Free discussion of controversial issues political, economic, social shall be encouraged in the classroom wherever appropriate for the level of the group.

Issues may be considered controversial which arouse strong reaction, based either on personal conviction or allegiance to a group. School treatment of controversial issues shall be designed to instruct pupils in fair and objective study techniques. It is essential that pupils be taught to distinguish fact from opinion, proof from allegation and logical substance from assertion.

The Building Principal shall have authority to decide whether a particular topic that arises in a single classroom shall be given continued attention.

The decision on whether a particular controversial issue shall become a matter for school study shall be based on the timeliness of the question, the maturity and needs of the pupils and the goal and objectives of the district. The handling of discussions on controversial questions which arise unexpectedly shall be the responsibility of the teacher, and shall be free from the assumption that there is one correct answer which should emerge from a discussion and which should be taught authoritatively to the pupils.

In determining speakers to be invited for a class or school-wide program, the Principal's prior approval must be obtained. The Principal shall consider whether:

1. The speaker is controversial for any reason;
2. The topic is controversial, or sensitive, or known to arouse strong community feelings; and/or
3. The proposed speaker would gain an advantage by having a "captive" audience.

If teachers wish to supplement the curriculum guide with material that may be of a controversial nature, i.e., subject to interpretation as obscene, profane, doctrinaire, or inappropriate, each in relation to the maturity level of the class, they should review the material with the Principal first. In doubtful cases, the Superintendent may present the matter for Board consideration.

2270 **RELIGION IN THE SCHOOLS**

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the pupils of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the schools. School officials will be neutral in their treatment of religion in the school district, showing neither favoritism toward nor hostility against religious expression. Accordingly, devotional exercises will be permitted in this district. The following activities will be permitted in the school district provided the activity is consistent with current United States Supreme Court decisions regarding the relationship between government and religion: prayer during instructional time; organized prayer groups and activities; religious expression and prayer in classroom assignments; pupil assemblies and extra-curricular events; prayer at graduation; baccalaureate ceremonies; devotional exercises; and other prayer and/or religion related activities. The school district will not permit an activity if the activity advances or inhibits any particular religious expression that is protected by the First Amendment of the United States Constitution.

The Board believes that an understanding of religions and the contributions that religion has made to the advancement of civilization is essential to the thorough education of young people and to their appreciation of a pluralistic society. To that end, the curriculum may be developed to include, as appropriate to the various ages and attainments of the pupils, instruction about the religions of the world.

The Board also acknowledges the degree to which a religious consciousness has enriched the arts, literature, music, and issues of morality. The instructional and resource materials approved for use in the schools of this district frequently contain religious references or concern moral issues that have traditionally been the focus of religious concern. That such materials may, therefore, be religious in nature shall not, by itself, bar their use by the district. The Board directs that teaching staff members employing such materials be neutral in their approach and avoid using them to advance or inhibit religion in any way.

The Board recognizes that religious traditions vary in their perceptions and doctrines regarding the natural world and its processes. The curriculum is chosen for its place in the thorough and efficient education of the children of this district, not for its conformity to religious principles. Pupils should receive unbiased instruction in the schools so that they may privately accept or reject the knowledge so gained in accordance with their own religious tenets.

2310 PUPIL GROUPING

In order to achieve effective individual learning, grouping arrangements shall be kept flexible in size and membership. Groups shall not be established on a permanent basis.

Age or grade differences shall not constitute a barrier to grouping. The basic criteria for grouping should be the learning goals and objectives being addressed and the pupil's ability to achieve those purposes. Pupils should be grouped so that each benefits to a greater extent than would otherwise be possible, with provisions for altering the grouping as often as necessary to fit the specific purpose involved.

2330 HOMEWORK

The Board of Education believes that homework relevant to material presented in class provides an opportunity to broaden, deepen, or reinforce the pupil's knowledge. Teachers must use discretion in deciding the number and length of assignments. The Board encourages the use of interrelated major homework assignments such as term papers, themes, and creative art projects.

Assignments are given to pupils by teachers to be completed outside of regular class time. Homework is given:

- To extend and explore concepts introduced during class time
- To review class work
- To stimulate new interests
- To develop initiative
- To increase independent thinking
- To develop good work and study habits
- To stimulate critical thinking

Each pupil should:

1. Carefully plan to provide sufficient time for the homework assignment to be completed without undue haste.
2. Willingly assume responsibility for properly completing all homework and should make certain that he/she understands the purpose, requirements, and method of preparation.

Parent(s) or legal guardian(s) can be of great assistance in helping with homework by:

1. Making available proper conditions, time, and facilities for effective home study.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2330/page 2 of 2
Homework

2. Encouraging the pupil to complete assignments neatly, accurately, promptly, and independently.
3. Indicating interest in the pupil's total school responsibility and the place of homework as part of his/her obligation.
4. Feeling free to confer frequently with the teachers so that the school and home can work cooperatively toward the highest achievement of which the child is capable.

Homework shall not be used for punitive reasons.

Pupils absent for any reason must make up assignments, class work and tests within a reasonable length of time. In most cases, a reasonable length of time shall be the same number of school days as the days missed.

Pupils being excused for any reason must make arrangements with the teacher of the missed classes in order to make up the work missed. This must be done before the absence from class.

Incompletes

When a pupil does not complete work missed for absence or other reasons, he/she will receive an "incomplete" for the marking period. Pupils will be given ten school days following the end of the marking period to make up the missed work. If work is not made up, the incomplete will be changed to the grade earned.

If work is missed during the final marking period of the school year, the teacher is responsible for reporting to the pupil the work he/she has missed, and indicating that if work is not made up by the last day of the term, then the grade standing will be the grade earned.

Homework

R 2330 HOMEWORK

A. Content of Homework

1. Any homework assigned to pupils must be closely integrated with the curriculum. There should be a direct relationship between classroom studies and assigned homework. Homework should reinforce and extend the lessons learned in school.
2. Homework should help pupils learn by providing practice in the mastery of skills, experience in gathering information and integrating knowledge, and an opportunity to remediate learning problems.
3. Homework should help develop the pupil's responsibility and provide an opportunity for the pupil to exercise independent work and judgment.
4. The concepts on which a homework assignment is based should have been thoroughly taught and reviewed in class. Homework assignments should include only those exercises and activities that a pupil can accomplish independently.
5. Homework assignments should not require the use of research or resource tools that are not readily available in the pupils' homes or in sufficient quantity in the public or school library, or available for borrowing from the classroom.
6. Homework assignments should not require extensive copy work unless the writing of numbers or script is the skill being taught.
7. Homework must never serve a punitive or disciplinary function; learning, in school or at home, must always be a positive experience, rewarding for its own sake.

B. Assignment of Homework

1. The number, frequency, and degree of difficulty of homework assignments should be based on the ability and needs of the individual pupil.
2. Homework should be assigned with clarity so that pupils know precisely what is expected of them. It may be helpful for teachers to post the homework assignment at the beginning of the class period and to encourage pupils to ask questions about any aspect of the assignment they do not fully understand. Homework should never be assigned hurriedly or in a confused manner.

Homework

3. Teachers should observe the following guidelines for the introduction and assignment of homework. Time allotments include all aspects of the homework assignment--outside reading, research, drill work, and the like.

- a. Kindergarten

Home experiences related to classroom lessons should be assigned to pupils when appropriate.

- b. Grades 1, 2, and 3

Formal homework assignments should be introduced in grade one. Lessons should be geared to the needs and abilities of individual pupils. The amount of time allocated should increase through the grades from thirty to sixty minutes several times a week.

- c. Grades 4 and 5

Homework should be regularly scheduled, should require no more than seventy-five minutes of preparation daily, and should be based on the needs and abilities of individual pupils.

- d. Grades 6, 7, and 8

Homework should be regularly scheduled, should require no more than thirty minutes on each academic subject and should be based on the needs and abilities of individual pupils.

In departmentalized junior high or elementary grades, pupils' total daily homework load and out-of-school responsibilities should be considered in determining the amount of homework to be assigned. Teachers on each grade level or team will meet once a week or as required to review time estimates of homework to be assigned. Major tests that require substantial periods of study will be taken into consideration in determining the total estimated homework load.

Homework

e. Grades 9 through 12

High school pupils should be assigned homework in each major academic subject on a regular basis. Periodic assignments should be given in art and music courses. Both long and short-term assignments should be given in all courses. A high school pupil should typically devote at least thirty to forty-five minutes on each academic subject daily. Pupils may choose to spend time during weekends and vacation periods on long-term assignments.

4. To the degree reasonably possible, teachers should plan and announce homework assignments, especially long-term assignments, well in advance so that pupils can adjust their schedules appropriately.
5. Pupils should be encouraged or required to maintain a homework assignment book, in which the pupil records his/her daily assignment. Pupils and parent(s) or legal guardian(s) may be asked to record the time necessary to complete each assignment; this information will assist teachers in verifying their estimates of the length of time a given assignment will require.
6. A teacher may accede to a parent(s) or legal guardian(s) request for additional homework assignments for a pupil, provided the teacher, in his/her discretion, believes that the pupil will benefit from the assignment.
7. A pupil who has been absent from school will be given an opportunity to make up homework assignments, provided the assignments are completed during a period equal to the length of his/her absence. That period may be extended for the completion of long-term assignments.
8. The parent(s) or legal guardian(s) of an absent pupil may request homework assignments to be completed during the pupil's absence. Teachers are expected to comply with any such request.

C. Evaluation of Homework

1. All homework must be evaluated by the teacher and the teacher's evaluation must be communicated to the pupil. Homework is not a learning activity if the pupil receives no acknowledgment of his/her work and no appraisal or criticism of it.

Homework

2. Teachers should insist on high standards of quality in homework. The homework lesson should teach the values of thorough preparation, careful research, neat execution, thoughtful work, and prompt submission.

D. Checklist for Teachers

Teachers should be able to answer affirmatively the following questions about a homework assignment.

1. Does the homework serve a valid purpose?
2. Is it well within the capacities of the pupil?
3. Has the class been thoughtfully motivated for the work?
4. Does the assignment grow out of school experience?
5. Is the work related to pupils' interests? Is it interesting?
6. Does the assignment extend pupils' fund of information?
7. Is the work adapted to individual needs, interests, and capacities?
8. Are pupils entirely clear about what they are to do?
9. Can the pupils do the work without the assistance of parent(s) or legal guardian(s) or others?
10. Is the assignment a reasonable one and evenly scheduled in view of the pupil's home conditions?
11. Does the assignment minimize the temptation merely to copy information?
12. Can the homework be evaluated fairly and/or be used in the daily program?

2340 FIELD TRIPS

The East Orange Board of Education encourages field trips that are related to the New Jersey Core Content Curriculum Standards and are aligned with the district's curriculum, goals, and objectives.

The Board of Education recognizes that field trips, used as a device for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the school.

For purposes of this policy, a field trip shall be defined as any journey by a group of pupils away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

The Board of Education shall consider field trips which are included in curriculum guides to have been approved in advance. All trips not listed in the curriculum guide must be individually approved by the Board.

All field trips must be approved by the Principal prior to approval by the Superintendent. Requests must be submitted forty-five days prior to the date of the trip. Overnight trips or trips toward which parent(s) or legal guardian(s) or any outside groups are to contribute part of the cost must be submitted to the Board for approval sixty days in advance. No pupil is to be denied the right to participate due to inability to contribute.

When field trips and excursions are to be arranged, the following guidelines apply:

1. All trips, and the arrangements for them, must have advance approval.
2. Costs must be ascertained.
3. Each child who goes on a field trip or excursion must have written parental permission.
4. Pupil safety must be of prime concern, and adequate supervision must be provided by staff aided by other adult chaperones if necessary.
5. All trips must be well planned, properly timed, and related to regular learning activities, or to district goals and objectives.
6. Each field trip should be evaluated by teachers, and the administration.

2360 Use of Technology

The Board of Education recognizes the use of technology in the educational process is an essential part of the schooling experience. Technology is to be viewed as a resource to enhance the learning process among other resources available to teachers and pupils. In addition, technology can be used to enhance the administration of the schools and the district. In order to provide direction and meaning to the use of technology as an instructional resource, the Board encourages and supports staff use of technology as a component of the learning process.

For purposes of this policy "technology" includes, but is not limited to, the use of computers and computer peripherals, communications networks, access to databases and libraries of information and the integration of audio, video, multimedia devices and media for purposes of teaching and learning.

The Superintendent, in consultation with school and district level teaching and support staff, shall recommend to the Board the acquisition of the appropriate technology to best implement the curricular, instructional, and administrative program of the school district. 2361 ACCEPTABLE USE OF COMPUTER NETWORKS/COMPUTERS AND RESOURCES

The Board of Education recognizes as new technologies shift the manner in which information is accessed, communicated and transferred; these changes will alter the nature of teaching and learning. Access to technology will allow pupils to explore databases, libraries, Internet sites, bulletin boards while exchanging information with individuals throughout the world. The Board supports access by pupils to these information sources but reserves the right to limit in school use to materials appropriate for educational purposes. The Board directs the Superintendent to effect training of teaching staff members in skills appropriate to analyzing and evaluating such resources as to appropriateness for educational purposes.

