

Dear Prospective Family Members and High School Student,

Innovations' College and Career Awareness Preparatory Academies (ICCAPA) are offered as learning opportunities related to professional careers that may be of interest to our students. Students within Innovations International Charter School of Nevada may select a program of study at the end of middle school as a path for creating an awareness of career opportunities relative to the fields of study for which a student may have an interest.

Innovations' College and Career Awareness Preparatory Academies (ICCPA) provided specialized educational services to our students. Through the use of these specialized services and with the incorporation of school-based tutorial services, students are able to master the Core Content and Accountability Measures mandated for high school graduation while investigating additional courses leading to certifications and/or college preparatory work. Each student has a Personal Education Plan used by families, students, and the school's staff to plan and maintain an academic roadmap for all students.

Students attending the school will complete a yearly enrollment/re-enrollment packet to remain as an active student. No tuition is necessary for attending Innovations International Charter School. However, some small program fees may be necessary for additional individual student supplies. Innovations will be considered the student's home school for each academic school year he/she is enrolled.

Innovations International Charter School of Nevada (IICSN) is committed to providing a high-quality learning environment free from discrimination on the basis of race, creed/religion, color, national or ethnic origin, sex, gender identity or expression, sexual orientation, disability, marital status or age in admission or access to, treatment or employment in, or participation in its programs and activities, and provides equal access to other designated your groups, pursuant to federal and state laws including, but not limited to, Title VI and VII of the Civil Rights Act, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, and the Individuals with Disabilities Education Improvement Act.

If you should have questions or concerns, contact your teacher, counselor, or school administrator. These individuals will assist you in seeking further assistance as needed.
