the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools (PDS). A school identified as maintaining the persistently dangerous designation will be notified by the NJDOE on or before July 31 of the respective year and will be required to submit for approval a revised corrective action plan by September 30 of that year, which will apply to the respective school year. The school district must inform all parents of enrolled students in the school of the designation within fifteen calendar days of the date of notice and offer them the option for their children to

transfer to a safe public school by the beginning of the respective school year in accordance with 2. above.

A school no longer designated persistently dangerous will be notified on or before July 31 of the respective year. The persistently dangerous designation will be removed after one or more years contingent upon successful fulfillment of the criteria for removal, as determined by and in accordance with guidance provided by the NJDOE.

4. Procedures and Guidelines for Early Warning of Schools.

When a school meets the criteria set forth in this Policy for one year, the district will be informed of the types of offenses reported that have led to an early notification. This notification, on or before August 15 of each year, will be informational only. A school that no longer meets the criteria for PDS for one year will no longer be considered in early notification status. A school that meets the criteria for two consecutive years will move into early warning status outlined below.

If a school meets the criteria set forth in this Policy for two consecutive years, the district will be notified of their pattern of offenses on or before August 15 of each year. If notified, the district will develop and submit for approval a school safety plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The school safety plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide an early warning school with guidance for its school safety plan, as well as monitor the school's timely completion of the approved plan. A school receiving an "early warning" notices is not required to provide the transfer option to students.

In the spring of each following year, the NJDOE will reevaluate the school's progress towards completing its school safety plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools. The schools will be notified of its status on or before July 31 of the respective year.

A school that no longer meet the criteria for Persistently Dangerous Schools for one school year, the year in which the school safety plan was in effect will no longer be required to submit a school safety plan.

A school that meets the criteria for PDS for a third consecutive year will be designated persistently dangerous and will be required to submit for approval a corrective action plan on or before September 30 of that year, which will apply to the respective school year and provide the transfer option to students in the school designated as persistently dangerous.

5. Schools Not Receiving ESSA Funds, but Meeting the Criteria for PDS.

School buildings and districts that do not receive federal funds under ESSA, but meet any one of the criteria for persistently dangerous schools, will be contacted by the NJDOE and be required to develop and submit for approval a school safety plan on or before September 30 of the respective year. The school safety plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school with guidance for its school safety plan, as well as monitor the school's timely completion of the approved plan.

USCO Policy Provision II - Victims of Violent Criminal Offenses

The Unsafe School Choice Option provision of ESSA requires a student who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary or secondary school that the student attends, be allowed to attend a safe public elementary or secondary school within the district, including a public charter school.

The individual victim provision of this Policy attempts to fulfill the requirement for the school district to provide relief to students who have been victimized, while providing a school with a practical means for making determinations on incidents of victimization that are within the purview of the school district. The individual victim section of this Policy has been crafted to enable school staff to make reasonable determinations and actions regarding this Policy. The Superintendent will consult with the Board attorney and communicate with designated local and/or county law enforcement authorities, per the provisions of the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials and N.J.A.C. 6A:16-6.2(b) 13, on questions and issues that arise in the implementation of the individual victims of violent criminal offenses section of this Policy.

1. Criteria for Determining Victims of Violent Criminal Offenses

The following criteria must be used to determine when an enrolled student has become a victim of a violent criminal offense while in or on the grounds of a public elementary or secondary school that the student attends. These criteria only apply to a student who has become a victim of one or more of the violent criminal offenses enumerated below:

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2415.06/page 5 of 10
Unsafe School Choice Option

A student is considered a victim of a violent criminal offense when:

- a. A referral has been made to law enforcement officials for suspicion that one of the violent criminal offenses enumerated below has occurred; and
- b. One or more of the following applies:
 - (1) Law enforcement officials have filed formal charges against the offender(s) for commission of the violent crime; or
 - (2) The offender(s) has received sanctions in accordance with the Board of Education's Code of Student; or
 - (3) The offender(s) either has not been identified or is not an enrolled student(s), but it is clear that the student (victim) has become a victim of a violent criminal offense based on objective indicators such as physical evidence, eyewitness testimony, and/or circumstantial evidence; or
 - (4) The pre-existence of a restraining order against the offender(s).

2. Procedures and Guidelines

Effective the first day of each school year, the district must be prepared to begin the transfer of any student who chooses to exercise the individual choice option provision. The district must offer, within fourteen calendar days of the incident, an opportunity to transfer to a safe public school within the district to any student who has become a victim of a violent criminal offense while in or on the grounds of a public school that the student attends. While the student must be offered the opportunity to transfer, the student may elect to remain at the school.

To the extent possible, the district will allow any transferring student to transfer to a school that has not been identified as low performing, under the State's ESSA accountability system. In addition, when a transfer school is not available within the district, the district may seek arrangements for a student to transfer to the nearest charter school or neighboring district; however, this is not required. The district may take into account the needs and preferences of the affected student and his or her parent(s). Transfers must occur within thirty days of the determination that the student was a victim of a violent criminal offense.

3. Violent Criminal Offenses

The violent criminal offenses under New Jersey statutes that apply to the individual victim provision of this Policy are identified and explained below. The offenses apply to completed offenses, as well as attempts to commit the offenses. The offenses and attempts to commit the offenses apply only when they occur in or on the school grounds, as defined in N.J.A.C. 6A:16-1.3, of the school that the student attends. The offenses apply whether they occur wholly or in part in or on the grounds of the school that the student attends. The offenses apply only to acts or attempts that are directed at a person (victim) or a group of specified individuals (victims), rather than acts that indiscriminately affect the entire school population or non-specified individuals or groups.

4. Applicable Violent Criminal Offenses

Below is a description of each applicable violent criminal offense that is based upon New Jersey statutes and references to statutory citations that provide complete explanations of each designated offense. The descriptions provided below are not intended to be a complete explanation of each offense or a substitute for the actual provisions of the authorizing statutes. Instead, the descriptions are provided as an aid in facilitating understanding of the general intent and practical applications of the violent criminal offenses that pertain to this Policy.

- a. Homicide [N.J.S.A. 2C:11-2] - A student is a victim of a homicide when he or she is the child, sibling or other relative of a decedent, resulting from someone purposely, knowingly or recklessly causing the death of the student's parent, sibling or relative in or on school grounds.
- b. Assault [N.J.S.A. 2C:12-1(A)(1-3) and 2C:12-1(B)(1-4)] - A person is a victim of an assault when the actor purposely, knowingly or recklessly causes bodily injury to the victim; negligently, recklessly, knowingly or purposely causes bodily injury to the victim with a deadly weapon; attempts by physical menace to put the victim in fear of imminent serious bodily injury; or knowingly points a firearm at or in the direction of the victim, whether or not the actor believes it to be loaded.
- c. Sexual Assault [N.J.S.A. 2C:14-2] - A student is a victim of a sexual assault when the student is a victim of an act of sexual contact when the victim is less than thirteen years old and the actor is at least four years older than the victim, or the student is a victim of an act of sexual penetration under any of the following circumstances:
 - (1) The victim is less than thirteen years old.

 - (3) Under circumstances that caused any victim of the underlying offense to be intimidated and the victim, considering the manner in which the offense was committed, reasonably believed either that:
 - (a) The offense was committed with a purpose to intimidate the victim or any person or entity in whose welfare the victim is interested because of race, color, religion, gender, handicap, sexual orientation or ethnicity; or

- e. Terroristic Threat [N.J.S.A. 2C:12-3(A) and 2C:12-3(B)] - A person is a victim of a terroristic threat when the actor threatens to commit one of the violent criminal offenses enumerated under this Policy against the victim with the purpose to put the student in imminent fear of one of the violent crimes enumerated in this Policy under circumstances reasonably causing the victim to believe the immediacy of the threat and the likelihood that it will be carried out. The definition of terroristic threat applies to N.J.S.A. 2C:12-3(a) insofar as the threat was directed at a person (victim) or a group of specified individuals (victims).
- f. Robbery [N.J.S.A. 2C:15-1] - A person is a victim of a robbery when the actor, in the course of committing a theft, inflicts bodily injury; or uses force upon the victim; or threatens the victim with or purposely puts the victim in fear of immediate bodily injury.

- h. Arson [N.J.S.A. 2C:17-1] - A person is a victim of arson when the actor purposely or knowingly starts a fire or causes an explosion in or on the grounds of a school whereby the victim or group of specified victims are in danger of death or bodily injury; or with the purpose of destroying or damaging the victim's or group of specified victim's property that is in the school or on school grounds.

Miscellaneous Provisions of USCO

1. Transfer Time Period – Persistently Dangerous Schools (PDS)

The transfer will be temporary and will be in effect as long as the student's original school is identified as persistently dangerous.

2. Charter School Transfer Option

While ESSA permits affected students to be afforded the opportunity to attend a public charter school, in addition to a safe public elementary school or secondary school within the school district, the application of this provision in New Jersey is limited. Transfers to a charter school can only occur as a part of the charter school's "equal opportunity" selection process and among charter schools administered under the same managing authority (i.e., charter schools within the charter school district).

Since charter schools in New Jersey are considered public local education agencies (LEA's), pursuant to N.J.S.A. 18A:36A-3, operated independently of a local board of education, transfers may only take place among charter schools within the LEA. Therefore, students may be permitted to transfer to another charter school that is administered under the same managing authority of the charter school, but are not permitted to transfer to a school in the local public school district administered by a local board of education.

However, pursuant to N.J.S.A. 18A:36A-7, a charter school must be open to all students on a space available basis and may not discriminate in its admission policies or practices (although it may establish reasonable criteria to evaluate prospective students), and in accordance with N.J.S.A. 18A:36A-8, if there are more applications to enroll in the charter school than there are spaces available, the charter school must select students to attend using a random selection process for enrollment.