The Board also recognizes technology will allow pupils access to information sources that have not been pre-screened by educators using Board approved standards. The Board therefore adopts the following standards of conduct for the use of computer networks and declares unethical, unacceptable or illegal behavior as just cause for taking disciplinary action, limiting or revoking network access privileges and/or instituting legal action.

The Board provides access to computer networks/computers for educational purposes only. The Board retains the right to restrict or terminate pupil and staff access to computer network/computers at any time, for any reason. The School Board retains the right to have district personnel monitor network activity, in any form necessary, to maintain the integrity of the network and ensure its proper use.

Standards for Use of Computer Networks

Any individual engaging in the following actions when using computer networks/computers shall be subject to discipline or legal action:

- A. Using the computer network(s)/computers for illegal, inappropriate or obscene purposes, or in support of such activities. Illegal activities are defined as activities that violate federal, state, local laws and regulations. Inappropriate activities are defined as those that violate the intended use of the network. Obscene activities shall be defined as a violation of generally accepted social standards for use of publicly owned and operated communication vehicles.
- B. Using the computer network(s)/computers to violate copyrights, institutional or third party copyrights, license agreements or other contracts.

and Resources

R 2361 ACCEPTABLE USE OF COMPUTER NETWORKS/COMPUTERS AND RESOURCES

The school district provides computer equipment, computer services, and Internet access to its pupils and staff for educational purposes only. The purpose of providing technology resources is to improve learning and teaching through research, teacher training, collaboration, dissemination and the use of global communication resources. The "system administrators" referred to herein as employees of the school district, administer the school district computer network/computers, and may be required by the Board of Education and or the Superintendent to monitor all activity on network/computer facilities/computers.

For the purpose of this Policy and Regulation, "computer networks/computers" includes, but is not limited to, the school district's computer networks, computer services, computers, other computer hardware and software, Internet equipment and access, and any other computer related equipment.

For the purpose of this Policy and Regulation, "school district personnel" shall be the person(s) designated by the Superintendent of Schools to oversee and coordinate the school district's computer networks/computer systems. School District personnel will monitor networks and online activity, in any form necessary, to maintain the integrity of the networks, ensure proper use, and to be in compliance with Federal and State laws that regulate Internet safety.

Due to the complex association between government agencies and computer networks/computers and the requirements of Federal and State laws, the end user of the school district's computer networks/computers must adhere to strict regulations. Regulations are provided to assure staff, community, pupil and parent(s) or legal guardian(s) of pupils are aware of their responsibilities. The school district may modify these regulations at any time. The signatures of the pupil and his/her parent(s) or legal guardian(s) on a district-approved Consent and Waiver Agreement are legally binding and indicate that the parties have read the terms and conditions carefully, understand their significance, and agree to abide by the rules and regulation established under Policy and Regulation 2361.

Pupils and staff are responsible for acceptable and appropriate behavior and conduct on school district computer networks/computers. Communications on the computer networks/computers are often public in nature and policies and regulations governing appropriate behavior and communications apply. The school district's networks, Internet access and computers are provided for pupils and staff to conduct research and communicate with others. Access to computer networks/computers is given to pupils and staff who agree to act in a considerate, appropriate and responsible manner. Parent(s)' or legal guardian(s)' permission is required for a pupil to access the school district's computer networks/computers. Access entails responsibility and individual users of the district computer networks/computers are responsible for their behavior and communications over the computer networks/computers. It is presumed users will comply with district standards and will honor

Because the school district provides, through connection to the Internet, access to other computer systems around the world, staff members, pupils and their parent(s) or legal guardian(s) should be advised the Board and school district have no control over content. While most of the content available on the Internet is not offensive and much of it is a valuable educational resource, some objectionable material exists. Even though the Board provides pupils access to Internet resources through the district's computer networks/computers with installed appropriate technology protection measures, parents and pupils must be advised potential dangers remain and offensive material may be accessed notwithstanding the technology protection measures taken by the school district.

Pupils and their parent(s) or legal guardian(s) as well as staff members are advised some systems and Internet sites may contain defamatory, inaccurate, abusive, obscene, profane, sexually oriented, threatening, racially offensive, or otherwise illegal or offensive material. 2414 Programs and Services for Pupils in High Poverty and in High Need School Districts

High poverty school districts are required to provide programs and services that address class size and Kindergarten programs. High need school districts are required to provide programs and services that focus on improving instruction in literacy and mathematics.

A high poverty school district for the purpose of this policy means a school district in which forty percent or more of the pupils are “at risk” as defined in N.J.S.A. 18A:7F-45. Class size in high poverty school districts shall not exceed twenty-one pupils in grades Kindergarten through three, twenty-three pupils in grades four and five, and twenty-four pupils in grades six through twelve. However, if the district chooses to maintain lower class sizes in grades Kindergarten through three, class sizes in grades four and five may be equal but not exceed twenty-five pupils. Exceptions to these class size requirements are permitted for some physical education and performing arts classes, where appropriate. High poverty school districts shall maintain all existing full-day Kindergarten programs with a teacher’s aide for each classroom. Class size for these Kindergarten classrooms shall not exceed twenty-one pupils.

In the first school year immediately following such identification as a high need school district, the district shall begin planning for implementation of, and shall implement where possible, the designated program(s). In the subsequent year following identification as a high need school district, the district shall fully implement the designated program(s). High need school districts, once identified, shall remain in that status and shall continue to implement the designated program(s) for a minimum of three years.

High need school districts where less than eighty-five percent of total pupils have achieved proficiency in language arts literacy on the New Jersey Assessment of Skills and Knowledge (NJASK) 3 shall provide an intensive early literacy program for preschool to grade three to ensure that all pupils achieve proficiency on State standards in accordance with the requirements of N.J.A.C. 6A:13-3.4(a).

2415 **NO CHILD LEFT BEHIND PROGRAMS**

The No Child Left Behind Act (NCLB) of 2001 is a reauthorization of the Elementary and Secondary Education Act (ESEA)/Improving America's Schools Act (IASA) 1994, providing funds to help all New Jersey's school children achieve, at a minimum, proficiency in the State standards. NCLB embodies four key principles or pillars of education reform: accountability, flexibility, choice, and methodology. The Board of Education elects to augment the instructional program of pupils by projects supported by federal funds allocated under NCLB and the district will comply with the requirements of all the programs authorized by NCLB.

The district may be eligible for several grant programs funded through NCLB, including, but not limited to, Title I through Title VI. Many of the Titles of NCLB have several parts and subparts that provide a funding source for specific purposes.

Application Procedure

The district will submit an annual No Child Left Behind Consolidated Formula Subgrant Application to the New Jersey Department of Education (NJDOE). The school district's application shall include all information required by the NJDOE and NCLB for the district to be considered for funding under NCLB.

Covered Programs

The intent of NCLB is that all children will meet State academic achievement standards to reach their potential through improved programs. The NCLB Consolidated Formula Subgrant includes the following programs:

1. Title I, Part A provides the programs and resources for disadvantaged pupils to meet this intent. It requires the State and the district to close the achievement gap by placing a highly qualified teacher in every classroom, improving the qualifications of paraprofessionals who work with disadvantaged pupils, and using instructional practices that have proven to be effective.
2. Title I, Part D serves neglected and delinquent youth in institutions, community day programs, and correctional facilities to assure they also attain high academic levels of performance.
4. Title II, Part A provides the resources for improving teacher and Principal quality and increasing the number of highly qualified teachers and Principals in classrooms and schools, thereby raising pupil achievement in the academic subjects. It focuses on preparing, training, and recruiting high-quality teachers and Principals and requires the State to develop plans with annual measurable

objectives that will ensure all teachers teaching in core academic subjects are highly qualified by the end of the 2005-2006 school year.

4. Title II, Part D facilitates comprehensive and integrated educational technology strategies that target the specific needs of individual schools. It improves pupil academic achievement through the use of technology in elementary and secondary schools, while addressing the digital divide such that every pupil is technologically literate by the end of eighth grade. Effective integration of technology resources and systems with teacher training and curriculum development are encouraged in order to identify and showcase best practices in educational technology.
5. Title III, Part A focuses on the teaching of English to limited English proficient (LEP) children, including immigrant children and youth.
6. Title IV, Part A provides resources for fostering a safe and drug-free learning environment that supports academic achievement.
7. Title V, Part A provides a flexible source of funding to help districts in the development and implementation of various innovative reform initiatives.
8. Title VI, Part B addresses the unique needs of rural school districts.
9. Title IX covers the general provisions applicable to some/all of the programs.

Throughout NCLB, the use of solid research to improve teaching and learning as well as pupil behavior is required and promoted, and parent(s)/legal guardian(s) are provided with information and options to improve the educational opportunities provided for their children. The emphasis on scientifically based methodology encourages the use of teaching techniques and practices that are founded on research and proven to produce positive results.

Title I

The largest federal program supporting elementary and secondary education is Title I. NCLB strengthens Title I requirements for the State's assessments, accountability system, and support for school improvement. The law also establishes minimum qualifications for teachers and paraprofessionals in Title I programs.

The school district must use the best available measure for identifying children from low-income families to identify eligible school attendance areas, determine the ranking of each area and to determine allocations as identified in the Title I guidelines and regulations.

The school district will offer Title I services to eligible children enrolled in private elementary and secondary schools. The services and benefits will be equitable in comparison to services and benefits for participating public school children.

The school district will provide the New Jersey Department of Education assurances it will provide the maximum coordination between the Title I program, the regular school program, and services provided by other programs for specialized populations. The Title I program will consider the special needs of homeless children, migrant children, children with disabilities and limited English proficient (LEP) children. Title I funds will be reserved so that migrant children who are otherwise eligible to receive Title I services, even if they arrive during the school year, are served.

Type of Title I Program

The school district will offer a School-wide Title I program.

School-wide Program

High-poverty schools (those with 35% or more pupils from low-income families) are eligible to adopt school-wide programs to raise the achievement of low-achieving pupils by improving instruction throughout the entire school, thus using Title I funds to serve all children. A school-wide program must be established in accordance with the Title I guidelines and regulations and the New Jersey Department of Education.

 2. Serve such eligible school attendance areas in rank order.
- C. Remaining Funds - If funds remain after serving these eligible school attendance areas, a school district will:
1. Annually rank such agency's remaining eligible school attendance areas from highest to lowest either by grade span or for the entire local educational agency according to the percentage of children from low-income families; and
 2. Serve such eligible school attendance areas in rank order either within each grade-span grouping or within the school district as a whole.
- D. Measures of Identification - The school district will use the best available measure for identifying children from low-income families to identify eligible school attendance areas, determine the ranking of each area and to determine allocations. This measure shall be the number of children ages five through seventeen in poverty counted in the most recent census date, the number of children eligible for free and reduced-price lunches under the National School Lunch Act, the number of children in families receiving assistance under the Aid to Families with Dependent Children program, the number of children eligible to receive medical assistance under the Medicaid program, or a composite of such indicators. This requirement is not applicable if the school district has a total enrollment of less than 1,000 children.
- E. Waiver for Desegregation Plan - The U.S. Secretary of Education may approve the school district's written request for a waiver of the eligible attendance area requirements in accordance with Title I guidelines and regulations.
- F. School District Discretion - In general the school district may:
1. Designate as eligible any school attendance area or school in which at least 35% of the children are from low-income families;

 4. SPECIAL RULE: If a Local Educational Agency (LEA) chooses not to serve an eligible school attendance area, the number of children attending private elementary and secondary schools who are to receive services, and the assistance such children are to receive under this part, shall be determined without regard to whether the public school attendance area in which such children reside receives Title I funds.
- G. Allocations: In general:
1. The school district will allocate Title I funds to eligible school attendance areas or eligible schools, in rank order, on the basis of the total number of children from low-income families in each area or school.
 2. The per-pupil amount of funds allocated to each school attendance area or school shall be at least 125% of the per pupil amount of funds the school district received for that year under the poverty criteria described by the school district's plan. This will not apply if the school district only serves schools in which the percentage of such children is 35% or greater.
 3. The school district may reduce the amount of funds allocated for a school attendance area or school by the amount of any supplemental state and local funds expended in that school attendance area or school for programs that meet the requirements for school-wide or target assistance schools.

The school district will contact the private school in writing and consult with private school officials before the school district makes any decision that affects the private school children. This consultation shall include the following:
 1. Criteria for low income;
 2. How the children's needs will be identified;
 3. What services will be offered;
 4. How and where the services will be provided; and

Title I Program Guidelines, New Jersey Department of Education

Issued: 3 June 2009

2415.01 ACADEMIC STANDARDS, ACADEMIC ASSESSMENTS AND ACCOUNTABILITY

The No Child Left Behind Act of 2001 (NCLB), a reauthorization of the Elementary and Secondary Education Act (ESEA), requires New Jersey to implement a single accountability system to include challenging academic content and academic achievement standards. The accountability requirements under NCLB were built on the foundation of the former Improving America's Schools Act (IASA).

