FOR STUDENTS, BY STUDENTS, OF THE STUDENTS

VTMS RULES & POLICIES & WHY THEY MATTER

By Daisy Arroyo

Here at Von Tobel Middle School we do have rules but of course every school has rules and policies. This school has many CARING teachers and students that practice the rules daily. Von Tobel's rules are to be respected so we have an orderly campus and a focus on learning. Rules like no chewing gum at all (it's not allowed on campus or ANY CCSD campus for that matter), no running in the halls because we can hurt each other and keep our hands to our selves, are important. But one of the main rules is to not bully others.

Rules and Policies are very important and they have to be followed because if you don't follow them you can get in very big trouble. Rules are a part of EVERY DAY life. When students disobey the rules of the school of course there will be consequences. Some of the consequences to not following the rules are going to talk to Principal Ditto, expulsion, and you could even be arrested for major policy breaking. So focus on positive and educational work, not rule breaking. Rules are there for a reason.

- Latch – Disclosure ft. Sam Smith

These are the songs most 6th, 7th, and 8th graders are listening to right now. Students that love this music chose these 10 favorite songs. These are not in popular order, just randomly chosen by informal data collection in my math class. #10 doesn't mean the least liked song, as #1 isn't the favorite. These were just the very most popular songs played and enjoyed. Listen today and be musically empowered! Happy listening Tigers!