3. Funding Sources for USCO

The Unsafe School Choice Option statute does not authorize resources specifically to help cover USCO costs associated with transferring a student from a PDS. However, under certain circumstances Federal funds may be used. For example, ESEA Title IV, Part A [Section 4115(b)(2)(E)(v)] may be used to establish safe zones of passage to and from school to ensure that students travel safely on their way to school and on their way home. In addition, ESEA Title IV, Part A [Sections 5121(8) and 5131(12) and (25)] funds may be used to help cover costs such as tuition or transportation related to the Unsafe School Choice Option or expansion of public school choice.

4. Special Education Students

The district will provide transferred special education students with the program required by the student's Individualized Education Program (IEP).

Policy/Regulations

5. Transfer Schools

In the event there is not another school within the school district for a transferring student, the district is not required to transfer the student to a school outside the school district.

The district will use the school choice option as one response to incidents of victimization. Additionally, the district will develop and implement appropriate strategies for addressing the circumstances that contribute to or support victimization, as well as consistently and proactively manage individuals who have victimized students. The district will promote the importance of school safety and respond to the needs of students and staff. Pursuant to the law, the district will provide an opportunity for students, parents and school district and law enforcement personnel to discuss methods for keeping schools safe from violence; to create school safety plans; and to recognize students in need of help. The district will organize activities to prevent school violence, including, but not limited to, age-appropriate opportunities for student discussion on conflict resolution, issues of student diversity and tolerance. Law enforcement personnel will be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school district employees that are designated to help school district employees recognize warning signs of school violence and to instruct school district employees on recommended conduct during an incident of school violence.

In accordance with the provisions of N.J.S.A. 18A:17-46, two times each school year, between September 1 and January 1 and between January 1 and June 30, at a public hearing, the Superintendent shall report to the Board of Education all acts of violence; vandalism; and harassment, intimidation, and bullying which occurred during the previous reporting period.

2415.30 TITLE I – EDUCATIONAL STABILITY FOR CHILDREN IN FOSTER CARE

The Federal Every Student Succeeds Act (ESSA), which reauthorized the Elementary and Secondary Education Act (ESEA), initiated protections for children in foster care that further enhanced the requirements of the Fostering Connections to Success and Increasing Adoptions Act of 2008 (Fostering Connections Act). These provisions require school districts to work with child welfare agencies to ensure the educational stability of children in foster care. New Jersey statutes support and implement Federal legislation and require New Jersey's child welfare agencies and school districts to collaborate and to keep children placed in foster care in the same school when their living placements change if remaining in that school is in the child's best interest. The educational stability of children in foster care is the joint responsibility of both the educational and child welfare systems.

A designated staff member from the Office of Student Support Services shall be designated as the Board of Education's point of contact person for all matters related to the educational stability for children in foster care. The point of contact person for the school district shall not be the same person designated as the school district liaison for the education of homeless children.

For the purpose of this Policy, "child welfare agency" shall be the New Jersey Department of Children and Families.

For the purpose of this Policy, "foster care" means twenty-four hour substitute care for children placed away from their parents and for whom the child welfare agency has placement and care responsibility. This includes, but is not limited to, placements in foster family homes, foster homes of relatives, group homes, emergency shelters, residential facilities, child care institutions, and pre-adoptive homes.

For the purpose of this Policy, "school of origin" is the school district in which the child is enrolled at the time of placement in foster care or the school district of residence as per N.J.S.A. 30:4C-26 and N.J.S.A. 18A:7B-12.

A child in foster care shall remain in his/her school of origin if it is determined to be in the best interest of the child for the duration of time in foster care.

If a student attending the school district in accordance with the provisions of N.J.S.A. 18A:38-1 et seq. is placed in foster care, the school district contact person will collaborate with child welfare agencies to determine whether it is in the child's best interest to remain in the school district taking into consideration all factors relating to the child's best interest. These factors shall include the appropriateness of the current educational setting and proximity of placement (ESEA Section 1111(g)(1)(E)(i)). These factors may include, but are not limited to:

Title I – Educational Stability for Children in Foster Care

1. Preferences of the child;
2. Preferences of the child's parent(s) or educational decision maker(s);
3. The child's attachment to the school, including meaningful relationships with staff and peers;
4. The proximity of the resource family home to the child's present school;
5. The age and grade level of the child as it relates to the other best-interest factors;
6. The needs of the child, including social adjustment and well-being;
7. The child's performance, continuity of education, and engagement in the school the child presently attends;
8. The child's special education programming if the child is classified;
9. The point of time in the school year;
10. The child's permanency goal and likelihood of reunification;
11. The anticipated duration of the placement;
12. Placement of the child's sibling(s);
13. Influence of the school climate on the child, including safety;
14. The availability and quality of the services in the school to meet the child's educational and socio-emotional needs;
15. History of school transfers and how they have impacted the child;
16. How the length of the commute would impact the child, based on the child's developmental stage;
17. Whether the child is a student with a disability under the Individuals with Disabilities Act (IDEA) who is receiving special education and related services or a student with a disability under Section 504 who is receiving special education or related aids and services and, if so, the availability of those required services in a school other than the school of origin; and

18. Whether the child is an English language learner (ELL) and is receiving language services, and, if so, the availability of those required services in a school other than the school of origin, consistent with Title VI and the Equal Educational Opportunities Act of 1974 (EEOA).

The school district's contact person will discuss these factors and will make every effort to gather meaningful input and participation from the relevant parties, including appropriate school personnel, in the best-interest determination.

Eligible students with disabilities retain their right to receive a free appropriate public education in the least restrictive environment. When making a best-interest determination regarding the educational placement of a student with a disability under IDEA and Section 504, the Board must ensure that all required special education and related services are provided in the least restrictive placement where the child's unique needs, as described in the student's Individualized Education Program (IEP) or Section 504 Plan, can be met. The school district will identify and assess all potential ELL students and provide all ELL students, including ELL students in foster care, with a language assistance program that is educationally sound and proven successful. When a best-interest determination is made for an ELL student in foster care, the Board of Education will comply with its obligations under Title VI and the EEOA.

To the extent feasible, a child shall remain in his/her school of origin until a final best-interest determination is made. The child welfare agency will notify the school district of origin of the child's school placement after collaboration with the Board of Education's point of contact person and after the child's best-interest determination has been made. If a change of school is recommended by the child welfare agency, the new school shall immediately contact the school of origin to obtain relevant academic and other records of the foster care child. The financial responsibility for the payment of tuition for a foster care child placed outside the school district of origin and attending school outside the school district of origin shall be determined by the Commissioner of Education in accordance with N.J.S.A. 18:7B-12 – Determination of District of Residence.

A foster care child who has been placed in this district and exits foster care during the school year will not be permitted to continue in this school district for the remainder of the school year.

In the event there is a disagreement regarding school placement for a child in foster care, the school district will comply with the legal requirements for resolving the dispute. A parent can appeal a best-interest determination whenever the child changes schools.

Children placed in foster care outside the school district of origin, attending a school in that district, will be provided transportation to and from school in accordance with N.J.A.C. 6A:27-6.1 et seq. and the Transportation Policy of that district. The district of origin is financially responsible for transportation costs to and from school.

Title I – Educational Stability for Children in Foster Care

Children placed in foster care outside the school district of origin, but remaining in a school within the school district of origin, shall receive transportation to and from school on a “cost-efficient” manner and in accordance with Section 475(4) (A) of the Social Security Act for the duration of the time the child is in foster care. The district of origin is financially responsible for transportation costs to and from school.

The cost of transportation shall not be considered when determining the best interest of the child.

Section 475(4)(A) of the Social Security Act provides guidance on “cost-effective” transportation as it relates to the cost of reasonable travel for foster care children placed outside the school district of origin to their school of origin indicating: the child may be dropped off at a bus stop just within the school district of origin to be transported to a school in the district of origin; the school district may offer a public transportation option; the foster care parents or other families may be willing to drive the child to school in the school district of origin; the school district may utilize pre-existing bus routes or stops close to the out-of-district foster care placement that cross school district boundaries; or the foster care child may be eligible for transportation under other Federal or State requirements.

In the event there is a disagreement regarding transportation for a child in foster care, the school district will comply with the New Jersey Department of Education requirements for resolving the dispute. The Board of Education shall provide or arrange for adequate and appropriate transportation for foster care children while any disputes are being resolved.

In all cases regarding student data and records, the Board of Education will comply with all statutory requirements to protect student privacy, including Family Education Rights and Privacy Act (FERPA), and all other privacy requirements under Federal laws, State statutes, and administrative codes.

16. “Qualified student with a disability” means a student with a disability at the preschool, elementary, or secondary level, who is: (1) of an age at which students without disabilities are provided educational services; (2) of an age at which it is mandatory under State law to provide educational services to students with disabilities; or (3) a student to whom a State is required to provide a free appropriate public education under the Individuals with Disabilities Education Act (IDEA).
17. “Record of such an impairment” means has a history of, or has been misclassified as having a mental or physical impairment that substantially limits one or more major life activities.
18. “Regarded as having an impairment” means the individual establishes that he or she has been subjected to a prohibited action because of an actual or perceived physical or mental impairment, whether or not that impairment substantially limits or is perceived to substantially limit a major life activity.
 - a. For this prong only, the public entity must demonstrate the impairment is or would be both transitory (lasting or expected to last six months or less) and minor to show an individual is not regarded as having such an impairment. 42 U.S.C. 126 §12102(3) (B)
 - b. A public entity is not required to provide a reasonable modification to an individual meeting the definition of “disability” solely under the “regarded as” prong.

20. “Student” means an individual enrolled in any formal educational program provided by the school district.

The rules of construction when determining whether an impairment substantially limits a student in a major life activity include:
 - a. That it is broadly construed in favor of expansive coverage, to the maximum extent permitted under the Act.