To meet the Federal requirements, New Jersey has adopted the New Jersey Single Accountability System. State assessments in language arts literacy and mathematics are based on the New Jersey Core Curriculum Content Standards. All pupils enrolled in New Jersey public schools, plus all pupils subgroups, must meet the proficiency benchmarks to ensure the goal of 100% proficiency. Pupils must score either "proficient" or "advanced proficient" on the assessment to be counted toward the benchmarks.

Schools are evaluated using adequate yearly progress (AYP) indicators. Pupils achievement is determined by grade span (Elementary School – grades three through five, Middle School – grades six through eight, and High School – grades nine through twelve) and in each content area. There are indicators that must be met (including participation and proficiency rates) plus a secondary indicator. A safe harbor calculation is applied to measure significant progress if the benchmark is missed. When a school does not meet AYP for two consecutive years in the same content area, it is designated as a "school in need of improvement."

AYP shall be calculated for all New Jersey schools under the provisions of NCLB. Schools that do not meet AYP as defined under NCLB are placed into one of the following categories. Title I schools in need of improvement must implement the sanctions for each category.

Year 1 - Early Warning: A school that does not make AYP for one year is placed into "early warning" status.

Year 2 – In Need of Improvement/School Choice: A school that does not make AYP for two consecutive years in the same content area is designated as a "school in need of improvement." Parents/legal guardians shall be promptly notified if their child's school has been designated as in need of improvement. For Title I schools certain interventions apply, including intradistrict school choice (or supplemental educational services if choice is not available and development of a school improvement plan (Title I Unified Plan). The district must offer the school technical assistance to address the areas that caused the school to be in need of improvement. Parents/legal guardians shall be notified of their right to request intradistrict public school choice and parents/legal guardians of eligible pupils shall be notified of the availability of supplemental educational services, if choice is not available, including the provider list Web address.

Year 3 – In Need of Improvement/Supplemental Educational Services (SES): A school that does not make AYP for three consecutive years in the same content area shall continue to be identified as a “school in need of improvement.” The Title I school must continue to offer intradistrict school choice and must also offer SES to eligible pupils. Technical assistance must continue to be offered by the District, parents must receive notification of the school’s status, and the school improvement plan (Title I Unified Plan) is updated annually. Parents/legal guardians of eligible pupils shall be notified of the available, including the provider list Web address.

The New Jersey Department of Education (NJDOE) offers school support by engaging a team of experienced professionals to conduct an extensive school review called Collaborative Assessment and Planning for Achievement (CAPA). The CAPA team interviews stakeholders and staff, reviews school and district documents, and conducts on-site observations to develop a report that contains recommendations for school improvement, which then becomes part of the Title I Unified Plan.

Year 4 – Corrective Action: A school that does not make AYP for four consecutive years in the same content area is identified as a school in corrective action. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school’s status, revise its school improvement plan (Title I Unified Plan), and receive technical assistance from the district and the NJDOE.

The district must take at least one of the following corrective actions;

1. Provide for all relevant staff, appropriate, scientifically research-based professional development that is likely to improve academic achievement of low-performing pupils.
2. Institute a new curriculum grounded in scientifically-based research and provides appropriate professional development to support its implementation.
3. Extend the length of the school year or school day.
4. Replace the school staff that is deemed relevant to the school not making adequate progress.
5. Significantly decrease management authority at the school.
6. Restructure the internal organization of the school.

Academic Standards, Academic Assessments
and Accountability

7. Appoint one or more outside experts to advise the school how to revise and strengthen the improvement plan it created while in school improvement status and how to address the specific issues underlying the school's continued inability to make AYP.

Year 5 – Planning for Restructuring: A Title I school that does not make AYP for five consecutive years in the same content area must plan to restructure. The restructuring plan is implemented at the beginning of the following school year if the school continues to miss AYP benchmarks and moves to Year 6. During the planning year, the Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input during the restructuring process, and receive technical assistance from the district and the NJDOE. The technical assistance design for a school being restructured emphasizes the following:

1. The importance of improving instruction by using strategies grounded in scientifically – based research so that all children in the school achieve proficiency in the core academic subjects of language arts and mathematics.
2. The importance of analyzing and applying data in decision making.

The restructuring plan must include one of the following alternative governance systems for the school as outlined by NCLB regulations and consistent with New Jersey practice and statutes:

1. Implement any major restructuring of the school's governance that is consistent with the principles of restructuring as set forth in the No Child Left Behind Act.
2. Re-open the school as a public charter school as defined by State statute and regulation (N.J.S.A. 18A:36A-1 et seq. and N.J.A.C. 6A).
3. Replace all or most of the school staff, which may include the Principal, who are relevant to the school's inability to make adequate progress (consistent with existing contractual provisions and applicable statutory protections in Title 18A).

Year 6 – Restructuring – 1: A Title I school that does not make AYP for six consecutive years in the same content area must implement the approved restructuring plan. The Title I school must continue to offer intradistrict school choice and SES, notify parents of the school's status and invite parent input and support during the implementation process, and receive assistance technical assistance from the district and the NJDOE. Technical assistance is critical to help school staff remain focused on increasing pupil achievement while the school is adjusting to potentially radical changes in its administration and governance structures. A CAPA visit will occur at the school to

determine the fidelity of implementation of the restructuring plans and to review the governance structure of the school.

Year 7 (and over) – Restructuring 2 (and over): If the school has not made AYP for seven or more consecutive years, the NJDOE will meet with school and district administrators to continually review implementation of the restructuring plan/Title I Unified Plan. Benchmark meetings with NJDOE staff, the school, and the district will occur twice a year to assess and support and support implementation of the school improvement plan.

Removal from Early Warning/Improvement Status: To be removed from early warning or improvement status, the school must make AYP for two consecutive years in the content area that caused the school to go into status, providing the school makes AYP in the other content areas. The first year of making AYP is a “hold year” and the school does not progress to the next sanction level, but must continue to implement current interventions. If the school does not make AYP the year following “hold,” the school goes back into improvement status at the level prior to the hold year.

Highly Qualified Teachers

2415.03 **HIGHLY QUALIFIED TEACHERS**

Introduction

The No Child Left Behind Act (NCLB) of 2001 requires all teachers be or become highly qualified in the core academic content area(s) they teach in accordance with the United States Department of Education and the New Jersey Department of Education highly qualified teacher requirements.

Teachers who have achieved highly qualified status retain highly qualified status permanently for the teaching assignment designated on the approved highly qualified teacher forms. No teacher providing direct instruction in core content areas is grandfathered or exempt from this process.

The district shall maintain the appropriate highly qualified documentation for all teachers who provide direct instruction in core content areas. When a teacher changes teaching assignments, which requires different content expertise, additional highly qualified teacher forms must be completed and kept on file within the district. Highly qualified teacher documentation should be completed for all new teachers and for those with new teaching assignments at the beginning of each school year.

When a teacher obtains employment in a new school district, the new district must contact the previous place of employment to have the teacher's official highly qualified teacher forms sent to the new district. A teacher hired from another State must hold New Jersey certification and must meet New Jersey's highly qualified teacher requirements. Out-of-State teachers may provide documentation to support their highly qualified teacher status from the previous State in which they taught.

All Title I schools must send out a Right-to-Know letter in the beginning of every school year informing parent(s) or legal guardian(s) that they have the right to know the qualifications of their child's teacher. The letter should be sent by all Title I and non-Title I districts. In addition, in all Title I schools, the parent(s) or legal guardian(s) of pupils whose teacher is not yet highly qualified must be notified. Copies of these letters must be kept on file in the school.

No Child Left Behind Act of 2001, Title X, Part F, §1061

Adopted: 3 June 2009

2415.06 **UNSAFE SCHOOL CHOICE OPTION**

The Unsafe School Choice Option (USCO) provision of The No Child Left Behind Act of 2001 (NCLB) §9532 contains two provisions that apply to school districts that receive funds under NCLB: Provision I - Persistently Dangerous Schools and Provision II - Victims of Violent Criminal Offenses.

Effective the beginning of each school year, school districts receiving NCLB funds must be prepared to complete the transfer of pupils who choose to exercise Provision I and Provision II of NCLB and this Unsafe School Choice Option Policy. Compliance with the Policy is a condition of receiving funds under any and all titles under NCLB. The Superintendent is required to certify compliance with this USCO Policy to the New Jersey Department of Education (NJDOE) in the application for NCLB funds.

USCO Policy Provision I - Persistently Dangerous Schools (PDS)

1. Criteria for Determining Persistently Dangerous Schools.

A persistently dangerous school is a public elementary or secondary school building (except for Regional Day Schools, Educational Services Commissions and Special Services School Districts) that meets the objective criteria determined by the New Jersey Department of Education (NJDOE) for three consecutive years and is part of a school district that receives funds under NCLB. The NJDOE will use the most current available data from the Electronic Violence and Vandalism Reporting System (EVVRS) to identify persistently dangerous schools on or before July 31 of each year, in compliance with federal regulations (68 FR 16789).

2. Procedures and Guidelines for Schools Determined to be Persistently Dangerous.

Once the district receives notification a school is identified as persistently dangerous, the district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school within the district by the beginning of the respective school year. The district must complete all transfers by the beginning of the school year following the July notification.

Pupils are not required to accept the transfer option, but they must be afforded the opportunity to do so. Parental notice regarding the status of the school and the offer to transfer pupils should be made simultaneously. Parents of enrolled pupils must be notified of the persistently dangerous designation whether or not there is another school within the district for the transferring pupils.

To the extent possible, the district will allow transferring pupils to transfer to schools that are making adequate yearly progress in accordance with NCLB and have not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupils and parents.

3. Corrective Action Plan for a School Identified as Persistently Dangerous.

If a school in the district is identified as persistently dangerous, the district will submit to the NJDOE, on or before August 25, documentation of compliance with the parent notification requirement and actions taken to complete the transfer arrangements for all pupils exercising the option by the first day of the school year. The district will also develop and submit for approval a corrective action plan to the NJDOE on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide schools with guidance for their corrective action plans, as well as monitor the school district's timely completion of the approved plans.

In the spring of each following year, the NJDOE will re-evaluate the status of a school identified as persistently dangerous. The NJDOE will review the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools (PDS). A school identified as maintaining the persistently dangerous designation will be notified by the NJDOE on or before July 31 of the respective year and will be required to submit for approval a revised corrective action plan by August 25 of that year, which will apply to the respective school year. The school district must inform all parents of enrolled pupils in the school of the designation within fifteen calendar days of the notice and offer them the option for their children to transfer to a safe public school by the beginning of the respective school year.

A school no longer designated persistently dangerous will be notified on or before July 31 of the respective year. The persistently dangerous designation will be removed after one or more years contingent upon successful fulfillment of the criteria for removal, as determined by and in accordance with guidance provided by the NJDOE.

4. Procedures and Guidelines for Early Warning of Schools.

Effective in 2004, if a school meets the criteria set forth in this Policy for two consecutive years, the district will be notified of their pattern of offenses on or before August 15 of each year. If notified, the district will develop and submit to the NJDOE for approval a corrective action plan on or before September 30 of the same year, which will apply to the respective school year. The corrective action plan, which must be completed in the format provided by the NJDOE, will describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school with guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan. This school shall become a top priority for intensified district support for research-based programs and technical assistance. A school receiving an "early warning" notices is not required to provide the transfer option to pupils.

In the spring of each following year, the NJDOE will reevaluate the school's progress towards completing their corrective action plan and compare the current year's incidents of violence, as reported on the EVVRS, to the criteria for determining persistently dangerous schools. Schools will be notified of their status on or before July 31 of the respective year.

A school that has successfully completed their corrective action plan and reported violent incidents that no longer meet the Criteria for Determining Persistently Dangerous Schools for one school year (the year in which the corrective action plan was in effect) will no longer be required to submit a Corrective Action Plan.

A school that does not successfully complete their Corrective Action Plan and that meets the criteria set forth in this Policy for a third consecutive year will be designated as persistently dangerous and will be required to submit for approval a revised corrective action plan on or before September 30 of that year, which will apply to the respective school year. The district will also provide the transfer option to pupils in the school designated as persistently dangerous.

5. Schools Not Receiving NCLB Funds, but Meeting the Criteria for PDS.

School buildings and districts that do not receive federal funds under NCLB, but meet any one of the criteria for persistently dangerous schools, will be contacted by the NJDOE and be required to develop and submit for approval a Corrective Action Plan on or before September 30 of the respective year. The Corrective Action Plan must be completed in the format provided by the NJDOE and describe how the school will reduce the number of incidents of violence as determined by the EVVRS. The NJDOE will provide the school guidance for their corrective action plan, as well as monitor the school's timely completion of the approved plan.

