

Cyberbullying

Cyberbullying includes the transmission of harassing communications, direct threats, or other harmful texts, sounds, or images on the Internet, social media, collaboration platforms, or other technologies using a telephone, computer, or any wireless communication device. Cyberbullying also includes breaking into another person's electronic account and assuming that person's identity in order to damage that person's reputation.

Students are encouraged to notify school staff when they are being bullied or suspect that another student is being victimized. Notification can be made directly to a teacher or administrator, or may be done anonymously through the Sprigeo link at the left.

When the circumstances involve cyberbullying, individuals with information about the activity are encouraged to save and print any electronic or digital messages sent to them that they feel constitute cyberbullying and to notify a teacher, the principal, or other employee so that the matter may be investigated. If the student is using a social networking site or service that has terms of use that prohibit posting of harmful material, the Superintendent or designee also may file a complaint with the Internet site or service to have the material removed.

Discipline

Any student who engages in bullying on school premises, or off campus in a manner that causes or is likely to cause a substantial disruption of a school activity or school attendance, shall be subject to discipline, which may include suspension or expulsion, in accordance with district policies and regulations.