- b. That it does not demand extensive analysis.
 - c. That it substantially limits one major life activity, but not necessarily other major life activities.
 - d. That it may be episodic or in remission, as long as the disability would substantially limit a major life activity when active.
 - e. That it need not prevent, or significantly or severely restrict, an individual from performing a major life activity.
 - f. That it requires an individualized assessment which does not create an “inappropriately high level of limitation” and is based upon the conditions, manner, or duration under which the individual can perform the major life activity 42 U.S.C. 12102(4) (B).
 - g. That it generally will not require scientific, medical, or statistical evidence (although such evidence can be required where appropriate - evidence that can be considered may include statements or affidavits of affected individuals and school records).
 - h. That the determination is made without regard to ameliorative effects of mitigating measures, except for the use of ordinary eyeglasses or contact lenses intended to fully correct visual acuity or eliminate refractive error. Non-ameliorative effects, such as the negative side effects of medication or a medical procedure, may also be considered.
 - i. That the effects of an impairment lasting or expected to last less than six months can be substantially limiting for establishing a disability under the first two prongs: “actual disability” or “record of”.
- B. District 504 Coordinator - 34 C.F.R. §104.7(a)
- 1. The District 504 Coordinator will be responsible for the initial evaluation of all allegations, reasonable accommodations (if required), and re-evaluations.

E. Evaluation and Placement - 34 CFR §104.35

1. The Board will establish standards and procedures for initial evaluations and periodic re-evaluations of students who need or are believed to need special education and/or related services on the basis of disability.
 - a. Section 504 evaluations may encompass record and work sample review; direct observation in the natural setting; interviews with the student, parent, and school personnel; and/or administration of assessment measures. They do not include independent evaluations.
 - b. It may be determined that additional data is required, including the administration of formal standardized instruments and data on conditions in remission or episodic in nature. Tests and other evaluation materials must meet the following criteria:
 - (1) Validated for the specific purpose for which they are used and administered by trained personnel;
 - (2) Tailored to assess specific areas of educational need and not merely those designed to provide a single intelligence quotient; and
 - (3) Accurately reflect aptitude or achievement or whatever else the tests purport to measure, rather than the student's impaired sensory, manual, or speaking skills (unless the test is designed to measure these particular factors).
2. In interpreting evaluation data and in making placement decisions, the district will:
 - a. Draw information from a variety of sources, including, but not limited to: aptitude and achievement tests, medical evaluations, teacher recommendations, physical condition, social and cultural background, and adaptive behavior;

 - c. Ensure that placement decisions are made by a group of persons, including persons knowledgeable about the student, the meaning of the evaluation data, and placement options; and
 - d. Ensure that placement decisions are made in conformity with this Regulation and 34 CFR §104.34.
 3. The District 504 Coordinator will establish timelines for re-evaluations of students receiving reasonable accommodation(s). A parent may request a re-evaluation at any time upon written request to the District 504 Coordinator.
 4. Copies of requests for evaluation and related documents will be maintained in a designated Section 504 file folder placed in the student's cumulative record.
- F. Section 504 and Special Education
 1. A student who qualifies for Section 504 services may not qualify for special education under IDEA; likewise, a student who qualifies under IDEA may not qualify under Section 504.
 2. A referral for a Section 504 evaluation may be made concurrently with a pending special education evaluation. In such instances, the Section 504 evaluation should be conducted during the same timeline utilized for the special education assessment. Generally, the Section 504 evaluation should be conducted in less than sixty days.
 3. If a student is found eligible under Section 504 prior to the special education team's findings, a Section 504 Accommodation Plan will be developed pending the special education team's findings. If the student is then found eligible for special education, an Individualized Education Program (IEP) will be developed and the IEP team can incorporate into the IEP any accommodations/services provided in the Section 504 Accommodation Plan.
 4. A separate Section 504 team meeting will be convened when a student is identified as eligible for special education and no longer requires accommodations/services under Section 504.

5. When an IEP team determines a student is not eligible or no longer eligible for special education, there may be circumstances when a Section 504 referral for evaluation may be appropriate and should be considered. The IEP team may document the student is being referred for a Section 504 evaluation, and the eligibility evaluation shall be addressed in a separate Section 504 team meeting.
- G. Section 504 Accommodation Plan
1. The District 504 Coordinator will assist in organizing a team of individuals responsible for receiving referral documents; securing evaluation information; and determining eligibility and appropriate accommodations, related aids or services for eligible students with disabilities. The team must be comprised of people who:
 - a. Are knowledgeable about the student;
 - b. Understand the meaning of evaluation data; and
 - c. Are familiar with placement options.
 2. The District 504 Coordinator, based on the evaluation of the student eligible for services under Section 504, will prepare a Section 504 Accommodation Plan which may include as relates to the student:

 - c. Current educational placement;
 - d. Name of the District 504 Coordinator preparing the Section 504 Accommodation Plan;

 - b. Be specific, measurable, and tailored to meet students' identified needs to allow for consistent implementation;
 - c. Be written to incorporate specific symptoms, behavior, or triggers that elicit implementation of the accommodation or service if required only occasionally; and

5. Students needing medication:
 - a. Not all students needing medication administered by school staff will require a Section 504 Accommodation Plan. It is not necessary to qualify a student as having a disability that substantially limits a major life activity under Section 504 in order to provide a service that schools perform for all general education students.
 - b. A Section 504 referral with the potential for a subsequent Section 504 Accommodation Plan is appropriate when a student is found to have a disability that substantially limits a major life activity and needs medication administered on a systematic basis to receive equal access to the educational program.

- I. Grievance Procedure - 34 CFR §104.7(b)
 1. This grievance procedure shall apply to a student with a disability alleging discrimination under the provisions of Section 504 of the Rehabilitation Act of 1973.

2430 EXTRA-CURRICULAR ACTIVITIES

The Board believes that the educational goals and objectives of the district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular classroom program.

The purpose of extracurricular activities shall be:

1. To develop useful new capabilities in students that can lead to extension of career opportunities;
2. To develop student initiative and provide for the exercise of responsibility;
3. To develop leadership capabilities and good organizational skills;
4. To aid students in the social skills; and
5. To enable students to experience a wider range of individual interests than might be available in the regular program.

For purposes of this policy, “extracurricular activities” shall be those activities which are sponsored or approved by the Board but are not offered for credit toward graduation. Such activities shall generally be conducted outside the regular school day, available to students who voluntarily elect to participate, marked by student participation in the processes of initiation, planning, organizing, and execution and shall ordinarily include band, clubs, dramatic or musical presentations, and intramural and interscholastic sports.

Equal access to school facilities shall be granted to all activities that meet this definition.

The Superintendent shall prepare procedures to implement an extracurricular program which shall:

1. Assess the needs and interests of the students of this district;
2. Ensure the provision of competent guidance and supervision by staff;
3. Guard against the exploitation of students;
4. Provide for a variety of experiences and a diversity of organizational models;

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY

Extracurricular Activities

5. Provide for the continuing evaluation of the extracurricular program and staff; and
6. Ensure that all extracurricular activities are open to all eligible students and that all students are fully informed of the opportunities open to them.

The guidance goal for each student shall be a balanced program of appropriate academic studies and activities to be determined by the school, the parent(s) or legal guardian(s) and the student. Guidance is necessary to encourage nonparticipants, and to prevent the overenthusiastic from emphasizing activities at the cost of their academic performance.

Only persons in the employ of the Board of Education shall be permitted to organize district students during school time or during any recess in the school day for purposes of instruction or coaching or for conducting games, events, or contests in physical education or athletics.

No activity shall be considered to be under the sponsorship of this Board unless it has been approved by the Board on recommendation of the Superintendent. Fund-raising activities of extracurricular groups must be approved by the Board.

All students in good disciplinary and academic standing shall have equal access to all extracurricular activities regardless of race, color, creed, religion, sex, national origin, ancestry, social or economic status, or nonapplicable handicap.

Good Disciplinary Standing

Good disciplinary standing shall mean that a student is not eligible to participate while serving a detention or suspension. Students who consistently serve detentions or suspensions may be found not eligible to participate the following term.

1. When a student already participating in an extracurricular activity is reported for an infraction of the rules for student conduct, the Principal shall appoint a staff committee to consider whether the student shall be removed from any or all extracurricular activities.
2. If a student was in bad disciplinary standing the previous term, the Principal shall refer the matter to a staff committee to determine whether the student shall be permitted to participate during the current term.

Good Academic Standing

Good academic standing at the beginning of the school year for all grades, seven through twelve, means successful completion of the previous semester's requirements, with no failures. The Superintendent will develop a standard of eligibility for a student to meet in order to participate.

Attendance

The district's attendance policy shall also apply.

Implementation

The Superintendent shall direct development of detailed regulations to ensure equitable implementation of this policy. Particular care shall be taken to ensure that all extracurricular programs and their operation comply with district affirmative action requirements. Participation in academically related coaching or tutoring groups may be exempt from the eligibility requirement at the Superintendent's discretion.

When activities are scheduled which will keep students out of their homes past the curfew hour, the faculty adviser is responsible for fulfilling the requirements of Ordinance No. 6 of 1980.

Academic Standards

The East Orange School District will require all students to have met all the eligibility requirements of the New Jersey Interscholastic Athletic Association (NJSIAA) and the East Orange Board of Education requirement of an overall "C" average to participate in athletic and extracurricular activities.

Any students who have not earned an overall "C" in the preceding semester may participate in athletic and extracurricular activities for a maximum of two consecutive marking periods but must participate in the District's mandatory academic tutorial program. Students who have not earned an overall "C" average by the beginning of the third marking period are ineligible to participate in any athletic or extracurricular activities during the current semester.

All students will be expected to have successfully completed academic courses amounting to the normal progression expected of students toward meeting minimum State academic requirements for graduation (State minimum). In other words, a student entering his/her second semester of freshman year will be expected to have successfully completed one-eighth of the State minimum. Thereafter, as a student progresses through his/her secondary career, he/she will be expected to have completed satisfactorily one-eighth of the State minimum for each semester of attendance in a secondary school (e.g. twenty-five percent of the State minimum entering his/her third year and seventy-five percent of the State minimum upon entering his/her fourth year of secondary school).

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2430/page 4 of 5
Extracurricular Activities

It must be emphasized that these academic standards are minimal requirements.