USCO Policy Provision II - Victims of Violent Criminal Offenses

The Victim of Violent Criminal Offenses provision of NCLB requires a pupil who becomes a victim of a violent criminal offense, as determined by State law, while in or on the grounds of a public elementary or secondary school that the pupil attends, be allowed to attend a safe public elementary or secondary school within the district, including a public charter school.

The Superintendent will consult with the Board attorney and communicate with designated local and/or county law enforcement authorities, per the provisions of the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials and N.J.A.C. 6A:16-6.2(b)12, on questions and issues that arise in the implementation of the individual victims of violent criminal offenses section of this Policy.

1. Criteria for Determining Victims of Violent Criminal Offenses

The following criteria must be used to determine when an enrolled pupil has become a victim of a violent criminal offense while in or on the grounds of a public elementary or secondary school that the pupil attends. These criteria only apply to a pupil who has become a victim of one or more of the violent criminal offenses enumerated below:

A pupil is considered a victim of a violent criminal offense when:

- a. A referral has been made to law enforcement officials for suspicion that one of the violent criminal offenses enumerated below has occurred; and
- b. One or more of the following applies:

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2415.06/page 5 of 11
Unsafe School Choice Option

- (1) Law enforcement officials have filed formal charges against the perpetrator(s) for commission of the violent crime; or
- (2) The perpetrator(s) of the violent crime has been disciplined in accordance with school policy; or
- (3) The perpetrator(s) of the violent crime either has not been identified or is not an enrolled pupil(s), but it is clear that the pupil (victim) has become a victim of a violent criminal offense based on objective indicators such as physical evidence, eyewitness testimony, and/or circumstantial evidence; or
- (4) The pre-existence of a restraining order against the perpetrator(s) of the violent crime.

2. Procedures and Guidelines

Effective the first day of each school year beginning in 2003, the district must be prepared to begin the transfer of any pupil who chooses to exercise the unsafe school choice option provision. The district must offer, within ten calendar days, an opportunity to transfer to a safe public school within the district to any pupil who has become a victim of a violent criminal offense while in or on the grounds of a public school that the pupil attends. While the pupil must be offered the opportunity to transfer, the pupil may elect to remain at the school.

To the extent possible, the district will allow any transferring pupil to transfer to a school that is making adequate yearly progress in accordance with NCLB and has not been identified as being in need of school improvement, corrective action or restructuring. The district will take into account the needs and preferences of the affected pupil and his or her parent(s). Transfers must occur within thirty days of the determination that the pupil was a victim of a violent criminal offense.

3. Violent Criminal Offenses

The violent criminal offenses under New Jersey statutes that apply to the individual victim provision are identified and explained below. The offenses apply to completed offenses, as well as threats and attempts to commit the offenses. The offenses and attempts to commit the offenses apply only when they occur in or on the grounds of a school that the pupil attends. The offenses apply whether they occur wholly or in part in or on the grounds of a school that the pupil attends.

The offenses apply only to acts or attempts that are directed at a person (victim) or a group of specified individuals (victims), rather than acts that indiscriminately affect the entire school population or non-specified individuals or groups. For the purposes of this Unsafe School Choice Option Policy, the term "victim" shall not include a pupil who purposely, knowingly or recklessly provokes the conduct constituting the criminal incident against him or her.

4. Applicable Violent Criminal Offenses

Below is a description of each applicable violent criminal offense that is based upon New Jersey statutes and references to statutory citations that provide complete explanations of each designated offense. The descriptions provided below are not intended to be a complete explanation of each offense or a substitute for the actual provisions of the authorizing statutes. Instead, the descriptions are provided as an aid in facilitating understanding of the general intent and practical applications of the violent criminal offenses that pertain to this Unsafe School Choice Option Policy.

- a. Homicide [N.J.S.A. 2C:11-2] - A person is a victim of a homicide when he or she is the child, sibling or other relative of a decedent, resulting from someone purposely, knowingly or recklessly causing the death of the pupil's parent, sibling or relative in or on school grounds.

Miscellaneous Provisions of USCO

1. Transfer Time Period – Persistently Dangerous Schools

The transfer will be temporary and will be in effect as long as the pupil's original school is identified as persistently dangerous.

2. Charter School Transfer Option

While NCLB permits affected pupils to be afforded the opportunity to attend a public charter school, in addition to a safe public elementary school or secondary school within the school district, the application of this provision in New Jersey is limited. Transfers to a charter school can only occur as a part of the charter school's "equal opportunity" selection process and among charter schools administered under the same managing authority (i.e., charter schools within the charter school district).

Since charter schools in New Jersey are considered public LEA's, pursuant to N.J.S.A. 18A:36A-3, operated independently of a local board of education, transfers may only take place among charter schools within the LEA. Therefore, pupils may be permitted to transfer to another charter school that is administered under the same managing authority of the charter school, but are not permitted to transfer to a school in the local public school district administered by a local board of education.

However, pursuant to N.J.S.A. 18A:36A-7, a charter school must be open to all pupils on a space available basis and may not discriminate in its admission policies or practices (although it may establish reasonable criteria to evaluate prospective pupils), and in accordance with N.J.S.A. 18A:36A-8, if there are more applications to enroll in the charter school than there are spaces available, the charter school must select pupils to attend using a random selection process for enrollment.

3. Funding Sources for USCO

The Unsafe School Choice Option law does not authorize resources specifically to help cover USCO costs. However, under certain circumstances Federal funds may be used. For example, funds under SDFSCA (Title IV, Part A of the NCLB) may be used to establish safe zones of passage to and from school to ensure that pupils travel safely on their way to school and on their way home [Section 4115(b)(2)(E)(v)]. In addition, SDFSCA funds may be used to help cover costs such as tuition or transportation related to the Unsafe School Choice Option or expansion of public school choice [Section 5121(8) and 5131(12 and (25))].

4. Special Education Pupils

The district will provide transferred special education pupils with the program required by the pupil's Individualized Education Program (IEP).

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2415.06/page 11 of 11
Unsafe School Choice Option

Under the federal regulations (68 FR 16789), this Policy only applies to offenses that occur in the 2003–2004 school year and thereafter. Beginning with the 2004–2005 school year, the district must provide the transfer option to victims of violent criminal offenses that occurred in the previous school year, if the determination that the pupil was a victim was made thirty days or fewer before the end of the school year.

The district will use the school choice option as one response to incidents of victimization. Additionally, the district will develop and implement appropriate strategies for addressing the circumstances that contribute to or support victimization, as well as consistently and proactively manage individuals who have victimized pupils. The district will promote the importance of school safety and respond to the needs of pupils and staff. Pursuant to the law, the district will provide an opportunity for pupils, parents and school district and law enforcement personnel to discuss methods for keeping schools safe from violence; to create school safety plans; and to recognize pupils in need of help. The district will organize activities to prevent school violence, including, but not limited to, age-appropriate opportunities for pupil discussion on conflict resolution, issues of pupil diversity and tolerance. Law enforcement personnel will be invited to join members of the teaching staff in the discussions. Programs shall also be provided for school district employees that are designated to help school district employees recognize warning signs of school violence and to instruct school district employees on recommended conduct during an incident of school violence.

N.J.S.A. 18A:17-46 requires a public hearing in the third week in October of each year for the Superintendent to report to the Board all acts of violence and vandalism that occurred in the district during the previous school year. The public hearing shall be transcribed and kept on file in the Board of Education Office. The transcript shall be made available to the public upon request. The Board must also file the transcript with the NJDOE for review.

The parent may appeal the Executive County Superintendent's decision to the Commissioner of Education.

Newly exited students who are not progressing in the main stream English program may be considered for re-enter to bilingual and ESL programs in accordance with the provisions of N.J.A.C. 6A:15-1.10(e) 1 through (e) 5.

When the review process **for exiting a student from a bilingual, ESL, or English language services program has been** completed, the student's parent shall be informed by mail of the placement determination. A parent or teaching staff member who disagrees with the proposed placement may appeal the decision in writing to the Superintendent of Schools, who will provide a written explanation for the decision within **seven** working days. 2430 EXTRA-CURRICULAR ACTIVITIES

The Board believes that the educational goals and objectives of the district are best achieved by a diversity of learning experiences, some of which are more appropriately conducted outside the regular classroom program.

The purpose of extracurricular activities shall be:

1. To develop useful new capabilities in pupils that can lead to extension of career opportunities;
2. To develop pupil initiative and provide for the exercise of responsibility;
3. To develop leadership capabilities and good organizational skills;
4. To aid pupils in the social skills; and
5. To enable pupils to experience a wider range of individual interests than might be available in the regular program.

For purposes of this policy, “extracurricular activities” shall be those activities which are sponsored or approved by the Board but are not offered for credit toward graduation. Such activities shall generally be conducted outside the regular school day, available to pupils who voluntarily elect to participate, marked by pupil participation in the processes of initiation, planning, organizing, and execution and shall ordinarily include band, clubs, dramatic or musical presentations, and intramural and interscholastic sports.

Equal access to school facilities shall be granted to all activities that meet this definition.

The Superintendent shall prepare procedures to implement an extracurricular program which shall:

1. Assess the needs and interests of the pupils of this district;
2. Ensure the provision of competent guidance and supervision by staff;
3. Guard against the exploitation of pupils;
4. Provide for a variety of experiences and a diversity of organizational models;

Policy/Regulations

PROGRAM - POLICY

Extracurricular Activities

5. Provide for the continuing evaluation of the extracurricular program and staff; and
6. Ensure that all extracurricular activities are open to all eligible pupils and that all pupils are fully informed of the opportunities open to them.

The guidance goal for each pupil shall be a balanced program of appropriate academic studies and activities to be determined by the school, the parent(s) or legal guardian(s) and the pupil. Guidance is necessary to encourage nonparticipants, and to prevent the overenthusiastic from emphasizing activities at the cost of their academic performance.

Only persons in the employ of the Board of Education shall be permitted to organize district pupils during school time or during any recess in the school day for purposes of instruction or coaching or for conducting games, events, or contests in physical education or athletics.

No activity shall be considered to be under the sponsorship of this Board unless it has been approved by the Board on recommendation of the Superintendent. Fund-raising activities of extracurricular groups must be approved by the Board.

All pupils in good disciplinary and academic standing shall have equal access to all extracurricular activities regardless of race, color, creed, religion, sex, national origin, ancestry, social or economic status, or nonapplicable handicap.

Good Disciplinary Standing

Good disciplinary standing shall mean that a pupil is not eligible to participate while serving a detention or suspension. Pupils who consistently serve detentions or suspensions may be found not eligible to participate the following term.

1. When a pupil already participating in an extracurricular activity is reported for an infraction of the rules for pupil conduct, the Principal shall appoint a staff committee to consider whether the pupil shall be removed from any or all extracurricular activities.
2. If a pupil was in bad disciplinary standing the previous term, the Principal shall refer the matter to a staff committee to determine whether the pupil shall be permitted to participate during the current term.

Good Academic Standing

Good academic standing at the beginning of the school year for all grades, seven through twelve, means successful completion of the previous semester's requirements, with no failures. The Superintendent will develop a standard of eligibility for a pupil to meet in order to participate.

Attendance

The district's attendance policy shall also apply.

Implementation

The Superintendent shall direct development of detailed regulations to ensure equitable implementation of this policy. Particular care shall be taken to ensure that all extracurricular programs and their operation comply with district affirmative action requirements. Participation in academically related coaching or tutoring groups may be exempt from the eligibility requirement at the Superintendent's discretion.

When activities are scheduled which will keep pupils out of their homes past the curfew hour, the faculty adviser is responsible for fulfilling the requirements of Ordinance No. 6 of 1980.

Academic Standards

The East Orange School District will require all pupils to have met all the eligibility requirements of the New Jersey Interscholastic Athletic Association (NJSIAA) and the East Orange Board of Education requirement of an overall "C" average to participate in athletic and extracurricular activities.

Any pupils who have not earned an overall "C" in the preceding semester may participate in athletic and extracurricular activities for a maximum of two consecutive marking periods but must participate in the District's mandatory academic tutorial program. Pupils who have not earned an overall "C" average by the beginning of the third marking period are ineligible to participate in any athletic or extracurricular activities during the current semester.

All pupils will be expected to have successfully completed academic courses amounting to the normal progression expected of pupils toward meeting minimum State academic requirements for graduation (State minimum). In other words, a pupil entering his/her second semester of freshman year will be expected to have successfully completed one-eighth of the State minimum. Thereafter, as a pupil progresses through his/her secondary career, he/she will be expected to have completed satisfactorily one-eighth of the State minimum for each semester of attendance in a secondary school (e.g. twenty-five percent of the State minimum entering his/her third year and seventy-five percent of the State minimum upon entering his/her fourth year of secondary school).

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY

Extracurricular Activities

It must be emphasized that these academic standards are minimal requirements.

