Seligman USD#40

*School Bus
Information*

2014-15
School Year

SAFELY TRANSPORTING YOUR STUDENT IS OUR PRIORITY

Seligman USD#40's first priority is to assure the safety of all students who are provided district transportation. Student transportation is a privilege and is not required by state law. Students are expected to adhere to safety rules and to the directions of the driver, teacher or school employee on the bus.

Students who do not behave or obey safety and conduct rules on the bus may be subject to suspension of their bus riding privileges.

School bus drivers are trained and responsible for the safe transportation of students. Only students authorized to be transported will be allowed on school buses. If your child needs to ride a different bus, or needs to get off at a different bus stop, it must be authorized through the office prior to bus departure time.

Students must be picked up at their bus stop before they will be allowed to leave the area. Students who are not picked up at their bus stop will be transported back

to the school. Attempts to locate the parent and/or guardian will be made. Please make sure that the Office has current phone numbers including work, home and emergency contacts for your child. If a child is returned to school more than two times their bus riding privilege may be revoked.

School Bus Safety Devices

School buses abide by a host of federal, state and local regulations that govern their production, maintenance and operation.

Amber Warning Lights

These lamps are activated prior to the school bus stopping to load or unload students. You do not have to stop, however, use caution if passing.

Red Warning Lights

These lamps are activated once the school bus is stopped to load or unload students. You may not pass a school bus if the red lights are activated.

Stop Arm

The stop arm is deployed when the Red Warning Lights are activated during loading and unloading. You may not pass a school bus if the stop arm is deployed. Some of our school buses are equipped with two stop arms, helping to communicate to following motorists of the school bus being stopped.

Motorists not obeying regulations will be reported to the proper authorities.