1. According to regulations of the New Jersey State Board of Education, credits must be assigned equally to all secondary school courses. Thus, courses which at one time were considered "minor" e.g., physical education, art, music, industrial arts, etc., must be included in the determination of academic credits.
2. It is recognized that students may accelerate their academic programs during their first three years of secondary schooling. Consequently, such students may be eligible in the second semester of their senior year even when they carry less than 12 1/2 % of the State minimum during the first semester provided they are meeting their school district's graduation requirements and are passing all courses in which they are enrolled.
3. Schools will not be permitted to "average" academic achievement for students so as to allow them to be eligible even though they have not accumulated the requisite proportion of the State minimum according to their semester of attendance (e.g., a school may not allow a student who failed two courses in his/her first semester because he/she received an "A" in the remaining courses, so as to constitute an average of "C" or above for all courses).
4. If a student is to be graduated in June, has left school, but has re-enrolled, he/she will be eligible thirty calendar days from the date of re-enrollment. However, the student must meet requirements as delineated in the local attendance policy.
5. If a student has continued enrollment while absent from school, he/she will be eligible provided he/she is enrolled in and attends at least one course.
6. An athlete, whose education is interrupted after his/her entrance into the ninth grade and who does not pass the required courses at the end of the semester, upon being readmitted at the beginning of the next semester, is ineligible for failure to meet the requirements of this section.
7. An athlete who is ineligible under Section 6 of this policy may become eligible for the remainder of the winter sports season on February 1 if he/she meets the requirements as described in the opening paragraph of this policy.
8. Any summer work for make-up purposes, completed and approved by school before the sixth school day, in the semester starting September, may be used for eligibility purposes.

Athletic Competition

2431 **ATHLETIC COMPETITION**

The Board of Education recognizes the value of a program of athletic competition for both boys and girls as an integral part of the total school experience. Game activities and practice sessions provide opportunities to learn the values of competition and good sportsmanship. Programs of athletic competition, both intrascholastic and interscholastic, offer students the opportunity to exercise and test their athletic abilities in a context greater and more varied than that offered by the class or school or school district alone, and an opportunity for career and educational development.

For purposes of this Policy, programs of athletic competition includes all activities relating to competitive sports contests, games, practices, scrimmages, and events or sports exhibitions involving individual students or teams of students when such events occur within or between schools within this district or with any schools outside this district. The programs of athletic competition shall include, but are not limited to, high school interscholastic athletic programs, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, and/or intramural athletic programs within a school or among schools in the district and any cheerleading program or activity in the school district.

Eligibility Standards

A student who wishes to participate in a program of athletic competition must submit, on a form provided by the district, the signed consent of his/her parent. The consent of the parent of a student who wishes to participate in a program of athletic competition athletics will include an acknowledgment of the physical hazards that may be encountered in the activity.

Student participation in a program of athletic competition shall be governed by the following eligibility standards:

Academic Standards

All students will be expected to have successfully completed academic courses amounting to the normal progression expected of students toward meeting minimum State academic requirements for graduation (State minimum). In other words, a student entering his/her second semester of freshman year will be expected to have successfully completed one-eighth of the State minimum. Thereafter, as a student progresses through his/her secondary career, he/she will be expected to have completed satisfactorily one-eighth of the State minimum for each semester of attendance in a secondary school (e.g. twenty-five percent of the State minimum entering his/her third year and seventy-five percent of the State minimum upon entering his/her fourth year of secondary school).

It must be emphasized that these academic standards are minimal requirements.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2431/page 2 of 5
Athletic Competition

1. According to regulations of the New Jersey State Board of Education, credits must be assigned equally to all secondary school courses. Thus, courses which at one time were considered "minor" e.g., physical education, art, music, industrial arts, etc., must be included in the determination of academic credits.
2. It is recognized that students may accelerate their academic programs during their first three years of secondary schooling. Consequently, such students may be eligible in the second semester of their senior year even when they carry less than 12 1/2 % of the State minimum during the first semester provided they are meeting their school district's graduation requirements and are passing all courses in which they are enrolled.
3. Schools will not be permitted to "average" academic achievement for students so as to allow them to be eligible even though they have not accumulated the requisite proportion of the State minimum according to their semester of attendance (e.g., a school may not allow a student who failed two courses in his/her first semester because he/she received an "A" in the remaining courses, so as to constitute an average of "C" or above for all courses).
4. If a student is to be graduated in June, has left school, but has re-enrolled, he/she will be eligible thirty calendar days from the date of re-enrollment. However, the student must meet requirements as delineated in the local attendance policy.
5. If a student has continued enrollment while absent from school, he/she will be eligible provided he/she is enrolled in and attends at least one course.
6. An athlete whose education is interrupted after his/her entrance into the ninth grade and who does not pass the required courses at the end of the semester, upon being readmitted at the beginning of the next semester, is ineligible for failure to meet the requirements of this section.
7. An athlete who is ineligible under Section 6 of this policy may become eligible for the remainder of the winter sports season on February 1 if he/she meets the requirements as described in the opening paragraph of this policy.
8. Any summer work for make-up purposes, completed and approved by school before the sixth school day, in the semester starting September, may be used for eligibility purposes.

2431.3 PRACTICE AND PRE-SEASON HEAT-ACCLIMATION FOR INTERSCHOLASTIC ATHLETICS

The Board of Education adopts this Policy as a measure to protect the safety, health and welfare of students participating in school-sponsored interscholastic athletic programs. The Board believes practice and pre-season heat-acclimation guidelines for student-athletes will minimize injury and enhance the student athlete's health, performance, and well-being.

For the purposes of this Policy, "practice time," means the time a player engages in physical activity. Warm-up, stretching, conditioning, weight training, and "cool-down" periods shall be calculated in practice time.

For the purposes of this Policy "walk-through" means practice time where no protective equipment or strenuous activity is permitted and only balls and field markers (cones) may be used.

The first five days of the Board approved pre-season practice shall consist of no more than three hours of practice time. This three-hour practice time during the first five days may be divided into multiple sessions, but total practice time shall not exceed three hours. Full protective gear required for any athletic program may only be worn by student-athletes on the third day of practice and thereafter. Activities during the first two days of practice will be limited to those activities where full protective gear is not needed or required. Protective headgear may be worn on the first two days. Full equipment shall not be worn for any practice that is held before the NJSIAA official start of practice date.

A student-athlete shall not be permitted to participate in a scrimmage for any sport until he/she has completed six complete days of practice.

An athletic team may not practice for more than six consecutive days and one twenty-four hour rest period must be included within a seven-day period. After the fifth day of practice, the maximum allotted time per day for practice shall not exceed five hours. The five-hour practice time may be divided into multiple sessions but total practice time in any day shall not exceed five hours. A five hour practice day may not be followed by a practice day greater than three hours. Therefore, practice days may follow a 3-5-3-5 format. A minimum of a three-hour recovery period shall be provided after any session of greater than two hours in length and a three-hour recovery period should be provided before a walk-through.

2431.4 PREVENTION AND TREATMENT OF SPORTS-RELATED CONCUSSIONS AND HEAD INJURIES

A concussion is a traumatic brain injury caused by a direct or indirect blow to the head or body. In order to ensure the safety of students that participate in interscholastic athletics and cheerleading programs, it is imperative that student-athletes, cheerleaders, coaches, and parents are educated about the nature and treatment of sports-related concussions and other head injuries. Allowing a student-athlete or cheerleader to return to play before recovering from a concussion increases the chance of a more serious brain injury.

Every school district that participates in interscholastic athletics or cheerleading programs is required to adopt a policy concerning the prevention and treatment of sports-related concussions and other head injuries among student-athletes and cheerleaders in accordance with the provisions of N.J.S.A. 18A:40-41.1 at seq. For the purpose of this Policy, "interscholastic athletics" shall be Kindergarten through twelfth grade school-sponsored athletic programs where teams or individuals compete against teams or individuals from other schools or school districts. For the purpose of this Policy, "cheerleading programs" shall be Kindergarten through twelfth grade school-sponsored cheerleading programs.

The school district will adopt an Interscholastic Athletic and Cheerleading Head injury Training Program "to be completed by the team or school physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport or cheerleading program, designated school nurses, and other appropriate school district at personnel as designated by the Superintendent. This Training Program shall be in accordance with guidance provided by the New Jersey Department of Education and the requirements of N.J.S.A. 18A:40-41 .2.

The principal or designee shall distribute the New Jersey Department of Education Concussion and Head Injury Fact Sheet and Parent/Guardian Acknowledgement Form to every student-athlete that participates in interscholastic sports and every cheerleader who participates in a cheerleading program. The Principal or designee shall obtain a signed acknowledgement of the receipt of the Fact Sheet by the student-athlete or cheerleader's parent and keep on file for future reference.

Prevention of a sports-related concussion and head injuries is an important component of the school district's program. The school district may require preseason baseline, testing of all student-athletes and cheerleaders before the student begins participation in an interscholastic athletic or cheerleading program.

Any student-athlete or cheerleader who exhibits the signs or symptoms of a sports-related concussion or other head injury during practice or competition shall be immediately removed from play and may not return to play that day. Emergency medical assistance shall be contacted when symptoms get worse, loss of consciousness, direct neck pain associated with the injury, or any other sign the supervising school staff member determines emergency medical attention is needed. If available when the student-athlete or cheerleader is exhibiting signs or symptoms, the student will be evaluated by the school or team physician. The Principal or designee shall contact the student's parent and inform the parent of the suspected sports-related concussion or other head injury.

Possible signs of a concussion can be observed by any school staff member or the school or team physician possible symptoms of a concussion can be reported by the student-athlete or cheerleader to: coaches; licensed athletic trainer; school or team physician; school nurse; and/or parent. The Principal or designee shall provide the student-athlete or cheerleader with Board of Education approved suggestions for management/medical checklist to provide to their parent and physician or other licensed healthcare professional trained in the evaluation and management of sports-related concussions and other head injuries.

A student-athlete or cheerleader who participates in interscholastic athletics or a cheerleading program and who sustains or is suspected of sustaining a concussion or other head injury shall be required to have a medical examination conducted by their physician or licensed health care provider. The student's physician or licensed health care provider shall be trained in the evaluation and management of concussion to determine the presence or absence of a sports-related concussion or head injury.