1. According to regulations of the New Jersey State Board of Education, credits must be assigned equally to all secondary school courses. Thus, courses which at one time were considered "minor" e.g., physical education, art, music, industrial arts, etc., must be included in the determination of academic credits.
2. It is recognized that pupils may accelerate their academic programs during their first three years of secondary schooling. Consequently, such pupils may be eligible in the second semester of their senior year even when they carry less than 12 1/2 % of the State minimum during the first semester provided they are meeting their school district's graduation requirements and are passing all courses in which they are enrolled.
3. Schools will not be permitted to "average" academic achievement for pupils so as to allow them to be eligible even though they have not accumulated the requisite proportion of the State minimum according to their semester of attendance (e.g., a school may not allow a pupil who failed two courses in his/her first semester because he/she received an "A" in the remaining courses, so as to constitute an average of "C" or above for all courses).
4. If a pupil is to be graduated in June, has left school, but has re-enrolled, he/she will be eligible thirty calendar days from the date of re-enrollment. However, the pupil must meet requirements as delineated in the local attendance policy.
5. If a pupil has continued enrollment while absent from school, he/she will be eligible provided he/she is enrolled in and attends at least one course.
6. An athlete, whose education is interrupted after his/her entrance into the ninth grade and who does not pass the required courses at the end of the semester, upon being readmitted at the beginning of the next semester, is ineligible for failure to meet the requirements of this section.
7. An athlete who is ineligible under Section 6 of this policy may become eligible for the remainder of the winter sports season on February 1 if he/she meets the requirements as described in the opening paragraph of this policy.
8. Any summer work for make-up purposes, completed and approved by school before the sixth school day, in the semester starting September, may be used for eligibility purposes.

Athletic Competition

2431 **ATHLETIC COMPETITION**

The Board of Education recognizes the value of a program of athletic competition for both boys and girls as an integral part of the total school experience. Game activities and practice sessions provide opportunities to learn the values of competition and good sportsmanship. Programs of athletic competition, both intrascholastic and interscholastic, offer students the opportunity to exercise and test their athletic abilities in a context greater and more varied than that offered by the class or school or school district alone, and an opportunity for career and educational development.

For purposes of this Policy, programs of athletic competition includes all activities relating to competitive sports contests, games, practices, scrimmages, and events or sports exhibitions involving individual students or teams of students when such events occur within or between schools within this district or with any schools outside this district. The programs of athletic competition shall include, but are not limited to, high school interscholastic athletic programs, middle school interscholastic athletic programs where school teams or squads play teams or squads from other school districts, and/or intramural athletic programs within a school or among schools in the district and any cheerleading program or activity in the school district.

Eligibility Standards

A student who wishes to participate in a program of athletic competition must submit, on a form provided by the district, the signed consent of his/her parent. The consent of the parent of a student who wishes to participate in a program of athletic competition athletics will include an acknowledgment of the physical hazards that may be encountered in the activity.

Student participation in a program of athletic competition shall be governed by the following eligibility standards:

Academic Standards

All students will be expected to have successfully completed academic courses amounting to the normal progression expected of students toward meeting minimum State academic requirements for graduation (State minimum). In other words, a student entering his/her second semester of freshman year will be expected to have successfully completed one-eighth of the State minimum. Thereafter, as a student progresses through his/her secondary career, he/she will be expected to have completed satisfactorily one-eighth of the State minimum for each semester of attendance in a secondary school (e.g. twenty-five percent of the State minimum entering his/her third year and seventy-five percent of the State minimum upon entering his/her fourth year of secondary school).

It must be emphasized that these academic standards are minimal requirements.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY

Athletic Competition

1. According to regulations of the New Jersey State Board of Education, credits must be assigned equally to all secondary school courses. Thus, courses which at one time were considered "minor" e.g., physical education, art, music, industrial arts, etc., must be included in the determination of academic credits.
2. It is recognized that students may accelerate their academic programs during their first three years of secondary schooling. Consequently, such students may be eligible in the second semester of their senior year even when they carry less than 12 1/2 % of the State minimum during the first semester provided they are meeting their school district's graduation requirements and are passing all courses in which they are enrolled.
3. Schools will not be permitted to "average" academic achievement for students so as to allow them to be eligible even though they have not accumulated the requisite proportion of the State minimum according to their semester of attendance (e.g., a school may not allow a student who failed two courses in his/her first semester because he/she received an "A" in the remaining courses, so as to constitute an average of "C" or above for all courses).
4. If a student is to be graduated in June, has left school, but has re-enrolled, he/she will be eligible thirty calendar days from the date of re-enrollment. However, the student must meet requirements as delineated in the local attendance policy.
5. If a student has continued enrollment while absent from school, he/she will be eligible provided he/she is enrolled in and attends at least one course.
6. An athlete whose education is interrupted after his/her entrance into the ninth grade and who does not pass the required courses at the end of the semester, upon being readmitted at the beginning of the next semester, is ineligible for failure to meet the requirements of this section.
7. An athlete who is ineligible under Section 6 of this policy may become eligible for the remainder of the winter sports season on February 1 if he/she meets the requirements as described in the opening paragraph of this policy.
8. Any summer work for make-up purposes, completed and approved by school before the sixth school day, in the semester starting September, may be used for eligibility purposes.

Aug 10

2431.3 **PRACTICE AND PRE-SEASON HEAT-ACCLIMATION FOR INTERSCHOLASTIC ATHLETICS**

The Board of Education adopts this Policy as a measure to protect the safety, health and welfare of pupils participating in school-sponsored interscholastic athletic programs. The Board believes practice and pre-season heat-acclimation guidelines for student-athletes will minimize injury and enhance the student athlete's health, performance, and well-being.

For the purposes of this Policy, "practice time," means the time a player engages in physical activity. Warm-up, stretching, conditioning, weight training, and "cool-down" periods shall be calculated in practice time.

For the purposes of this Policy "walk-through" means practice time where no protective equipment or strenuous activity is permitted and only balls and field markers (cones) may be used.

The first five days of the Board approved pre-season practice shall consist of no more than three hours of practice time. This three-hour practice time during the first five days may be divided into multiple sessions, but total practice time shall not exceed three hours. Full protective gear required for any athletic program may only be worn by student-athletes on the third day of practice and thereafter. Activities during the first two days of practice will be limited to those activities where full protective gear is not needed or required. Protective headgear may be worn on the first two days. Full equipment shall not be worn for any practice that is held before the NJSIAA official start of practice date.

A student-athlete shall not be permitted to participate in a scrimmage for any sport until he/she has completed six complete days of practice.

An athletic team may not practice for more than six consecutive days and one twenty-four hour rest period must be included within a seven-day period. After the fifth day of practice, the maximum allotted time per day for practice shall not exceed five hours. The five-hour practice time may be divided into multiple sessions but total practice time in any day shall not exceed five hours. A five hour practice day may not be followed by a practice day greater than three hours. Therefore, practice days may follow a 3-5-3-5 forma. A minimum of a three-hour recovery period shall be provided after any session of greater than two hours in length and a three-hour recovery period should be provided before a walk-through.

2431.4 PREVENTION AND TREATMENT OF SPORTS-RELATED CONCUSSIONS AND HEAD INJURIES

A concussion is a traumatic brain injury caused by a direct or indirect blow to the head or body. In order to ensure the safety of pupils that participate in interscholastic athletics and cheerleading programs, it is imperative that student-athletes, cheerleaders, coaches, and parents are educated about the nature and treatment of sports-related concussions and other head injuries. Allowing a student-athlete or cheerleader to return to play before recovering from a concussion increases the chance of a more serious brain injury.

Every school district that participates in interscholastic athletics or cheerleading programs is required to adopt a policy concerning the prevention and treatment of sports-related concussions and other head injuries among student-athletes and cheerleaders in accordance with the provisions of N.J.S.A. 18A:40-41.1 at seq. For the purpose of this Policy, "interscholastic athletics" shall be Kindergarten through twelfth grade school-sponsored athletic programs where teams or individuals compete against teams or individuals from other schools or school districts. For the purpose of this Policy, "cheerleading programs" shall be Kindergarten through twelfth grade school-sponsored cheerleading programs.

The school district will adopt an Interscholastic Athletic and Cheerleading Head injury Training Program "to be completed by the team or school physician, licensed athletic trainer(s) involved in the interscholastic athletic program, all staff members that coach an interscholastic sport or cheerleading program, designated school nurses, and other appropriate school district at personnel as designated by the Superintendent. This Training Program shall be in accordance with guidance provided by the New Jersey Department of Education and the requirements of N.J.S.A. 18A:40-41 .2.

The principal or designee shall distribute the New Jersey Department of Education Concussion and Head Injury Fact Sheet and Parent/Guardian Acknowledgement Form to every student-athlete that participates in interscholastic sports and every cheerleader who participates in a cheerleading program. The Principal or designee shall obtain a signed acknowledgement of the receipt of the Fact Sheet by the student-athlete or cheerleader's parent and keep on file for future reference.

Prevention of a sports-related concussion and head injuries is an important component of the school district's program. The school district may require preseason baseline, testing of all student-athletes and cheerleaders before the pupil begins participation in an interscholastic athletic or cheerleading program.

The medical release/clearance must indicate the student-athlete is asymptomatic at rest and either may return to the interscholastic athletic activity or cheerleading program because the injury was not a concussion or other head injury or may begin the district's graduated return to competition and practice protocol outlined in Regulation 2431.4. A medical release/clearance not in compliance with this Policy will not be accepted. The medical release/clearance must be reviewed and approved by the school or team physician.

and management of concussions and other head injuries. The following steps shall be followed:

Step 1 – Completion of a full day of normal cognitive activities (attendance at school, studying for tests, watching practice, interacting with peers, etc.) without re-emergence of any signs or symptoms. If there is no return of signs or symptoms of a concussion, the student-athlete or cheerleader may advance to Step 2 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the pupil shall be required to have a re-evaluation by their physician or licensed healthcare provider. The pupil shall not be permitted to begin the graduated return to competition and practice protocol until a medical clearance, as required in E.3 above, is provided and approved by the school or team physician.

Step 2 – Light aerobic exercise, which includes walking, swimming, or stationary cycling, keeping the intensity less than 70% maximum percentage heart rate. There shall be no resistance training. The objective of this Step is increased heart rate. If there is no return of any signs or symptoms of a concussion, the student-athlete or cheerleader may advance to Step 3 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the pupil shall return to Step 1.

Step 3 – Sport-specific exercise including skating and/or running. There shall be no head impact activities. The objective of this Step is to add movement and continue to increase the student-athlete's heart rate. If there is no return of any signs or symptoms of a concussion, the pupil may advance to Step 4 below on the next day. If re-emergence of any signs or symptoms of a concussion occur, the pupil shall return to Step 2.

Step 4 – Non-contact training drills such as passing drills, agility drills, throwing, catching, etc. The student-athlete or cheerleader may initiate progressive resistance training. If there is no return of any signs or symptoms of a concussion, the pupil may advance to Step 5 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, the pupil shall return to Step 3.

Prevention and Treatment of Sports-Related Concussions and Head Injuries

Step 5 – The pupil’s medical condition, upon completing Step 4 with no return of any signs or symptoms of a concussion, shall be evaluated for medical clearance based upon consultation between the school district’s licensed athletic trainer, school or team physician, designated school nurse, and the pupil’s physician. After this consultation and upon obtaining written medical release/clearance approved by the school or team physician, the pupil may participate in normal training activities. The objective of this Step is to restore the pupil’s confidence and for the coaching staff to assess the pupil’s functional skills. If there is no return of any signs or symptoms of a concussion, the student-athlete may advance to Step 6 below on the next day. If a re-emergence of any signs or symptoms of a concussion occur, or if the pupil does not obtain medical release/clearance to proceed to Step 6, the school or team physician, in consultation with the pupil’s physician, shall determine the pupil’s return to competition and practice protocol.

Step 6 – Return to play involving normal exertion or game activity. If the pupil exhibits a re-emergence of any concussion signs or symptoms once he/she return to physical activity, he/she will be removed from further activities and returned to Step 5.

- G. Temporary Accommodations for Student-Athletes and Cheerleaders with Sports-Related Head Injuries
1. Rest is the best “medicine” for healing concussions or other head injuries. The concussed brain is affected in many functional aspects as a result of the injury. Memory, attention span, concentration, and speed of processing significantly impact learning. Further, exposing the concussed pupil to the stimulating school environment may delay the resolution of symptoms needed for recovery. Accordingly, consideration of the cognitive effects in returning to the classroom is also an important part of the treatment of sports-related concussions and head injuries.
 2. Mental exertion increases the symptoms from concussions and affects recovery. In accordance with the Centers for Disease Control’s tool kit on managing concussions, the Board of Education may look to address the pupil’s cognitive needs in the following ways. Pupils who return to school after a concussion may need to:

2435 - **NJSIAA RANDOM TESTING FOR INTERSCHOLASTIC ATHLETICS**

The Board of Education recognizes the use of harmful performance enhancing substances seriously threatens the health, safety, and welfare of pupil-athletes that participate in interscholastic athletics. This district's secondary school is a member of the New Jersey State Interscholastic Athletic Association (NJSIAA). It is a violation of NJSIAA's sportsmanship rule for any pupil-athlete to possess, ingest, or otherwise use any substance on NJSIAA's list of banned substances, without written prescription by a fully licensed physician, recognized by the American Medical Association, to treat a specific medical condition. Therefore, NJSIAA, in accordance with Executive Order 72, will test a random selection of pupil-athletes who have qualified, as individuals or as members of a team, for NJSIAA sanctioned State championship competition.

