General Information

Your child's application, when submitted, will be put on file when it is received in the school office. Students are selected by a lottery draw when an opening occurs. When your child's name is drawn, you will be notified and requested to submit a permanent school record and transcript from any previously attended schools, health records, and any other pertinent information that may be of help in determining admission. Do not send us this material unless requested by the University Schools.

Testing and Research: The required testing program at University Schools includes group standardized achievement tests given periodically throughout the 13 year program and TCAP tests. Other special testing is available to meet special needs. All test results are open to parents upon request in the Student Services Center.

High School Parents: Only students who have successfully completed 8th Grade will be admitted. Upon admittance to our high school program, your child will take placement tests in reading, writing and mathematics to assist in developing an appropriate class schedule. You will complete and sign a registration packet containing scheduling information. University High School has an open campus policy which means that it is not mandatory that the student remain on campus (within grounds) during any free periods.

All Parents: Upon admittance to University Schools, a registration packet must be completed. A birth certificate, current physical and immunization record must accompany the registration packet. If you should decide at some time in the future that you no longer want your child's name to remain in our lottery files, we would appreciate notification as soon as possible. Also, please keep us advised of address changes. This information is pertinent if your child's application is drawn. Parents are responsible for transportation.