The student's physician or licensed health care provider must provide to the school district a written medical release/clearance for the student indicating when the student is able to return to the activity. The medical release/clearance must indicate the student-athlete is asymptomatic at rest and either may return to the interscholastic athletic activity or cheerleading program because the injury was not a concussion or other head injury or may begin the district's graduated return to competition and practice protocol outlined in Regulation 2431.4. A medical release/clearance not in compliance with this Policy will not be accepted. The medical release/clearance must be reviewed and approved by the school or team physician.

The school district shall provide a copy of this Policy and Regulation 2431.4 to all youth sports team organizations that operate on school grounds. In accordance with the provisions of N.J.S.A. 18A:40-41.5, the school district shall not be liable for the injury or death of person due to the action or inaction of persons employed by, or under contract with, a youth sports team organization that operates on school grounds, if the youth sports team organization provides the school district proof of an insurance policy in the amount of not less than \$50,000 per person, per occurrence insuring the youth sports team organization against liability for any bodily injury suffered by a person and a statement of compliance with the school district's

and management of concussions and other head injuries. The following steps shall be followed:

Step 1 – Completion of a full day of normal cognitive activities (attendance at school, studying for tests, watching practice, interacting with peers, etc.) without re-emergence of any signs or symptoms. If there is no return of signs or symptoms of a concussion, the student-athlete or cheerleader may advance to Step 2 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the student shall be required to have a re-evaluation by their physician or licensed healthcare provider. The student shall not be permitted to begin the graduated return to competition and practice protocol until a medical clearance, as required in E.3 above, is provided and approved by the school or team physician.

Step 2 – Light aerobic exercise, which includes walking, swimming, or stationary cycling, keeping the intensity less than 70% maximum percentage heart rate. There shall be no resistance training. The objective of this Step is increased heart rate. If there is no return of any signs or symptoms of a concussion, the student-athlete or cheerleader may advance to Step 3 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the student shall return to Step 1.

Step 3 – Sport-specific exercise including skating and/or running. There shall be no head impact activities. The objective of this Step is to add movement and continue to increase the student-athlete's heart rate. If there is no return of any signs or symptoms of a concussion, the student may advance to Step 4 below on the next day. If re-emergence of any signs or symptoms of a concussion occur, the student shall return to Step 2.

Step 4 – Non-contact training drills such as passing drills, agility drills, throwing, catching, etc. The student-athlete or cheerleader may initiate progressive resistance training. If there is no return of any signs or symptoms of a concussion, the student may advance to Step 5 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the student shall return to Step 3.

Step 5 – The student’s medical condition, upon completing Step 4 with no return of any signs or symptoms of a concussion, shall be evaluated for medical clearance based upon consultation between the school district’s licensed athletic trainer, school or team physician, designated school nurse, and the student’s physician. After this consultation and upon obtaining written medical release/clearance approved by the school or team physician, the student may participate in normal training activities. The objective of this Step is to restore the student’s confidence and for the coaching staff to assess the student’s functional skills. If there is no return of any signs or symptoms of a concussion, the student-athlete may advance to Step 6 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, or if the student does not obtain medical release/clearance to proceed to Step 6, the school or team physician, in consultation with the student’s physician, shall determine the student’s return to competition and practice protocol.

Step 6 – Return to play involving normal exertion or game activity. If the student exhibits a re-emergence of any concussion signs or symptoms once he/she return to physical activity, he/she will be removed from further activities and returned to Step 5.

- G. Temporary Accommodations for Student-Athletes and Cheerleaders with Sports-Related Head Injuries
1. Rest is the best “medicine” for healing concussions or other head injuries. The concussed brain is affected in many functional aspects as a result of the injury. Memory, attention span, concentration, and speed of processing significantly impact learning. Further, exposing the concussed student to the stimulating school environment may delay the resolution of symptoms needed for recovery. Accordingly, consideration of the cognitive effects in returning to the classroom is also an important part of the treatment of sports-related concussions and head injuries.
 2. Mental exertion increases the symptoms from concussions and affects recovery. In accordance with the Centers for Disease Control’s tool kit on managing concussions, the Board of Education may look to address the student’s cognitive needs in the following ways. Students who return to school after a concussion may need to:

2435 - NJSIAA RANDOM TESTING FOR INTERSCHOLASTIC ATHLETICS

The Board of Education recognizes the use of harmful performance enhancing substances seriously threatens the health, safety, and welfare of student-athletes that participate in interscholastic athletics. This district's secondary school is a member of the New Jersey State Interscholastic Athletic Association (NJSIAA). It is a violation of NJSIAA's sportsmanship rule for any student-athlete to possess, ingest, or otherwise use any substance on NJSIAA's list of banned substances, without written prescription by a fully licensed physician, recognized by the American Medical Association, to treat a specific medical condition. Therefore, NJSIAA, in accordance with Executive Order 72, will test a random selection of student-athletes who have qualified, as individuals or as members of a team, for NJSIAA sanctioned State championship competition.

The list of banned substances, for the purposes of this Policy, shall be prepared and published by NJSIAA. Before participating in interscholastic sports, the student-athlete and their parent or guardian shall consent to random testing in accordance with NJSIAA's Steroid Testing Policy by completing and submitting to the school district NJSIAA's Consent To Random Testing Form. NJSIAA's list of banned substances shall be attached to the consent form and the consent form must be signed each school year. The failure to sign the consent form shall render the student-athlete ineligible to participate in all interscholastic sports until the form is signed. The signed Consent To Random Testing Forms shall be maintained in the Building Principal's office.

Student-athletes will be selected to be tested on a random basis from all athletes participating in championship competition in accordance with NJSIAA procedures. The test will analyze a urine sample. The methodology for taking and handling samples shall be in accordance with current legal standards and tests shall be administered by a certified laboratory designated by NJSIAA. No test shall be considered a positive result unless the approved laboratory reports a positive result and NJSIAA's medical review officer confirms there was no medical reason for the positive result. The sample will be split when taken and shall be available in the event of an appeal. A positive test result may be appealed in accordance with NJSIAA's appeal procedures. Results of all tests shall be considered confidential and shall only be disclosed to the individual, his or her parent(s) or legal guardian(s), and his or her school.

It is NJSIAA's Policy that any person who tests positive in an NJSIAA administered test, or any person who refuses to provide a testing sample when identified, or any person who reports his or her own violation, shall immediately forfeit his or her eligibility to participate in NJSIAA competition for a period of one year from the date of the test. Any such person shall also forfeit any individual honor earned while in violation. No person who tests positive, refuses to provide a sample, or who reports his or own violation shall resume eligibility until he or she has undergone counseling and produced a negative test result. NJSIAA's Policy shall not prevent the school district from disciplining a student for violating the district's substance abuse policies or practices and a violation of a school district's testing program will not be reported to NJSIAA.

2436 ACTIVITY PARTICIPATION FEE PROGRAM

The Board of Education recognizes the value of athletic competition and co-curricular activities outside the regular instructional program. However, with reduced or limited revenue and increased expenses, the Board must consider alternative revenue options to support these school-sponsored activities. Therefore, the Board of Education authorizes the establishment of an activity participation fee program as a supplemental revenue source contributing to a percentage of the school district's total costs for operating school-sponsored activities.

The Activity Participation Fee Program will require student participating in a school-sponsored athletic or co-curricular activity to pay a participation fee. The specific and fee amounts will be recommended by the Superintendent of Schools and approved by the Board on an annual basis prior to the commencement of the registration or sign-up process for the activity.

Optional

- per student regardless of the number of activities the student elects to participate in throughout the school year. This per student annual fee shall be paid when the student registers/sign-up for his/her first activity of the school year. No refunds shall be provided in the event the student does not participate in any activity for any reason during the school year.
- per family (dependent children residing in the same household) per school regardless of the number of activities or programs the students elect to participate in throughout the school year. This per family, per school, annual fee shall be paid in the beginning of the school year. No refunds shall be provided in the event a student in the family does not participate in any activity for any reason during the school year.

Optional

The activity fee may be waived or reduced based on financial hardship using the New Jersey eligibility standards established for free and reduced price meals.

Each individual activity fee will be determined by considering the school district's cost for operating the activity to include, but shall not be limited to: coach/advisor salaries; equipment cost; facility rental fee costs; official/referee costs; event registration fees; school/facility/field preparation and maintenance costs; insurance costs; and other expenses incurred by the district in the operation of the activity. 2464 GIFTED AND TALENTED STUDENTS

The East Orange School District recognizes that there are many students in grades Kindergarten through twelve who require differentiated learning experiences due to their outstanding abilities, performance, or potential. These abilities may emerge in general, intellectual, or creative thinking areas. The district has organized various programs (P.E.A.K. Quest, Talent Pool, P.A.C.E.) to accommodate students with these abilities. In addition, there are students who also may excel in specific content areas, particular facets of a content area, or in a specialty area. Specialty areas such as performance, leadership, or higher level thinking are the foci of Schools of Choice across the district.

Elementary/Middle School Programs

Each elementary school's gifted and talented program has a teacher of the gifted/talented who is designated as the Quest teacher for that building. Students are identified by the district's identification process. Students who contract to complete independent study projects, critical creative thinking activities and competitions are also invited to participate in the Quest program.

The Quest/P.A.C.E. teacher is responsible for teaching in a resource room setting. Responsibilities include the teaching of individual and small group investigations of real life problems. The elementary Quest teachers and middle school P.A.C.E. teachers also coordinate competitions such as debates, speeches, Future Problem Solving, Scenario Writing, Community Problem Solving, Odyssey of the Mind, and the Invention Convention. Coordination of school-wide enrichment activities is also the responsibility of each gifted and talented teacher. Quest and middle school P.A.C.E. classes meet three to four times a week during a period set aside for the program.

The middle school format for the gifted and talented consists of the following: First, the honors students in each subject are grouped according to the recommendations of staff in order to maximize the opportunity for excellence among academically able students within each content area.