The list of banned substances, for the purposes of this Policy, shall be prepared and published by NJSIAA. Before participating in interscholastic sports, the pupil-athlete and their parent or guardian shall consent to random testing in accordance with NJSIAA's Steroid Testing Policy by completing and submitting to the school district NJSIAA's Consent To Random Testing Form. NJSIAA's list of banned substances shall be attached to the consent form and the consent form must be signed each school year. The failure to sign the consent form shall render the pupil-athlete ineligible to participate in all interscholastic sports until the form is signed. The signed Consent To Random Testing Forms shall be maintained in the Building Principal's office.

Pupil-athletes will be selected to be tested on a random basis from all athletes participating in championship competition in accordance with NJSIAA procedures. The test will analyze a urine sample. The methodology for taking and handling samples shall be in accordance with current legal standards and tests shall be administered by a certified laboratory designated by NJSIAA. No test shall be considered a positive result unless the approved laboratory reports a positive result and NJSIAA's medical review officer confirms there was no medical reason for the positive result. The sample will be split when taken and shall be available in the event of an appeal. A positive test result may be appealed in accordance with NJSIAA's appeal procedures. Results of all tests shall be considered confidential and shall only be disclosed to the individual, his or her parent(s) or legal guardian(s), and his or her school.

Any such person shall also forfeit any individual honor earned while in violation. No person who tests positive, refuses to provide a sample, or who reports his or own violation shall resume eligibility until he or she has undergone counseling and produced a negative test result. NJSIAA's Policy shall not prevent the school district from disciplining a pupil for violating the district's substance abuse policies or practices and a violation of a school district's testing program will not be reported to NJSIAA.

2436 ACTIVITY PARTICIPATION FEE PROGRAM

The Board of Education recognizes the value of athletic competition and co-curricular activities outside the regular instructional program. However, with reduced or limited revenue and increased expenses, the Board must consider alternative revenue options to support these school-sponsored activities. Therefore, the Board of Education authorizes the establishment of an activity participation fee program as a supplemental revenue source contributing to a percentage of the school district's total costs for operating school-sponsored activities.

The Activity Participation Fee Program will require pupil participating in a school-sponsored athletic or co-curricular activity to pay a participation fee. The specific and fee amounts will be recommended by the Superintendent of Schools and approved by the Board on an annual basis prior to the commencement of the registration or sign-up process for the activity.

Optional

- per pupil regardless of the number of activities the pupil elects to participate in throughout the school year. This per pupil annual fee shall be paid when the pupil registers/sign-up for his/her first activity of the school year. No refunds shall be provided in the event the pupil does not participate in any activity for any reason during the school year.
- per family (dependent children residing in the same household) per school regardless of the number of activities or programs the pupils elect to participate in throughout the school year. This per family, per school, annual fee shall be paid in the beginning of the school year. No refunds shall be provided in the event a pupil in the family does not participate in any activity for any reason during the school year.

Optional

The activity fee may be waived or reduced based on financial hardship using the New Jersey eligibility standards established for free and reduced price meals.

Each individual activity fee will be determined by considering the school district's cost for operating the activity to include, but shall not be limited to: coach/advisor salaries; equipment cost; facility rental fee costs; official/referee costs; event registration fees; school/facility/field preparation and maintenance costs; insurance costs; and other expenses incurred by the district in the operation of the activity. 2464 **GIFTED AND TALENTED PUPILS**

The East Orange School District recognizes that there are many pupils in grades Kindergarten through twelve who require differentiated learning experiences due to their outstanding abilities, performance, or potential. These abilities may emerge in general, intellectual, or creative thinking areas. The district has organized various programs (P.E.A.K. Quest, Talent Pool, P.A.C.E.) to accommodate pupils with these abilities. In addition, there are pupils who also may excel in specific content areas, particular facets of a content area, or in a specialty area. Specialty areas such as performance, leadership, or higher level thinking are the foci of Schools of Choice across the district.

Elementary/Middle School Programs

Each elementary school's gifted and talented program has a teacher of the gifted/talented who is designated as the Quest teacher for that building. Pupils are identified by the district's identification process. Pupils who contract to complete independent study projects, critical creative thinking activities and competitions are also invited to participate in the Quest program.

The Quest/P.A.C.E. teacher is responsible for teaching in a resource room setting. Responsibilities include the teaching of individual and small group investigations of real life problems. The elementary Quest teachers and middle school P.A.C.E. teachers also coordinate competitions such as debates, speeches, Future Problem Solving, Scenario Writing, Community Problem Solving, Odyssey of the Mind, and the Invention Convention. Coordination of school-wide enrichment activities is also the responsibility of each gifted and talented teacher. Quest and middle school P.A.C.E. classes meet three to four times a week during a period set aside for the program.

The middle school format for the gifted and talented consists of the following: First, the honors pupils in each subject are grouped according to the recommendations of staff in order to maximize the opportunity for excellence among academically able pupils within each content area.

Secondly, pupils who manifest exceptional creative thinking abilities attend a P.A.C.E. (Program for Autonomous Creative Experiences) period each day for the purpose of applying their creativity within the curricula and within special program activities.

Secondary Education Programs

The high school format is very similar to the middle school format and thereby encourages continuity and articulation from one level to the next.

In the high schools, pupils of high ability in grades nine through twelve are grouped in honors and Advanced Placement classes. In addition, a Schools of Choice SPICE component may be available in high school programs.

Programs for capable pupils in grades six through twelve have many similarities in all secondary schools. Programs abound with elements such as ability grouping, the identification of creativity and other special talents and skills. All P.A.C.E. classes follow the Autonomous Learner Model. The Autonomous Learner Model organizes the activities of high school pupils into five areas. In these areas, pupils become more aware of their capabilities and interactions with other people. They are exposed to new ideas and information. They give seminars reflective of their growing knowledge base, and they learn how to carry out in-depth studies. This model ensures that pupils become independent, responsible life-long learners.

R 2464 GIFTED AND TALENTED PUPILS

Overview:

The East Orange School District has a Gifted and Talented Program framework within which its schools have built the program structure which best matches the needs of their exceptionally capable pupils while assimilating the principles, spirit and intent of these schools' Whole School Reform models.

Each pupil in the East Orange School District is a unique individual with strengths to be nurtured and talents to be developed. Among these young people, however, are a few pupils with demonstrated or emerging exceptional intellectual, creative, and/or psychosocial/psychomotor abilities. They are the district's gifted population. Educators are challenged to provide these pupils with an enriched content and supportive environment, which supports their particular areas) of giftedness. Gifted and Talented Pupils

There are three categories of pupils for whom curricular and instructional adaptations are made in East Orange's Quest Program:

- A. Gifted - individuals who are exceptionally cognitively capable in Language Arts Literacy and/or Mathematics;
- B. Academically Talented - individuals who demonstrate superior cognitively capable in Language Arts Literacy and/or Mathematics along with superior strength in another content area, such as Science or Social Science.

A multiple criteria matrix is used to identify pupils. The Total Screening Score determines if he/she is eligible for participation in a Quest component. The following cut-off scores classify the pupil in one of the three categories listed below:

Gifted:	3.5 - 5.0
Academically Talented:	3.0 - 3.4

Talent Pool

Identification: Talent Pool - Grades 2 - 5

It is the intent that pupils who participate in Talent Pool will receive exposure and experiences in higher-level thinking and project activities as a precursor to the Quest Program.

Pupils who do not make the cutoff for the Quest Program, but demonstrate potential should be considered for the Talent Pool if the pupil meets the following screening guidelines:

1. Pupil test scores are within a tenth of a point of the recommended cut-off. (Terra Nova/Cognitive Abilities tests).
2. Teacher recommendations.
3. Interview the pupil or have him/her complete a project/product that illustrates potential for exceptional ability.

Pupils enrolled as first grade pupils and those who meet the following guidelines can participate in the Talent Pool program at grade one.

4. Teacher recommendation.
5. Kindergarten Terra Nova score.

Notify parents once a pupil has been identified as a Talent Pool candidate. All Talent Pool pupils must complete the identification process upon the completion of one year in the Talent Pool program. If a pupil still does not meet the criteria for Quest, but still demonstrates potential and continues to meet the above guidelines can remain in the Talent Pool program.

2466 **NEEDLESS PUBLIC LABELING OF PUPILS WITH DISABILITIES**

The Board of Education guarantees the privacy provided by law that no pupil with a disability be labeled publicly. Therefore, any reference to a pupil with a disability brought to the attention of the Board and/or any other potential public reference to a pupil with a disability will be through the use of a district-developed method of coding that would ensure a pupil's name or other labeling would not identify the pupil as a pupil with a disability. Examples where public labeling of pupils with disabilities shall be avoided include, but are not limited to, Board meeting agenda information, public address announcements, building/classroom signs, public school documents, and/or any other school publication identifying a pupil with a disability or class/program of pupils with disabilities.

Special education classes shall be referred to publicly by the name of the teacher. This applies to schedules, class lists, transportation lists, public address announcements, and any other form of communication that has any potential for any exposure other than for the use by appropriately authorized school staff.

2468 INDEPENDENT EDUCATIONAL EVALUATIONS

Special education law permits a parent to request an independent educational evaluation (IEE) for their child if there is disagreement with any evaluation provided by the Board of Education. An "independent educational evaluation" is an evaluation conducted by a qualified examiner who is not an employee of the public school district responsible for the education of the child in question. Such IEEs shall be provided at no cost to the parent unless the school district initiates a due process hearing in accordance with the provisions of N.J.A.C. 6A:14-2.7 et seq. to show that its evaluation is appropriate and a final determination to that effect is made following the hearing. If it is determined the school district's evaluation is appropriate, the parent shall have the right to an IEE, but not at the school district's expense.

Upon receipt of a parental request for an IEE, the school district shall provide the parent with information about where an IEE may be obtained and the criteria for IEEs according to N.J.A.C. 6A:14-2.5(c)3 and (c)4 and the additional criteria outlined below in this Policy:

1. Any IEE paid for with public funds shall:
 - a. Be conducted according to the provisions of N.J.A.C.6A:14-3.4; and
 - b. Be obtained from another public school district, educational service commission, jointure commission, a clinic or agency approved under N.J.A.C. 6A:14-5, or private practitioner, who is appropriately certified and/or licensed, where a license is required.
2. An independent medical evaluation may be obtained according to N.J.A.C. 6A:14-5.1(e).

Additional criteria for an IEE shall be as follows:

1. The Board will not pay for an IEE unless it complies with the following criteria unless the parent can show that unique circumstances warrant deviation from same:

The independent evaluator must be appropriately certified and/or licensed in the State of New Jersey. In instances where no applicable certification/license exists, the evaluator must provide the Board with documentation of extensive and recent training and experience related to the assessment of the known or suspected disability;

Independent Educational Evaluations

- a. The independent evaluator may only charge fees for educational evaluation services that, in the judgment of the Board, are reasonable in accordance with 2. below;
 - b. The independent evaluator must be free from any conflict of interest;
 - c. The independent evaluator and members of the Child Study Team must be permitted to directly communicate and share information with each other. The independent evaluator must also agree to release the assessment information, results, and report(s) to the school district prior to receipt of payment for services;
 - d. For any independent evaluation, whether paid for with public or private funds, the school district shall permit the evaluator to observe the pupil in the classroom or other educational setting as applicable; and
 - e. The independent evaluator shall make at least one contact with the pupil's case manager for the purpose of determining how the pupil is progressing in his/her current programming.
2. The maximum allowable cost for an independent evaluation will be limited to the reasonable and customary rate, as determined and approved by the Board annually. This rate shall be in the range of what it would cost the Board to provide the same type of assessment through either another public school district, educational services commission, jointure commission, a clinic or agency approved under N.J.A.C. 6A:14-5, or private practitioner, who is appropriately certified and/or licensed, where a license is required. This Board-approved rate shall be provided to the parent upon their request for an IEE. The Board shall not be responsible for any costs beyond the IEE, such as transportation, lodging, food, etc.
- a. The parent may provide documentation to the Board demonstrating unique circumstances to justify an IEE that exceeds the maximum allowable cost established by the Board. If, in the Board's judgment, there is no justification for the excess cost, the Board may agree to fund the IEE up to the school district's maximum allowable cost the parent responsible for the remaining costs. In the alternative, the Board may

request a due process hearing to enforce its established maximum allowable cost.

Upon receipt of a parental request for an IEE, the school district shall take steps to ensure the IEE is provided without undue delay or not later than twenty calendar days after receipt of the parental request. The school district shall request a due process hearing in accordance with the provisions of N.J.A.C. 6A:14-2.7 et. seq. to show that its evaluation is appropriate.