Secondly, students who manifest exceptional creative thinking abilities attend a P.A.C.E. (Program for Autonomous Creative Experiences) period each day for the purpose of applying their creativity within the curricula and within special program activities.

Secondary Education Programs

The high school format is very similar to the middle school format and thereby encourages continuity and articulation from one level to the next.

In the high schools, students of high ability in grades nine through twelve are grouped in honors and Advanced Placement classes. In addition, a Schools of Choice SPICE component may be available in high school programs.

Programs for capable students in grades six through twelve have many similarities in all secondary schools. Programs abound with elements such as ability grouping, the identification of creativity and other special talents and skills. All P.A.C.E. classes follow the Autonomous Learner Model. The Autonomous Learner Model organizes the activities of high school students into five areas. In these areas, students become more aware of their capabilities and interactions with other people. They are exposed to new ideas and information. They give seminars reflective of their growing knowledge base, and they learn how to carry out in-depth studies. This model ensures that students become independent, responsible life-long learners.

R 2464 GIFTED AND TALENTED STUDENTS

Overview:

The East Orange School District has a Gifted and Talented Program framework within which its schools have built the program structure which best matches the needs of their exceptionally capable students while assimilating the principles, spirit and intent of these schools' Whole School Reform models.

Each student in the East Orange School District is a unique individual with strengths to be nurtured and talents to be developed. Among these young people, however, are a few students with demonstrated or emerging exceptional intellectual, creative, and/or psychosocial/psychomotor abilities. They are the district's gifted population. Educators are challenged to provide these students with an enriched content and supportive environment, which supports their particular areas) of giftedness. This should occur within the regular classroom, as well as, through a variety of appropriately selected out-of-classroom experiences.

Student Identification Process – Quest Program

- Step I Quest teachers will announce the commencement of the identification process for the Quest Program. The announcement may be disseminated in writing, verbally at staff meetings, or on an individual basis.
- Step II Quest teachers will distribute nomination forms to staff members. Be sure to specify a return date, in writing.
- Step III Quest teachers will collect nomination forms.
- Step IV Quest teachers will complete a matrix for nominated students including nomination score, Terra Nova/NJASK scores, needs assessment information, and student project scores.
- Step V Quest teachers will disseminate permission to test forms; for the purpose of administering the Cognitive Abilities Test (CogAT) or OLSAT (Otis Lennon School Ability Test).
- Step VI Quest teachers will request CogAT from the Curriculum Department based on the amount of signed and returned "Permission to Test" forms.
- Step VII Quest teachers will administer CogAT/OLSAT.
- Step VIII Upon receipt of CogAT scores, Quest teachers will complete the matrices. Qualified students will be notified of their Quest Program acceptance.

There are three categories of students for whom curricular and instructional adaptations are made in East Orange's Quest Program:

- A. Gifted - individuals who are exceptionally cognitively capable in Language Arts Literacy and/or Mathematics;
- B. Academically Talented - individuals who demonstrate superior cognitively capable in Language Arts Literacy and/or Mathematics along with superior strength in another content area, such as Science or Social Science.

A multiple criteria matrix is used to identify students. The Total Screening Score determines if he/she is eligible for participation in a Quest component. The following cut-off scores classify the student in one of the three categories listed below:

| Gifted: | 3.5 - 5.0 |
| Academically Talented: | 3.0 - 3.4 |

Talent Pool

Identification: Talent Pool - Grades 2 - 5

It is the intent that students who participate in Talent Pool will receive exposure and experiences in higher-level thinking and project activities as a precursor to the Quest Program.

Students who do not make the cutoff for the Quest Program, but demonstrate potential should be considered for the Talent Pool if the student meets the following screening guidelines:

1. Student test scores are within a tenth of a point of the recommended cut-off. (Terra Nova/Cognitive Abilities tests).
2. Teacher recommendations.
3. Interview the student or have him/her complete a project/product that illustrates potential for exceptional ability.

Students enrolled as first grade students and those who meet the following guidelines can participate in the Talent Pool program at grade one.

4. Teacher recommendation.
5. Kindergarten Terra Nova score.

Notify parents once a student has been identified as a Talent Pool candidate. All Talent Pool students must complete the identification process upon the completion of one year in the Talent Pool program. If a student still does not meet the criteria for Quest, but still demonstrates potential and continues to meet the above guidelines can remain in the Talent Pool program.

Needless Public Labeling of Students with Disabilities

M

2466 **NEEDLESS PUBLIC LABELING OF STUDENTS WITH DISABILITIES**

The Board of Education guarantees the privacy provided by law that no student with a disability be labeled publicly. Therefore, any reference to a student with a disability brought to the attention of the Board and/or any other potential public reference to a student with a disability will be through the use of a district-developed method of coding that would ensure a student's name or other labeling would not identify the student as a student with a disability. Examples where public labeling of students with disabilities shall be avoided include, but are not limited to, Board meeting agenda information, public address announcements, building/classroom signs, public school documents, and/or any other school publication identifying a student with a disability or class/program of students with disabilities.

Special education classes shall be referred to publicly by the name of the teacher. This applies to schedules, class lists, transportation lists, public address announcements, and any other form of communication that has any potential for any exposure other than for the use by appropriately authorized school staff.

Exceptions to the prohibition of public labeling of students with disabilities may be made upon consent of the student's parent(s) or legal guardian(s).

All student records shall be maintained strictly in accordance with N.J.A.C. 6A:32-7.1 et seq.

2468 INDEPENDENT EDUCATIONAL EVALUATIONS

Special education law permits a parent to request an independent educational evaluation (IEE) for their child if there is disagreement with any evaluation provided by the Board of Education. An "independent educational evaluation" is an evaluation conducted by a qualified examiner who is not an employee of the public school district responsible for the education of the child in question. Such IEEs shall be provided at no cost to the parent unless the school district initiates a due process hearing in accordance with the provisions of N.J.A.C. 6A:14-2.7 et seq. to show that its evaluation is appropriate and a final determination to that effect is made following the hearing. If it is determined the school district's evaluation is appropriate, the parent shall have the right to an IEE, but not at the school district's expense.

Upon receipt of a parental request for an IEE, the school district shall provide the parent with information about where an IEE may be obtained and the criteria for IEEs according to N.J.A.C. 6A:14-2.5(c)3 and (c)4 and the additional criteria outlined below in this Policy:

1. Any IEE paid for with public funds shall:
 - a. Be conducted according to the provisions of N.J.A.C.6A:14-3.4; and
 - b. Be obtained from another public school district, educational service commission, jointure commission, a clinic or agency approved under N.J.A.C. 6A:14-5, or private practitioner, who is appropriately certified and/or licensed, where a license is required.
2. An independent medical evaluation may be obtained according to N.J.A.C. 6A:14-5.1(e).

Additional criteria for an IEE shall be as follows:

1. The Board will not pay for an IEE unless it complies with the following criteria unless the parent can show that unique circumstances warrant deviation from same:

The independent evaluator must be appropriately certified and/or licensed in the State of New Jersey. In instances where no applicable certification/license exists, the evaluator must provide the Board with documentation of extensive and recent training and experience related to the assessment of the known or suspected disability;

If, in the Board's judgment, there is no justification for the excess cost, the Board may agree to fund the IEE up to the school district's maximum allowable cost the parent responsible for the remaining costs. In the alternative, the Board may request a due process hearing to enforce its established maximum allowable cost.

2532 - TEXTBOOK MANAGEMENT

A. Goal

The East Orange School District's Primary Goal is to provide the best possible instruction to our students. To accomplish this goal, the district must increase the effectiveness of its educational budget.

One way help achieve our goals is to ensure that all students receive the instructional materials they need, when they need them. Minimizing textbook costs, time and effort can and will be achieved by:

1. Providing each district school with access to material inventory management and reporting capabilities
2. Utilizing existing instructional material inventory already owned by the district to fulfill requests
3. Streamlining and automating school site requests and fulfillment operations
4. Implementing a barcode scanning process to track resource location at each school site
5. Managing Destiny school reports for inventory accountability and accuracy
6. Communicating instructional materials that are available to teachers in each school site.

B. Responsibilities

1. School Principals are responsible for textbook management in their schools. Management includes implementing procedures for distributing textbooks, conducting annual textbook inventories, placing textbook orders, and collecting fines for textbooks that are lost or damaged.
2. Teachers and other staff members are responsible for assisting with textbook management. Their responsibilities include assisting with the annual physical inventory, checking books in/out to students, and adequately safeguarding textbooks in their possession. At the end of the school year, teachers must return the textbooks and teacher materials assigned to them and must notify the designated school management team leader regarding lost or damaged textbooks and teacher materials. The team leader will ultimately relay this information to the principal after all reports are completed.

Policy/Regulations

3. Teachers must make reasonable efforts to monitor and secure the classroom set of textbooks and to determine whether textbooks assigned to students are returned in a satisfactory condition. Teachers and other staff members will be required to pay for teacher edition textbooks and other teacher materials assigned to them for personal use that are lost or damaged, excluding normal deterioration.
4. Students must ensure proper care and use for all textbooks used by the student; return textbooks at the end of the school year or time of possible transfer; and reimburse the school for any lost or damaged textbooks issued to the student (including classroom set copies), excluding normal deterioration.

The District Textbook Management System is based on the following:

Newly adopted textbooks are district property; however, district textbooks that are lost after distribution to the schools are the responsibility of the school site. This means that the schools are responsible for the replacement of core textbooks. i.e. student fines, school budgets. Fines are established later in this document.

1. Unused textbooks must be adequately secured.
2. All district adopted textbooks must contain a district barcode and label. The barcodes should be placed on the back of the textbook on the upper right hand corner near the spine of the book and the barcode strip should be placed on the back of the last page of the textbook on the upper right hand side as well.
3. Textbooks must be tracked through Destiny Textbook Manager. This includes the transfer of books between schools.
4. The Department of Curriculum Services is responsible for establishing specific policies and procedures for managing the textbooks throughout the district and ensures that all schools, departments, and students adhere to the requirements.
5. Each school will request textbooks through each school's textbook management team following the district's procedures.
6. Each school site will hold the parent or student responsible for the loss or damage of textbooks assigned to the student for personal use.
7. The Principal/or each school's textbook management team leader will hold teachers responsible for instructional materials assigned to them for their personal use.
8. Annually, each school will take a complete physical inventory of the currently adopted textbooks located in the school. Guidelines to follow established by Curriculum Services.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2532/page 5 of 14
Textbook Management

Please note:

All adopted textbooks are the property of the East Orange School District. Although school budgets are generated from central office to the schools, books which are delivered and/or transferred between schools are still the property of the East Orange School District. Books lost must be replaced at the school level and tracked by Destiny Textbook manager.

Barcodes

Currently adopted textbooks must have the district's 9 or 8 digit barcode attached to the back of each textbook in the upper right corner of the textbook. The strip which was originally attached to the barcode with the 9 or 8 digits should be attached to the inside cover in the upper right hand side. Additional barcodes should be kept in a secure location (filed and labeled) in the principal's or team manager's office. Additional textbook barcodes can be requested from the Curriculum Services office.

Storage

Extra textbooks should be stored in a secure location that is not readily accessible to students or teachers.

Textbook Request Forms

When additional core textbooks are needed to accommodate class or course enrollment, a TEXTBOOK REQUEST must be submitted by a department chair or a member of the school's textbook management team. Sample Forms are included in this policy.

Textbook Tracking

When additional textbooks are sent to a school due to new replacements, additional purchases or from another site, the books or kits must be electronically "received" through Destiny Textbook Manager. The textbook management team and/or the library media specialist must handle all textbook deliveries to accurately account for the additional inventory. This decision should be made at each school site. Additionally, textbooks sent from a site must be electronically transferred by the textbook management team member or the library media specialist in each school. This should be a school site decision.

Textbook Circulation Procedures

Circulating Textbooks

The Textbook Manager software enables schools to keep track of who has textbooks in their possession and helps to ensure that all students have the proper textbooks for their classes. School textbook managers/or textbook team leaders will:

1. Inform teachers of policies and stress that they are accountable for the textbooks checked out to them. This also means that students are to be held accountable for the books checked out to them by their teacher:
2. Scan IDs to ensure accountability.
3. Teachers should receive a computerized copy of their book lists from a site textbook team leader and develop a student listing of the books/barcodes distributed to each student.
4. Provide textbook due dates at the time of distribution or shortly after.
5. Inform teachers of potential fines for lost or damaged textbooks before or during distribution to students. It would be best to inform students and parents of the textbook policy. (Refer to pgs. 11, 12, 13)
6. Decide where textbooks will be distributed, if textbooks are all barcoded and accounted for in the classrooms.
7. Ensure that textbooks are arranged by title for ease of distribution.

Each school's Textbook Management Team will establish procedures for circulating core textbooks/materials effectively and efficiently to students at the beginning and end of the school year. This will assist the school management team with inventory control and will limit textbook loss. Department chairs/or teachers will collaborate with the textbook management team leader for check/out/in of student books at the beginning and end of the school year and/or at the time of a transfer of a student.

It is important to establish circulation procedures for students entering and exiting a school site during the school year. These procedures should be established at each school site and a copy of these procedures should be sent to the District's Director of Elementary/Secondary Education and to the District's Site Manager.

To assist school management teams with inventory control and to limit textbook loss:

1. Principals should have access to Destiny Textbook Manager to notify parents/guardians immediately of textbooks checked out by the students.
2. Teachers should also inquire whether a new student has a textbooks checked out from another school.

To ensure an accurate accounting of textbooks, textbooks and teachers' editions are to be scanned and checked out to the teacher at the beginning of the year. During the inventory process at the end of the year, textbooks will be checked in. Textbooks should not be renewed from one year to the next by a student, if the same textbook is used during consecutive grades.

Classroom Sets

Student textbooks checked out to teachers are for classroom use only. Although teachers will not be held financially responsible for textbooks lost from the classroom, they are expected to develop a system for how all textbooks are accounted for, after textbooks are checked out to the teacher. Each textbook should then be scanned by ISBN numbers and reassigned to a student under the each student's name.

Teacher Edition Materials

One set of teacher materials for each course taught are checked out to the teacher.

Students

1. Students must reimburse the school for any lost or damaged textbooks issued to the student (including classroom set copies), excluding normal wear and tear.
2. Students failing to return their assigned textbooks forfeit their right to free textbooks until the identified- fine is paid.(See chart) Textbook costs to be sent to the schools via email or can be located from the textbook publisher. If a textbook is not returned or the applicable fine paid, the district may withhold grades at the elementary level, disallow participation in commencement exercises or other extracurricular activities or pursue other actions. There may be some causes where the repayment for the cost of a textbook may be impossible, in those cases, the school should have a plan in place for the student. I.e. assisting the library media specialists in the libraries with the various end of the year tasks or what the principal/textbook management team may deem relevant.
3. If a student fails to return the book or pay for it, the school will allow the student to use the textbook(s) at school during the day, but not outside of class.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY

4. Teachers and other staff members will be required to pay for teacher edition textbooks and other teacher materials assigned to them for personal use that are lost or damaged, excluding normal wear and tear.
5. Monies will be collected for textbook loss and damage. Books are considered damaged if they are defaced in any manner, making the book unusable excluding normal wear and tear.

*The fine for a lost textbook is the replacement cost indicated in Destiny Textbook Manager. Replacement costs are updated annually. Principals may reduce or waive fines upon receiving a completed Request for Lost/or Damaged Textbook Waiver forms. **Students who may qualify for an exemption or waiver of fines would be those students identified as homeless by the district. Those students will be required to do reasonable school service at the discretion of the principal. Please refer to the second bullet item. Any other waivers would be the sole decision of the principal only!***

Graduating seniors/parents must be notified in writing no later than January 15th of their senior year of all fines owed for lost textbooks. All fines must be satisfied by May 15th of their senior year. For those students identified as homeless by the district, will be required to do school service at the principal's discretion.

District-wide Inventory/School Based Inventory

The East Orange School District's textbooks are district property and are tracked through Destiny Textbook Manager. A thorough inventory is to be conducted once a year to maintain an accurate record of textbook availability. Every School is to participate in the annual inventory at the end of the school year.

Establish Procedures for Inventory

The result of each school's inventory procedures should be that every textbook barcode is scanned. Each school's Textbook Management Team will put a plan in place considering how to systematically scan teachers' editions, sets assigned for classroom use, barcoded materials located with classrooms, departments, storage areas, textbook rooms etc.

Consideration should be given to the person responsible for locating the materials in the schools and making them accessible for arranging them so they can be scanned with minimal lifting etc. for the scanning of barcodes.

Consideration should be given to when items will be scanned. Plan to have all textbooks from students, teachers, and classrooms/offices scanned and accounted for prior to the last day of school.

The School Management teams will manage the inventory through Destiny Textbook Manager. As the inventory is conducted, they will upload data and monitor the progress of the inventory. IT WILL BE NECESSARY TO PREPARE A VARIETY OF REPORTS TO INDICATE WHICH ITEMS ARE MISSING FROM THE INVENTORY. Consider where those materials might be located. Plan for a team member to locate and scan missing items when possible.

Provide Inventory Procedures to Staff

The purpose of a district wide inventory is to obtain an accurate accounting of textbooks at each school site. Let them know that overall, we will scan_____ textbooks worth_____. Our current reports indicate a total of _____ textbooks worth_____ are marked lost. The inventory will either confirm or rectify those numbers. As the team shares the inventory procedures, please help the staff understand the scope, importance and the purpose of tracking the task.

Suggested Inventory Timeline

1. Each school's library management team can begin inventory during the third week of May. This task will require after school hours which will be discussed at a later date. The Director of Elementary/Secondary Education will be in charge of the assigned allocated hours for each school's textbook management team. Involvement of District IT Personnel and the Project manager are required.
2. The textbooks, TE's and kits at each school site should be inventoried before students and staff leaves before summer vacation.
3. Inventories must be finished and a report indicating the Unaccounted for Copies are to be submitted to each school principal for his or her site within one week of the students' last day.
4. The School Management team will review each site's inventory and mark *Unaccounted for* textbooks and teachers' lost materials.
5. Each site's inventory should be finalized and the district textbook inventory will be closed within two weeks of the students' last day.
6. Each school's team leader should provide a Destiny Report to the principal and the principal should in turn send/or notify the district superintendent and the district site manager/or Director of Elementary/Secondary Education of each site's textbook inventory reports on or before the last week of June.

Part II Inventory Protocol and Procedures

Opening the District Inventory

Go to Textbook Manager then to Back Office then to Inventory. Your site has been assigned to a district textbook inventory.

Do NOT Start New inventory. The inventory is In Progress and is ready for you to begin scanning.

Inventory Protocol District Inventory Specifications

1. Only textbooks and materials with barcodes are included in the inventory.
2. Student texts, kits and teacher editions/materials are included in the inventory determined by the district.
3. Textbook copies that are currently checked out are *Unaccounted for*.
4. Checked out textbooks will be checked in when scanned. This is true only when using a scanner attached to the computer.
5. Textbook copies that are Lost, In Transit, or Out for Repair are *Accounted for*.

Scanners

Your barcode scanner or a wireless scanner may be used to enter inventory data.

Every site was provided a wireless scanner and is responsible for the replacement if it is broken, lost, or stolen.

Upload Scans to Account for Each Barcode

Best Practices

1. To check in textbooks, scan student textbooks. Wireless scans must be uploaded to inventory frequently. Watch the screen to ensure the scan was processed.
2. Save all files in an inventory folder.