If a parent requests an IEE, the school district may ask the parent to explain why he or she objects to the school district's evaluation. However, the school district shall require such an explanation and shall not delay either providing the IEE or initiating a due process hearing to defend the school district's evaluation.

Any IEE submitted to the district, including an IEE obtained by the parent at private expense, shall be considered in making decisions regarding special education and related services.

If an Administrative Law Judge orders that an IEE be conducted, the IEE shall be obtained by the district in accordance with the decision or Order of the Administrative Law Judge, and the Board of Education shall pay the cost of the IEE in accordance with the provisions of this Policy.

A parent is entitled to only one IEE paid for by the Board each time the school district conducts an evaluation with which the parent disagrees.

2510 **ADOPTION OF TEXTBOOKS**

The Board of Education shall approve all textbooks used in the educational program of this district. "Textbook" means the principal source of instructional material for any given course of study, in whatever form the material may be presented, which is available or distributed to every pupil enrolled in the course of study.

The Board shall consider for approval only those textbooks that have been selected and recommended by the Superintendent.

In considering the approval of any proposed textbooks, the Board will weigh its value as a learning tool; its suitability for the maturity level and educational accomplishment of the pupils who will be using the book; its freedom from bias; its relationship to a course of study adopted by the Board; its relationship to a continuous multigrade program; its impact on community standards of taste; the manner by which it was selected; and its cost, appearance, and durability.

The Superintendent shall develop regulations for the selection of textbooks that include effective consultation with professional staff members at all appropriate levels.

Textbooks currently in use shall be periodically evaluated for their continuing usefulness and relevance and shall be replaced or updated with new editions as often as necessary to meet the needs of pupils and the curriculum.

A list of all approved textbooks shall be maintained and revised annually by the Superintendent and made available for the use of the professional staff and for the information of members of the Board and the public.

The Board expressly exempts from this policy such clothing or personal equipment as may be required by the Board for reasons related to the safety and health of pupils or the protection of school property and are individualized or non-reusable, and any materials used in the manufacture or preparation of useful or decorative items that pupils are permitted to retain, except that no pupil will be denied participation in any course of study or school sponsored activity because of his or her financial inability to bear the cost of such clothing, equipment, or materials.

The Superintendent shall develop regulations for the selection and utilization of instructional supplies that include effective consultation with teaching staff members at all appropriate levels.

2531 USE OF COPYRIGHTED MATERIALS

The Board of Education encourages teaching staff members to make judicious use of appropriate printed materials, sound recording, televised programs, and computer software in the curriculum but recognizes that federal law, applicable to public school districts, protects the originators of those materials from the unauthorized use of their copyrighted works. The Board expressly forbids the use of school equipment for the illegal reproduction of copyrighted materials.

In order to define the fair and reasonable use that teaching staff members may make of copyrighted works for educational purposes without the permission of the copyright owner and to reduce the risk of copyright infringement, the Board directs the Superintendent to promulgate regulations regarding the copying and distribution of copyrighted materials for instructional purposes.

Computer software may be reproduced only for archival purposes or when copying is an essential step in the utilization of the program. Computer software should be purchased in sufficient quantity to permit its classroom use without simultaneous loading. Where appropriate, the Superintendent shall seek a licensing agreement with the software publisher that permits the reproduction of software, the simultaneous use of software, and the purchase of multiple copies of software at discount prices.

Pupils and staff members shall be instructed that copyright infringement is a form of theft. A pupil or staff member who reproduces or uses copyrighted material in violation of this policy will be subject to discipline.

2532 - TEXTBOOK MANAGEMENT

A. Goal

The East Orange School District's Primary Goal is to provide the best possible instruction to our students. To accomplish this goal, the district must increase the effectiveness of its educational budget.

One way help achieve our goals is to ensure that all students receive the instructional materials they need, when they need them. Minimizing textbook costs, time and effort can and will be achieved by:

1. Providing each district school with access to material inventory management and reporting capabilities
2. Utilizing existing instructional material inventory already owned by the district to fulfill requests
3. Streamlining and automating school site requests and fulfillment operations
4. Implementing a barcode scanning process to track resource location at each school site
5. Managing Destiny school reports for inventory accountability and accuracy
6. Communicating instructional materials that are available to teachers in each school site.

B. Responsibilities

1. School Principals are responsible for textbook management in their schools. Management includes implementing procedures for distributing textbooks, conducting annual textbook inventories, placing textbook orders, and collecting fines for textbooks that are lost or damaged.
2. Teachers and other staff members are responsible for assisting with textbook management. Their responsibilities include assisting with the annual physical inventory, checking books in/out to students, and adequately safeguarding textbooks in their possession. At the end of the school year, teachers must return the textbooks and teacher materials assigned to them and must notify the designated school management team leader regarding lost or damaged textbooks and teacher materials. The team leader will ultimately relay this information to the principal after all reports are completed.

The District Textbook Management System is based on the following:

Newly adopted textbooks are district property; however, district textbooks that are lost after distribution to the schools are the responsibility of the school site. This means that the schools are responsible for the replacement of core textbooks. i.e. student fines, school budgets. Fines are established later in this document.

1. Unused textbooks must be adequately secured.
2. All district adopted textbooks must contain a district barcode and label. The barcodes should be placed on the back of the textbook on the upper right hand corner near the spine of the book and the barcode strip should be placed on the back of the last page of the textbook on the upper right hand side as well.
3. Textbooks must be tracked through Destiny Textbook Manager. This includes the transfer of books between schools.
4. The Department of Curriculum Services is responsible for establishing specific policies and procedures for managing the textbooks throughout the district and ensures that all schools, departments, and students adhere to the requirements.
5. Each school will request textbooks through each school's textbook management team following the district's procedures.
6. Each school site will hold the parent or student responsible for the loss or damage of textbooks assigned to the student for personal use.
7. The Principal/or each school's textbook management team leader will hold teachers responsible for instructional materials assigned to them for their personal use.
8. Annually, each school will take a complete physical inventory of the currently adopted textbooks located in the school. Guidelines to follow established by Curriculum Services.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2532/page 5 of 14

Please note:

All adopted textbooks are the property of the East Orange School District. Although school budgets are generated from central office to the schools, books which are delivered and/or transferred between schools are still the property of the East Orange School District. Books lost must be replaced at the school level and tracked by Destiny Textbook manager.

Barcodes

Currently adopted textbooks must have the district's 9 or 8 digit barcode attached to the back of each textbook in the upper right corner of the textbook. The strip which was originally attached to the barcode with the 9 or 8 digits should be attached to the inside cover in the upper right hand side. Additional barcodes should be kept in a secure location (filed and labeled) in the principal's or team manager's office. Additional textbook barcodes can be requested from the Curriculum Services office.

Storage

Extra textbooks should be stored in a secure location that is not readily accessible to students or teachers.

Textbook Request Forms

When additional core textbooks are needed to accommodate class or course enrollment, a TEXTBOOK REQUEST must be submitted by a department chair or a member of the school's textbook management team. Sample Forms are included in this policy.

Textbook Tracking

When additional textbooks are sent to a school due to new replacements, additional purchases or from another site, the books or kits must be electronically "received" through Destiny Textbook Manager. The textbook management team and/or the library media specialist must handle all textbook deliveries to accurately account for the additional inventory. This decision should be made at each school site. Additionally, textbooks sent from a site must be electronically transferred by the textbook management team member or the library media specialist in each school. This should be a school site decision.

Textbook Circulation Procedures

Circulating Textbooks

The Textbook Manager software enables schools to keep track of who has textbooks in their possession and helps to ensure that all students have the proper textbooks for their classes. School textbook managers/or textbook team leaders will:

1. Inform teachers of policies and stress that they are accountable for the textbooks checked out to them. This also means that students are to be held accountable for the books checked out to them by their teacher:
2. Scan IDs to ensure accountability.
3. Teachers should receive a computerized copy of their book lists from a site textbook team leader and develop a student listing of the books/barcodes distributed to each student.
4. Provide textbook due dates at the time of distribution or shortly after.
5. Inform teachers of potential fines for lost or damaged textbooks before or during distribution to students. It would be best to inform students and parents of the textbook policy. (Refer to pgs. 11, 12, 13)
6. Decide where textbooks will be distributed, if textbooks are all barcoded and accounted for in the classrooms.
7. Ensure that textbooks are arranged by title for ease of distribution.

Each school's Textbook Management Team will establish procedures for circulating core textbooks/materials effectively and efficiently to students at the beginning and end of the school year. This will assist the school management team with inventory control and will limit textbook loss. Department chairs/or teachers will collaborate with the textbook management team leader for check/out/in of student books at the beginning and end of the school year and/or at the time of a transfer of a student.

It is important to establish circulation procedures for students entering and exiting a school site during the school year. These procedures should be established at each school site and a copy of these procedures should be sent to the District's Director of Elementary/Secondary Education and to the District's Site Manager.

To assist school management teams with inventory control and to limit textbook loss:

1. Principals should have access to Destiny Textbook Manager to notify parents/guardians immediately of textbooks checked out by the students.
2. Teachers should also inquire whether a new student has a textbooks checked out from another school.

Textbook Management

To ensure an accurate accounting of textbooks, textbooks and teachers' editions are to be scanned and checked out to the teacher at the beginning of the year. During the inventory process at the end of the year, textbooks will be checked in. Textbooks should not be renewed from one year to the next by a student, if the same textbook is used during consecutive grades.

Classroom Sets

Student textbooks checked out to teachers are for classroom use only. Although teachers will not be held financially responsible for textbooks lost from the classroom, they are expected to develop a system for how all textbooks are accounted for, after textbooks are checked out to the teacher. Each textbook should then be scanned by ISBN numbers and reassigned to a student under the each student's name.

Teacher Edition Materials

One set of teacher materials for each course taught are checked out to the teacher.

Students

1. Students must reimburse the school for any lost or damaged textbooks issued to the student (including classroom set copies), excluding normal wear and tear.
2. Students failing to return their assigned textbooks forfeit their right to free textbooks until the identified- fine is paid.(See chart) Textbook costs to be sent to the schools via email or can be located from the textbook publisher. If a textbook is not returned or the applicable fine paid, the district may withhold grades at the elementary level, disallow participation in commencement exercises or other extracurricular activities or pursue other actions. There may be some causes where the repayment for the cost of a textbook may be impossible, in those cases, the school should have a plan in place for the student. I.e. assisting the library media specialists in the libraries with the various end of the year tasks or what the principal/textbook management team may deem relevant.
3. If a student fails to return the book or pay for it, the school will allow the student to use the textbook(s) at school during the day, but not outside of class.

4. Teachers and other staff members will be required to pay for teacher edition textbooks and other teacher materials assigned to them for personal use that are lost or damaged, excluding normal wear and tear.
5. Monies will be collected for textbook loss and damage. Books are considered damaged if they are defaced in any manner, making the book unusable excluding normal wear and tear.

The fine for a lost textbook is the replacement cost indicated in Destiny Textbook Manager. Replacement costs are updated annually. Principals may reduce or waive fines upon receiving a completed Request for Lost/or Damaged Textbook Waiver forms. Students who may qualify for an exemption or waiver of fines would be those students identified as homeless by the district. Those students will be required to do reasonable school service at the discretion of the principal. Please refer to the second bullet item. Any other waivers would be the sole decision of the principal only!

Graduating seniors/parents must be notified in writing no later than January 15th of their senior year of all fines owed for lost textbooks. All fines must be satisfied by May 15th of their senior year. For those students identified as homeless by the district, will be required to do school service at the principal's discretion.

District-wide Inventory/School Based Inventory

The East Orange School District's textbooks are district property and are tracked through Destiny Textbook Manager. A thorough inventory is to be conducted once a year to maintain an accurate record of textbook availability. Every School is to participate in the annual inventory at the end of the school year.

Establish Procedures for Inventory

The result of each school's inventory procedures should be that every textbook barcode is scanned. Each school's Textbook Management Team will put a plan in place considering how to systematically scan teachers' editions, sets assigned for classroom use, barcoded materials located with classrooms, departments, storage areas, textbook rooms etc.

Consideration should be given to the person responsible for locating the materials in the schools and making them accessible for arranging them so they can be scanned with minimal lifting etc. for the scanning of barcodes.

Consideration should be given to when items will be scanned. Plan to have all textbooks from students, teachers, and classrooms/offices scanned and accounted for prior to the last day of school.

PROGRAM - POLICY

Textbook Management

The School Management teams will manage the inventory through Destiny Textbook Manager. As the inventory is conducted, they will upload data and monitor the progress of the inventory. IT WILL BE NECESSARY TO PREPARE A VARIETY OF REPORTS TO INDICATE WHICH ITEMS ARE MISSING FROM THE INVENTORY. Consider where those materials might be located. Plan for a team member to locate and scan missing items when possible.

Provide Inventory Procedures to Staff

The purpose of a district wide inventory is to obtain an accurate accounting of textbooks at each school site. Let them know that overall, we will scan_____ textbooks worth_____. Our current reports indicate a total of _____ textbooks worth_____ are marked lost. The inventory will either confirm or rectify those numbers. As the team shares the inventory procedures, please help the staff understand the scope, importance and the purpose of tracking the task.

Suggested Inventory Timeline

1. Each school's library management team can begin inventory during the third week of May. This task will require after school hours which will be discussed at a later date. The Director of Elementary/Secondary Education will be in charge of the assigned allocated hours for each school's textbook management team. Involvement of District IT Personnel and the Project manager are required.
2. The textbooks, TE's and kits at each school site should be inventoried before students and staff leaves before summer vacation.
3. Inventories must be finished and a report indicating the Unaccounted for Copies are to be submitted to each school principal for his or her site within one week of the students' last day.
4. The School Management team will review each site's inventory and mark *Unaccounted for* textbooks and teachers' lost materials.
5. Each site's inventory should be finalized and the district textbook inventory will be closed within two weeks of the students' last day.
6. Each school's team leader should provide a Destiny Report to the principal and the principal should in turn send/or notify the district superintendent and the district site manager/or Director of Elementary/Secondary Education of each site's textbook inventory reports on or before the last week of June.

Part II Inventory Protocol and Procedures

Opening the District Inventory

Go to Textbook Manager then to Back Office then to Inventory. Your site has been assigned to a district textbook inventory.

Do NOT Start New inventory. The inventory is In Progress and is ready for you to begin scanning.

Inventory Protocol

District Inventory Specifications

1. Only textbooks and materials with barcodes are included in the inventory.
2. Student texts, kits and teacher editions/materials are included in the inventory determined by the district.
3. Textbook copies that are currently checked out are *Unaccounted for*.
4. Checked out textbooks will be checked in when scanned. This is true only when using a scanner attached to the computer.
5. Textbook copies that are Lost, In Transit, or Out for Repair are *Accounted for*.

Scanners

Your barcode scanner or a wireless scanner may be used to enter inventory data.

Every site was provided a wireless scanner and is responsible for the replacement if it is broken, lost, or stolen.

Upload Scans to Account for Each Barcode

Best Practices

1. To check in textbooks, scan student textbooks. Wireless scans must be uploaded to inventory frequently. Watch the screen to ensure the scan was processed.
2. Save all files in an inventory folder.

District-wide Inventory

All textbooks are the property of the East Orange School District and are tracked through Destiny Textbook Manager. A thorough inventory is to be conducted once a year to maintain an accurate record of textbook availability. Textbooks have been assigned to each site. It is imperative that every school participates in the district/school wide inventory to ensure textbooks that have been transported with students to new schools or are found at a new location, bookshelves, closets, desks, etc. are accounted for

Scanning Copy Barcodes vs. Uploading Barcode Files

The EOSD uses wireless scanners with the Destiny textbook manager; however there may be a time when both types of scanners to complete inventories are used. Destiny Textbook <Manager handles the information differently depending on how the barcode is inputted.

When scanning copies directly into Inventory using the wired barcode reader

1. An alert message appears at the top of the main Inventory page if there is a problem.
2. The copy status of any Lost textbook is changed to *Available*.
3. To view a list of barcodes scanned run the reports on the Progress Details page in Inventory

Monitor your screen for prompts to address issues as they arise.

When uploading a .txt file of scans into Inventory from a wireless scanner.

1. Lost copies remain lost.
2. Checked-out copies remain checked out.
3. To view a list of barcodes scanned in each.txt file open the Inventory Job Summary report in Job Manager.

Monitor Inventory Job Summary Reports to address issues with each upload.

Important to Know.....

To check in and inventory textbooks at the same time, upload the .txt file to Offline Circulation rather than Inventory.

Offline Circulations will touch Inventory, but Inventory does not touch Offline Circulations.

Inventory Job Summary Reports

Destiny makes an entry in the Job Summary for every barcode number in the uploaded .txt file. For most accurate results preview the job summary report and satisfy exceptions immediately.

Exception: "Skipped: Barcode number not found"

Solution: Add the copy to the textbook collection

Exception: "Barcode number has been accounted for, but is currently checked out and has a due date of date due"

Solution: Enter the barcode on the main Inventory page or Check In Text page

Exception: "Barcode number is currently Lost"

Solution: Enter the barcode on the main Inventory page or Check In Text page

Important to Know.....

If a textbook is marked Lost at School A and is scanned during inventory at School B, the book is marked *Available* at School B, the book is marked *Available* at School B and disappears from School A's inventory. This is only if the book has been purchased by the district and there is no shortage of that textbook in school A. If the book is a replacement which was purchased from the School A principal's account, then the book should be transferred back to School A or by principal agreement.

If a textbook is found without a barcode on the back inside cover or the inside barcode on the front of the book, attach a barcode and add the copy in Destiny Textbook Manager.

If a barcode has been removed, edit the copy by assigning a new barcode. Attach the barcode to the back cover and replace the inside sticker.

Transferring Textbooks

A key feature in Textbook Manager is the ability to transfer textbook inventory between sites. At-a-glance information lets textbook administrators know the availability and location of textbooks throughout the district and allows them to move textbooks in the database to sites that need them.

Policy/Regulations

East Orange Board of Education

PROGRAM - POLICY
2532/page 13 of 14
Textbook Management

Transferring textbooks from a school with a surplus to a school with a shortage helps save the district money. While either the district or a school can initiate transfers with Textbook Manager, most districts have a policy that requires a school to request needed textbooks from the district; thus, the transfer process begins when the district receives the request.

A transfer can occur in three ways:

1. Site-Initiated Transfer
2. Site-to-Site Transfer (which does not involve the district at all)

A site-initiated transfer is probably the most typical and follows this general process:

1. The site with the shortage (site A) requests with a transfer notice for textbooks from another site (site B, the site with the surplus) after identifying the surplus in the school with Destiny Textbook manager.
2. The site with the surplus (sending school) prepares the textbooks and arranges to have the books hand delivered or the school in need can arrange to have books picked up. Make sure all books are counted before leaving the school and counted at the receiving at the school. The sending school will not do any scanning.
3. The receiving school will click *circulation* and scroll to *copy* status and then scan each barcode.
4. Once barcodes are scanned at the receiving schools, the textbooks will automatically delete from the sending school's list on textbook manager.

Part III Monitoring Your Inventory

Monitoring Inventory Progress

1. Go to Back Office>Inventory
2. Use % Complete to monitor how much of your textbook collection has been inventoried.
3. Use See Details or Run Report to monitor barcodes, titles, copy status (if checked out or lost, the status includes the patron name attached), and last seen dates.

Monitoring Lost Books and Fines

1. Go to Reports> Textbooks> Lost Textbooks and Fines
2. Click on Copies: <number> to view title, barcode, date marked lost, and if it was checked out, patron, current site, and fine amount.

Part IV Finishing Your Inventory

Once every textbook at each school site has been scanned and inventoried, you are ready to provide your principal, textbook manager, and District Destiny Administrator, and Input manager of data with an inventory report of textbooks/ materials found and not found.

Copies that are *unaccounted for*.....

Go to Inventory> In Progress Inventories> Program Details

1. Your textbook inventory is finished. Click Finished and confirm that you are done with your part of the inventory. Then finalize your inventory and mark
2. *Unaccounted for* materials Lost.
3. Lost reports will be submitted to curriculum and the Superintendent.

Part V Textbook Collection

School Site Suggestions:

1. Decide how to organize and where to store textbooks.
2. Decide which collection option to use:
 - Teachers can collect textbooks from students during each class period.
 - Students can go to a central location during each class period with the corresponding textbook. (This option may could be relevant at the secondary level)
 - Students can return all textbooks issued to them in a central location.
3. Collect textbooks from both teachers and students.
4. Collect textbooks from both teachers and students.
5. Check the condition of each textbook to ensure that it is not damaged. Note the condition of the textbook in the software. Decide whether to assess students and teachers fines for damaged textbooks:
 - If assessing fines, decide whether to charge the full replacement cost or the depreciated value.
 - Decide when to mark unreturned as lost; for example, one day (or longer) after the due date.
6. Decide whether to start an inventory before textbook collection.

2624 GRADING SYSTEM

The Board of Education recognizes that a system of measuring, recording, and reporting the achievements of individual pupils is important to the continuing process of learning. The Board, therefore, directs the instructional program of this school district include a system of grading that measures progress toward the New Jersey Core Curriculum Content Standards and the educational goals of the district.

Pupils shall be informed at the outset of any course of study of the behaviors and achievements that are expected of them and shall be kept informed of their progress during the course of study. As a rule, grading should reward pupils for positive efforts and minimize failure, and pupils should be encouraged to evaluate their own achievements.

The Superintendent shall develop and continually review in consultation with teaching staff members, parent(s) or legal guardian(s), and pupils, a grading program appropriate to the course of study and maturity of pupils. The final decision on any contested grade will be the responsibility of the Building Principal. A pupil classified as disabled will be graded in accordance with his/her Individualized Educational Program (IEP) or the Section 504 Plan.

Evaluation of Individual Pupil Performance

The Superintendent, in consultation with the teaching staff, shall develop a marking system to be used uniformly in the same grade level throughout the schools. The system should be clear, easily understood by parent(s) or legal guardian(s) and pupils, and able to be applied with consistency of interpretation. Computation of grade-point average and rank in class shall be uniform throughout the district. Evaluation and grading symbols shall be attended to appraise the pupil's progress toward established goals, and shall be a factor in promotion/graduation decisions.

The Board of Education encourages the certified staff, under the direction of the Superintendent, to employ a comprehensive approach to the use of appraisal and evaluative techniques in monitoring pupil progress, including, but not limited to, recognized standardized achievement testing programs, written and oral teacher-made tests, performance observation, parent(s) or legal guardian(s) interviews, formal and informal evaluation techniques, use of cumulative pupil records, and medical examinations.

2631 **NEW JERSEY QUALITY SINGLE ACCOUNTABILITY CONTINUUM** **(QSAC)**

The Board of Education and Superintendent of Schools will work with the New Jersey Department of Education to comply with the requirements of the New Jersey Quality Single Accountability Continuum (QSAC) system in accordance with the provisions of N.J.A.C. 6A:30-1.1 et seq. QSAC is the New Jersey Department of Education monitoring and evaluating system for public school districts. Public school districts in New Jersey are evaluated in five key component areas of school effectiveness – instruction and program, personnel, fiscal management, operations, and governance – to determine the extent to which the school district is providing a thorough and efficient education.

Weighted quality performance indicators established by the Department of Education shall be used by the Commissioner of Education to assess school district performance and capacity during the comprehensive reviews pursuant to N.J.A.C. 6A:30-3.1 through 3.4, the in-depth evaluation pursuant to N.J.A.C. 6A:30-5.3, and monitoring of an approved QSAC district improvement plan pursuant to N.J.A.C. 6A:30-5.6. The weighted quality performance indicators shall also be used by the Commissioner in determining whether to initiate intervention activities pursuant to N.J.A.C. 6A:30-6.2, withdrawal from intervention pursuant to N.J.A.C. 6A:30-7.1, and initial placement of Level II, Level III, and State-Operated School Districts on the performance continuum pursuant to N.J.A.C. 6A:30-8.3.

The Commissioner shall conduct a comprehensive review of each public school district every three years. In the intervening years, the Commissioner shall assess the school district's performance to determine whether conditions exist in the school district that significantly and negatively impact the educational program or operations of the school district.

The Superintendent shall be responsible for completing the District Performance Review in accordance with the requirements as outlined in N.J.A.C. 6A:30-3.2. The District Performance Review and a Statement of Assurance prepared in accordance with N.J.A.C. 6A:30-3.2(e) shall be approved by the Board of Education by resolution and submitted to the County Superintendent of Schools in accordance with the provisions of N.J.A.C. 6A:30-3.2(f) and (g). The district's District Performance Review and the Statement of Assurance will be reviewed and evaluated in accordance with the requirements of N.J.A.C. 6A:30-3.3. The Commissioner shall issue a final determination of the school district's performance and initial placement on the performance continuum in accordance with N.J.A.C. 6A:30-4.1.

The district will be required to commence improvement activities as set forth in N.J.A.C. 6A:30-5.3 through 5.7 in the event it satisfies less than eighty percent of the weighted quality performance indicators in one or more key components of school district effectiveness. Where appropriate, pursuant to the factors as outlined in N.J.A.C. 6A:30-6.2, the Commissioner may seek forms of partial or full intervention in a school district as outlined in N.J.A.C. 6A:30-6.1 et seq. Withdrawal from partial or full State intervention shall be in accordance with the provisions of N.J.A.C. 6A:30-7 et seq.

No provision of N.J.A.C. 6A:30 – Evaluation of the Performance of School Districts, shall limit the ability of the Department to monitor public school districts’ practices by, among other things, conducting on-site visits to observe instructional practices and school facilities or take other such action as in the judgment of the Commissioner or his/her designee that may be warranted to ensure the satisfaction of any statutory or constitutional obligation.