District-wide Inventory

All textbooks are the property of the East Orange School District and are tracked through Destiny Textbook Manager. A thorough inventory is to be conducted once a year to maintain an accurate record of textbook availability. Textbooks have been assigned to each site. It is imperative that every school participates in the district/school wide inventory to ensure textbooks that have been transported with students to new schools or are found at a new location, bookshelves, closets, desks, etc. are accounted for

Scanning Copy Barcodes vs. Uploading Barcode Files

The EOSD uses wireless scanners with the Destiny textbook manager; however there may be a time when both types of scanners to complete inventories are used. Destiny Textbook <Manager handles the information differently depending on how the barcode is inputted.

When scanning copies directly into Inventory using the wired barcode reader

1. An alert message appears at the top of the main Inventory page if there is a problem.
2. The copy status of any Lost textbook is changed to *Available*.
3. To view a list of barcodes scanned run the reports on the Progress Details page in Inventory

Monitor your screen for prompts to address issues as they arise.

When uploading a .txt file of scans into Inventory from a wireless scanner.

1. Lost copies remain lost.
2. Checked-out copies remain checked out.
3. To view a list of barcodes scanned in each.txt file open the Inventory Job Summary report in Job Manager.

Monitor Inventory Job Summary Reports to address issues with each upload.

Important to Know.....

To check in and inventory textbooks at the same time, upload the .txt file to Offline Circulation rather than Inventory.

Offline Circulations will touch Inventory, but Inventory does not touch Offline Circulations.

Inventory Job Summary Reports

Destiny makes an entry in the Job Summary for every barcode number in the uploaded .txt file. For most accurate results preview the job summary report and satisfy exceptions immediately.

Exception: "Skipped: Barcode number not found"

Solution: Add the copy to the textbook collection

Exception: "Barcode number has been accounted for, but is currently checked out and has a due date of date due"

Solution: Enter the barcode on the main Inventory page or Check In Text page

Exception: "Barcode number is currently Lost"

Solution: Enter the barcode on the main Inventory page or Check In Text page

Important to Know.....

If a textbook is marked Lost at School A and is scanned during inventory at School B, the book is marked *Available* at School B, the book is marked *Available* at School B and disappears from School A's inventory. This is only if the book has been purchased by the district and there is no shortage of that textbook in school A. If the book is a replacement which was purchased from the School A principal's account, then the book should be transferred back to School A or by principal agreement.

If a textbook is found without a barcode on the back inside cover or the inside barcode on the front of the book, attach a barcode and add the copy in Destiny Textbook Manager.

If a barcode has been removed, edit the copy by assigning a new barcode. Attach the barcode to the back cover and replace the inside sticker.

Transferring Textbooks

A key feature in Textbook Manager is the ability to transfer textbook inventory between sites. At-a-glance information lets textbook administrators know the availability and location of textbooks throughout the district and allows them to move textbooks in the database to sites that need them.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2532/page 13 of 14
Textbook Management

Transferring textbooks from a school with a surplus to a school with a shortage helps save the district money. While either the district or a school can initiate transfers with Textbook Manager, most districts have a policy that requires a school to request needed textbooks from the district; thus, the transfer process begins when the district receives the request.

A transfer can occur in three ways:

1. Site-Initiated Transfer
2. Site-to-Site Transfer (which does not involve the district at all)

A site-initiated transfer is probably the most typical and follows this general process:

1. The site with the shortage (site A) requests with a transfer notice for textbooks from another site (site B, the site with the surplus) after identifying the surplus in the school with Destiny Textbook manager.
2. The site with the surplus (sending school) prepares the textbooks and arranges to have the books hand delivered or the school in need can arrange to have books picked up. Make sure all books are counted before leaving the school and counted at the receiving at the school. The sending school will not do any scanning.
3. The receiving school will click *circulation* and scroll to *copy* status and then scan each barcode.
4. Once barcodes are scanned at the receiving schools, the textbooks will automatically delete from the sending school's list on textbook manager.

Part III Monitoring Your Inventory

Monitoring Inventory Progress

1. Go to Back Office>Inventory
2. Use % Complete to monitor how much of your textbook collection has been inventoried.
3. Use See Details or Run Report to monitor barcodes, titles, copy status (if checked out or lost, the status includes the patron name attached), and last seen dates.

Monitoring Lost Books and Fines

1. Go to Reports> Textbooks> Lost Textbooks and Fines
2. Click on Copies: <number> to view title, barcode, date marked lost, and if it was checked out, patron, current site, and fine amount.

Monitoring Textbook Check out by Teacher (MS/HS)

Part IV Finishing Your Inventory

Once every textbook at each school site has been scanned and inventoried, you are ready to provide your principal, textbook manager, and District Destiny Administrator, and Input manager of data with an inventory report of textbooks/ materials found and not found.

Copies that are *unaccounted for*.....

Go to Inventory> In Progress Inventories> Program Details

1. Your textbook inventory is finished. Click Finished and confirm that you are done with your part of the inventory. Then finalize your inventory and mark
2. *Unaccounted for* materials Lost.
3. Lost reports will be submitted to curriculum and the Superintendent.

Part V Textbook Collection

School Site Suggestions:

1. Decide how to organize and where to store textbooks.
2. Decide which collection option to use:
 - Teachers can collect textbooks from students during each class period.
 - Students can go to a central location during each class period with the corresponding textbook. (This option may could be relevant at the secondary level)
 - Students can return all textbooks issued to them in a central location.
3. Collect textbooks from both teachers and students.
4. Collect textbooks from both teachers and students.
5. Check the condition of each textbook to ensure that it is not damaged. Note the condition of the textbook in the software. Decide whether to assess students and teachers fines for damaged textbooks:
 - If assessing fines, decide whether to charge the full replacement cost or the depreciated value.
 - Decide when to mark unreturned as lost; for example, one day (or longer) after the due date.
6. Decide whether to start an inventory before textbook collection.

The Commissioner of Education, in accordance with N.J.S.A. 18A:7C-1 et seq. and 18A:7E-2 and 3, may implement assessments of student achievement in any grade(s) and by such assessment as he or she deem appropriate of the Core Curriculum Content Standards in accordance with the provisions of N.J.A.C. 6A:8-4.1 et seq. The Commissioner shall report to the State Board of Education the results of such assessments.

The Commissioner shall implement a system and related schedule of Statewide assessments to evaluate student achievement of the New Jersey Student Learning Standards (NJSLS). The Commissioner, with the approval of the State Board of Education, shall define the scope and level of student performance on Statewide assessments that demonstrate thorough understanding of the knowledge and skills delineated by the NJSLS at grade levels three through twelve. After consultation with the Commissioner, the State Board of Education shall establish by resolution uniform Statewide criteria defining adequate school district progress toward meeting the NJSLS.

State assessments provide parents with important information about their child's progress; detailed diagnostic information about each individual student's performance that educators, parents, and students can utilize to enhance foundational knowledge and student achievement; and include item analysis which will clarify a student's level of knowledge and understanding of a particular subject or area of a subject. The data derived from State assessments will be utilized by teachers and administrators to pinpoint areas of difficulty and customize instruction accordingly. Such data can be accessed and utilized as a student progresses to successive school levels.

Pursuant to N.J.A.C. 6A:8-4.1(b) and (c), all students at grade levels three through twelve, and at any other grade(s) designated by the Commissioner pursuant to N.J.A.C. 6A:8-4.1(a), shall take all appropriate Statewide assessments as scheduled. There is no provision for a student to opt-out of Statewide assessments. If a student is absent on a testing date, the student will be expected to take the missed test on another school day. Parents and students will be informed of all scheduled testing dates, including make-up testing dates for students who missed the initial testing date.

2631 **NEW JERSEY QUALITY SINGLE ACCOUNTABILITY CONTINUUM** **(QSAC)**

The Board of Education and Superintendent of Schools will work with the New Jersey Department of Education to comply with the requirements of the New Jersey Quality Single Accountability Continuum (QSAC) system in accordance with the provisions of N.J.A.C. 6A:30-1.1 et seq. QSAC is the New Jersey Department of Education monitoring and evaluating system for public school districts. Public school districts in New Jersey are evaluated in five key component areas of school effectiveness – instruction and program, personnel, fiscal management, operations, and governance – to determine the extent to which the school district is providing a thorough and efficient education.

Weighted quality performance indicators established by the Department of Education shall be used by the Commissioner of Education to assess school district performance and capacity during the comprehensive reviews pursuant to N.J.A.C. 6A:30-3.1 through 3.4, the in-depth evaluation pursuant to N.J.A.C. 6A:30-5.3, and monitoring of an approved QSAC district improvement plan pursuant to N.J.A.C. 6A:30-5.6. The weighted quality performance indicators shall also be used by the Commissioner in determining whether to initiate intervention activities pursuant to N.J.A.C. 6A:30-6.2, withdrawal from intervention pursuant to N.J.A.C. 6A:30-7.1, and initial placement of Level II, Level III, and State-Operated School Districts on the performance continuum pursuant to N.J.A.C. 6A:30-8.3.

The Commissioner shall conduct a comprehensive review of each public school district every three years. In the intervening years, the Commissioner shall assess the school district's performance to determine whether conditions exist in the school district that significantly and negatively impact the educational program or operations of the school district.

The Superintendent shall be responsible for completing the District Performance Review in accordance with the requirements as outlined in N.J.A.C. 6A:30-3.2. The District Performance Review and a Statement of Assurance prepared in accordance with N.J.A.C. 6A:30-3.2(e) shall be approved by the Board of Education by resolution and submitted to the County Superintendent of Schools in accordance with the provisions of N.J.A.C. 6A:30-3.2(f) and (g). The district's District Performance Review and the Statement of Assurance will be reviewed and evaluated in accordance with the requirements of N.J.A.C. 6A:30-3.3. The Commissioner shall issue a final determination of the school district's performance and initial placement on the performance continuum in accordance with N.J.A.C. 6A:30-4.1.

Where appropriate, pursuant to the factors as outlined in N.J.A.C. 6A:30-6.2, the Commissioner may seek forms of partial or full intervention in a school district as outlined in N.J.A.C. 6A:30-6.1 et seq. Withdrawal from partial or full State intervention shall be in accordance with the provisions of N.J.A.C. 6A:30-7 et seq.
